To Professor Holloway, Fir—At the age of thing wife (who is
no 61) caught a violent cold, which settled in her legs, and ever
since that time they have been more or less sore, and greatly inflamed. Heragonies were distracting, and for months together
she was deprived entirely of rest and sleep. Every remedy that
medical men advised was tried, but without effect: her health
suffered severely, and the state of her legs was gerible. It had
often read your advertisements, and advised her to try your Pills
and Unitment; and, as a last resource, after every other remody
had proved uscless, she consented to do so. The commenced six
weeks ago, and, strange to relate, is now in good health. Her
legs are printiess, without scan or sear, and sleep is sound and
undisturbed. Could you have witnessed the sufferings of my
hile during the 43 years, and contrast them, with her pleasant enjoyment of health, you would indeed feel delighted in having
been the means of so greatly alleviating the sufferings of a fellow
carrier. (Signed)

To which are appended a Glossity of Law terms and a comous Index. By James D. Dundap, Controllor at Law, &c. Second Edition. Frice—Four Bollars.

The publishers have already received from nearly all of the President Judges of our State, and from other gentleman eminent in the legal profession at exceptions of the work, which are of a highly complimentary instare. The following are selected from a large sumber of an equally known to character. in the legal profession their opinions of the work, which are of a highly complimentary inture. The following are selected from a large number of an equalty favorable character—

Wellshorough, April 6 1852.

Gentlemen: The collections of court frank for conveyancing, work in 1845, needed revision to make them convenient, and to adapt them to changes which legislation had rendered necessary in the practice in the courts in Pennsylvania.

Your edition of that work therefore received, as it inertied, the approbation of the legal protession, and supplied a want which was felt by business men generally throughout the State.

After the numerous restimunials which you have received from eminent judges, in respect to the usefulness and excellence of that work, commendation of it from me would be superfluous.

I may be permitted, however, to remark that I approve of the general character and arrangement of the work, and, having expensive the state of the section of the public to the fact that they are receiving a large and well selected as four stock comprises the greatest variety of Dress thoods Prints, Shawls, Hossiery, India Rubber Shoes and domestic goods which was felt by business men generally throughout the State.

After the numerous restimunials which you have received from eminent judges, in respect to the usefulness and excellence of that work, commendation of it from me would be superfluous. may be permitted, however, to remark that I approve of the general character and arrangement of the work, and, having examined a portion of the new edition which you are publishing. I may add that the author has greatly cularged and improved his first edition, and that, when published, his book will be the most convenient and metal one of the kind extant.

Wessers, E. C. & J. Biddle,

Messrs. E. C. & J. Biddle. Gentlemen: "Dunlap's Convey meeing and Forus" is a work of decided merit. I am gind to find that it is to be reproduced, a tin many valuable additions. It should be in the hands not only of lawyers and magistrates, but of the bissiness community generality. There is scartedy a position in the in which a man will not occasionally find himself in need of the assistance of such a work.

I hope the author may be abundantly renumerated for the earning and industry bestowed upon it.

With great respect, yours, &c.,

Messrs, E. C. & J. Biddle.

Greensburgh: April 9, 1042

Huntingdon, April 36 1832.

Gentlemen; Important changes in our statutes, since the publication of "Duning's Conveyancing and Forms," seemed to call for some cultargements of that excellent and highly useful work.
