COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP ASTHMA and CONSUMPTION

Many years official, instead of sinearing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sauguine expectations of its friends .---Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afficied they can never forget, and produced cures too numerous and too emarkable to be forgotica.

While it is a flaud on the public to presend that any one Medcine will infallibly cure-still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost inariably cure the malidies for which it is employed.

Assime makes these facts wider and hetter known, this medieine has gradually become the best reliance of the afficied, from the log-cabin of the American Peasant; to the palaces of European Kines. Throughout this gatire country, in every state, city. and indeed almost every hautet it contains, Cherry Pestoral is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent physicians. In Great Bri tain. France and Germany, where the medical sciences have reached their highest perfection. Cherry Pectoral is introduced. and in constant use in the armies, hospitals, alms home , Publie Institutions, and in domestic practice, as the surcest remedy their attending physicians can employ for the more dencerous affections of the longs. Also in unider cases, and for children at is safe, pleasant and effectsal to over. In fart, some of the most flattering testimonials, we receive have been from parents who have found it effected airs in cases particularly incidental to childhood.

The Cherry Preteral is m and every ounce of it under his own eye, with invariable accuraey and care. At is scale I and protected by law from counterfeits, consequently can be relied on as require, without adulterition.

We have endeavored here to furnish the community with a medicine of such intrinsi¢ superiority and worth as should commend itself to facir confidence-a temedy at once safe, speedy and effectual, which this has by repeated and countless trials Eric Nov. 32 1532-25 Just Country, Just openen at J.
