For the Cure of COUGHS, COLDS

HOARSENESS, BRONCHITIS. WHOOPING-COUGH, CROUP ASTHMA and CONSUMPTION

Many years of trial, instead of impairing the public confidency in this medicine, has won for it an appreciation and notoriety be for exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it cojeys. While many inferior remedies thrust upon the community, have failed and teen discarded, this has grined friends by every trial, conferred benefits on the afflicted. they can never forest, and produced cures too numerous and too cmarkable to be forzotten.

While it is a fraud on the public to preten I that any one Medicine will infallably cure-still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably cure the malidies for which it is employed."

As time makes these facts wider and better known, this medidine has gradually become the best reliance of the afflicted, from the for cabin of the American Pensant, to the palaces of Europeon Kings. Throughout this entire country, in every state, city. and indeed almost every bamiet it contains. Cherry Pectoral in known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent physicians. In Great Bri min, France and Garmany, where the medical sciences have received their highest perfection, Cherry Poetoral is introduced. and it constant use in the armies, homitals, aims house. Publie fristitutions, and in domestic practice, as the surest remedy their attending physicians can employ for the more dengerous a feations of the inugs. Also, in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, some of the most fluttering testimonials we receive have been from parents who have found it efficacious in cases particularly indidental to child-

cy and care. It is scaled and protected by law from counterfeits, consequently can be relied on as genuine without adulter-

ation.
We have endeavored here to furnish the community with a medicine of such intripate superiority and worth as should commend stant to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be ; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford physicians a new agent on which they can rely for the best results, and the affreted with a remedy that will do for them all that medicine

can do.
