

PLACING THE MERRIMAC IN SAN, AGO CHANNEL.

In sinking the Merrimac in the channel of Santiago de Cuba the work required a first-class naval officer who knew how toput a spring on the cable and let the cur-rent or tide carry out his wishes in regard to swinging his ship at a right angle to the channel previous to sinking her. To put a line on a cable a line or chain is passed out of an aft chock, or port, led forward and bent on the chain attached to the suchor that is to be used. On letting of the anchor the cable is paid out forward and aft un-til enough cable has run out to hold the ship broadside to the tide. Then the cables are made fast, and by paying out cable at either bow or stern, as may be required, the ship will swing by the action of the tide to any desired angle.

Reject All Overtures Looking to Com-bines with Other Parties. Omaha, Neb., June 18.—The confer-ence of the populist national commit-tee yesterday adjourned sine die. The final outcome was the practical rout of the middle of the road crowd. There will be no convention in 1899 to outline the policy of the party. In 1900 there will be an early convention to nomi-nate a national ticket, the same to be held prior to the democratic conven-tion. No overture looking to fusion will emante from the national com-mittee and none will be received and entertained by it. The national committee is required to keep its hands off in state cam-paigns, or if its assistance be invited it may interfere only on behalf of the populist ticket and not to assist in fusion.

The may interfere only on behavior of the populist ticket and not to assist in fusion. The effort to force Chairman Butler to resign proved futile and he will continue to act until the next national convention in 1900.

A QUINTUPLE LYNCHING Alabama Regulators Punish Five Dusky Murderers.

Alabama Regulators Punish Five Dusky Murderers. Montgomery, Ala., June 18.—The men who murdered Mr. Carden, his wife and an old man named Carlee, near Wetumpka, were lynched yester-day. Thursday night Gov. Johnson received a message from the sheriff that a mob was assembling and he asked for troops. The governor got together about 90 militlamen and sent them to Wetumpka. Before they reached there, however, the mob had secured the prisoners—five in number —and took them to the scene of the murder. Four of the negroes con-fessed to having participated in the crime and one of them told where he had hid the money. He was compelled to find it and in a few minutes all five were swung up and their bodies rid-dled with bullets.

FIRST BATTLE ON LAND. Ipaniards Assail Our Marines at Gaunta-mamo – A Fiercely Contested Skirmish Follows, the Fight Heing Waged for 13 Hours—The Enemy Repulsed. Port Antonio, Jamaica, June 13.— The invasion of Cuba by the American forces began Friday. Six hundred ma-rines pitched their tents about the moking ruins of the outer fortifica-tions of Guantanamo and the stars and stripes for the first time float from a Spanish flagstaff in cuba. To belong the honor of accomplishing the first successful landing of the war. Forty marines from the battleship went ashore and occupied the left en-trance of the bay until the troopship Panther arrived with 600 marines. These arrived at 3 o'clock and within balf an hour they had burned the buildings of the Spanish camp and set fire to the little village which crouched on the beach under the hill or Guantanamo. set fire to the little village which crouched on the beach under the hill top of Guantanamo. The Marblehead, Visen and Dolphin opened fire on the earthworks. The shores to the right of the entrance were lined with guns and rifle pits, but the Spaniards stampeded after firing a few shots. The eity of Guan-tanamo lies four miles up the bay and a little Spanish gunbat came down to help the shore batteries. But she stayed just long enough to turn around. Numerous shots were fired by the Spaniards, but not one landed and no Americans were injured. The main fort lies within the city limits and is still to be reduced, but it is not in a difficult position and the American officers say it can be taken in 15 minutes when desired. In controlling the harbor of Guan-tanamo Rear Admiral Sampson se-cures possession of the Cuban termi-nus of the French cable to Hayti. Lieuts. Ne-ville and Shaw, of Co. D, with 30 men were on picket duty all night and were attacked by a heavy force of Spaniards. All the men killed were in this detachment except Dr. Gibbs, who was shot while in camp. The pickets held the Spaniards off until released Sunday morning. Reinforcements were landed from the Texas and Marblehead in the morning. They consisted of 60 men and two rapid-fire guns. The men are suffering greatly from heat and thirst, but they are all behaving splendidly in and out of fire. After McCalligan and Dunnrtshy were killed their heads were shocking-ly mutilated with matchetes. Late in the morning the Spaniards opened fire from two guns on the west side of the harbor. The shots flew wild. The Texas, Yankee and torpedo beat Porter, which were lying in the har-bor, opened fire and in a short time silenced the Spanish guns. The lat-ter fired only once after the ships opened on them. There were no cas-ualities on the American side. SAILED AWAY FOR MANILA.

