I am convinced that it will cure almost every chronic disease if taken in time.

CHEAPEST book ever published, and containing nearly double the quantity of reading matter is that of the FIFTY CENTS or DOLLAR PUBLICATIONS, intreatsor the Physiology of Marriage, and the secret infirmites and disorders of joint and maturity resulting from excesses which destroy the physical and mental powers, all diseases arising from indiscretion, with plain and simple rules by which all persons can cure themselves without mercury, with the author's observations on marriage its duties and disqualifications, and their remedies with colored ithwithout neccury, with the author's observations on marriage its duties and disqualifications, and their remedies with colored lithographs, illustrating the anatomy and physiology, and diseases of the reproductive organs of both sexes, their fructures, uses and functions. It contains many important hints to those contemplating marrimony which will overcome objections against marriage; none however, should take this important step without first consulting its pages. It treats of all diseases of females whether married or single. Hints to those who desire no more children. Strangers who require medical aid, before consulting any doctor, ought to know whether their cases are properly understood by those whom they employ, and thus guard against the imposition of quackery, so prevalent in populous cities. Hence the advantage of a popular knowledge of oneself, such as is given in this work.

If medical authorism be the test of talent, and enlightenment be sought from books, let common sense discriminate between truthful similarity and outrageous speciousness and hombast. Dr. La Croix is a legally qualified physician, and for the last twenty years has been daily consulted upon the different diseases upon which his book treats, personally as well as by letter. Any person sen lying twenty-five cents in a letter, post paid, will receive one copy by mail, free of postage, or five copies for \$1.00. Address DR, M. B. LA CROIX, Se ficaver et 1, P.O. Your edition of that work therefore received, as it merited, the approhation of the legal profession, and supplied a want which was felt by business men generally throughout the strate.

After the numerous testimonials which you have received from emment judges, in respect to the usefulness and excellence of that work, commendation of it from ne would be superfluous.

I may be permitted, however, to remark that I approve of the general character and arrangement of the work, and, having examined a portion of the new edition which you are publishing. I may add that the author has greatly entarged and improved his first edition, and that, when published, his book will be the most convenient and useful one of the kind estant.