MILLIONS FOR FARMERS. Wonderful Increase In Exports of Foo Products During the Fiscal Year Almos Ended.

Products During the Fiscal Year Almost Ended. Washington, June 13.—The farmers of the United States are drawing upon other parts of the world for more money in the fiscal year which ends with this month than in any preced-ing year in the history of the country. Even the high water mark of 1892, when our exports of agricultural products amounted to \$799,328,323, will be surpassed by the record of the year which closes with this month. The preliminary reports of May ex-portations which have reached the bureau of statistics make it apparent that the agricultural exports of the year will be considerably in excess of \$800,000,000, the total for the year be-fing likely to reach \$835,000,000. Never before have the exports of agricul-tural products reached the \$800,000,000 line, and never but twice have they been as much as \$700,000,000, he two occasions in which they passed the \$700,000,000 line being in 1881 and 1892. Compared with the last fiscal year the increase will be over \$250, 000,000, while the total will be fully \$00, and compared with the preceding year the increase will be over \$250, 000,000, while the total will be fully \$10,000,000 for each business day and will be more than \$100,000, 000 in excess of that of the fiscal year 1881. In breadstuffs alone the exports of the year will amount to nearly \$1,000,000 for each business day and will be more than \$100,000, 000 in excess of last year's exports of the exports for the fiscal year 1898 will be more than double those of the fis-al year 1897, while the increase in flour will be nearly 50 per cent. and of corn nearly 50 per cent. in value. May exports of corn were larger than those of any other month in the history of the country, while the total exports of corn for the year for the first time will pass the 200,000,000 bushel line. Oats, oatmenl and rye show a striking increase, the gain in oatmeal being more than 60 per cent. Washington, June 13 .- The farmer

Oats, oatmeal and ryc show a striking increase, the gain in eatmeal being more than 60 per cent, over last year and that of oats 100 per cent, while in ryc the gain is also phenomenally large. In "provisions," in which term are included beef, hogs and dairy products there is also a and dairy products, there is also a marked increase, the total exports of provisions for the year being likely to reach \$160,000,000. Most of this in-crease is in hog products.

crease is in hog products. Exports of bacon, which were \$34,-187,477 in value last year, are likely to reach \$44,000,000. Lard shows a sim-ilar increase, being likely to reach \$37,000,000 this year, a gain of nearly \$8,000,000. Live beef seems to be gain-ing in popularity with our foreign customers, the exports of beef cattle having increased materially, while those of beef, either fresh, canned or salted, have failed to show any in-crease, in most cases a decided fall-ing off being noticeable.

Gen Miles' attention was directed to the reports coming from Tampa of great confusion and delay in prepar-ing the expedition and getting it off for Cuba. Armour, who will henceforth control and harrass any Spanish troops near Santiago, and harrass any Spanish troops near Santiago, threatening and attacking them at all points, and preventing the leiter holdings. Leiter will not lose as much as was generally believed. Armour's assumption of the burden is said to have meant at least \$2,000,000 for Leiter. That much loss would be incurred if the immense line of wheat had to be merchandised oy tacking them at all points, and pre-venting any reinforcements from reaching that point.
