

Old Reliable Drug Store.

Owing to the very liberal patronage I have had from our people and in view of the hard times I will until MAY 1st, reduce the price of Physicians Prescriptions as follows, viz:

- All 1 oz. mixtures, regular price, 20 to 15
- All 2 oz. mixtures, regular price, 25 to 19
- All 3 oz. mixtures, regular price, 35 to 25
- All 4 oz. mixtures, regular price, 45 to 30
- All 6 oz. mixtures, regular price, 65 to 50
- All 8 oz. mixtures, regular price, 85 to 65

And a corresponding reduction on all packages of Powders, Pills, Ointments. Also liberal discount on all Patent Medicines, Baby Foods, Perfumes, Toilet and Fancy Articles and extra liberal discount on Fountain Syringes, Hot Water Bottles, Atomizers and Nursing Bottles.

I will guarantee my goods to be strictly fresh and equal to any goods in the market.

Thirty years experience in the town of Emporium is sufficient evidence of competency. If you wish to avail yourself of the liberal offer, leave your Physician's Prescriptions and drug trade in general at the OLD RELIABLE DRUG STORE.

A well posted exchange says that "the editor of a country newspaper might just as well try to make an honest living trying to sell ice machines in the Klondike regions as to try to please everybody in the columns of his paper."

A correspondent wants to know the origin of the phrase, "he isn't in it." It was first used by an editor who died and went to heaven, and looked for the man who took his paper for five years and then refused to pay for it.

Cataracts have been growing in the eyes of Michael Hout's little son for some time and it was feared his sight would be destroyed. We are glad to learn he is improving under the watchful care of Dr. Bardwell and will fully recover his sight.

A farmer writes to an exchange as follows: "Every year I hear of caterpillars destroying whole orchards. There is nothing so easy to dispose of. I bore a hole in the tree deep enough to reach the sap, fill it with sulphur and plug it up. The sap takes the sulphur to every limb and twig and the caterpillars disappear at once. I have used it for years."

The Philadelphia Inquirer shrieks, "Keep the bench out of politics." It is a mighty poor rule that will not work both ways. Therefore the Judges who sit upon the bench should keep out of politics themselves. But we are sorry to say that some of them descend to the low slums of the ward heeler when they see a chance to advance their party's interests, which is a disgrace to the judiciary of this or any other State.—McKean Democrat.

The Wellsboro Gazette very truthfully remarks: The home merchant is the man who gives credit when the purchaser has no cash to buy the necessities of life. The home merchant is the man who helps pay the taxes that run schools and build roads. The home merchant is the man to whom people appeal for favors. Then why should he be ignored when a purchase is made? He sells his goods at as low a figure as merchants in other towns. But then, the home merchant should get his printing at home too.

"If a newspaper man knew how many 'knocks' he received behind his back, he would adopt another calling," remarked a citizen yesterday. The citizen was mistaken. The newspaper man who succeeds expects to be maligned by every law breaker, swindler and hypocrite; every lover of notoriety who is ignored, and, in fact, all who do not agree with him on public or private questions. The newspaper man who expects to go through life without being misrepresented should make arrangements to die young.—Ex.

WAR UPON A LARGE SCALE!

McKinley Decides to Take Porto Rico at Once.

AN EXPEDITION OF 35,000 MEN.

Plan to Rush an Overwhelming Force to the Island—Wiles to See the President Before Starting—Thousands Have Embarked—Watson's Mission to Spain—Amunition on the Way to Test the Commodore at a Rendezvous Agreed Upon—Hot Work Ahead.

Washington, D. C., July 18.—President McKinley practically gave up to-day all present hope of peace with Spain, and personally directed that the Porto Rico expedition and that of Commodore Watson should be dispatched at the earliest possible moment.

Commodore Watson's fleet will this week take on board the ammunition and other necessary supplies which the Yankee, just off from New York, is to get to them by Wednesday, at a secret point of rendezvous, while General Miles and Admiral Sampson are to begin the Porto Rico campaign within ten days or two weeks.

MUST CONFER WITH MILES FIRST.

General Miles, who is to be the commander-in-chief of the land forces at Porto Rico, with General Brooke as his chief subordinate, was to leave on the Yale to-night from near Santiago for New York city, and not Porto Rico, as was reported this afternoon.

At New York the Yale is to get coal and supplies and prepare to take some of the troops to Porto Rico.

General Miles is then expected in Washington at the end of the week, so that the President and Secretary Alger may confer with him personally about the plan of campaign and the policy to be pursued in the island of Porto Rico after it comes into our possession.

FROM SANTIAGO TO SAN JUAN.

In the meantime, General Brooke, who made his farewell visits to the President and Secretary Alger this afternoon, is to organize the troops that are to be sent from the United States. These will not have to be so numerous as was expected, now that General Miles reports that a large part of the army at Santiago has not been infected with the yellow fever, and will be utilized in the Porto Rico expedition.

But the War Department is moved to limit the number of troops to be taken from Santiago rather closely beyond the artillery and Roosevelt's Rough Riders.

ARMY OF 30,000 MEN TO GO.

In order to have an overwhelming force, in view of the conflicting reports about the number of Spanish regulars in Porto Rico—varying from 5000 to 15,000—for the Spanish volunteers are not seriously considered, and to allow for all the contingencies suggested by the Santiago campaign, the Administration may send 35,000 troops in all to Porto Rico.

President McKinley said to-day that he did not propose to have a repetition in this case of the annoying delays that held back the Santiago expedition at Tampa, and that he had no reason to expect it, since the men and the munitions, equipments and supplies were now so nearly ready.

OVER 10,000 ALREADY EMBARKED.

Between 10,000 and 15,000 of the troops for Porto Rico are reported as already on transports with their guns and supplies.

All the regulars at Tampa, 6200 in number, including 12 batteries of heavy and light artillery, were reported as embarked on transports to-day, while part of Gen. Brooke's corps, numbering 3000 or 4000 men, is reported as on transports at Charleston, and four batteries of artillery besides other troops sent to Santiago, but never landed, are still on the transports there.

ON BOARD TOO SOON.

The embarkation of the troops at Tampa and Charleston seems premature, since it is not proposed to send the army to Porto Rico in detachments, according to the authorities here, as was done at Santiago, but to send it all at once and in conjunction with Admiral Sampson's squadron. Gen. Brooke can certainly not get the rest of his army in this country embarked before the end of the week.

PENNSYLVANIA REGIMENTS GOING.

General Brooke said this afternoon that it was certain that General James H. Wilson's division, including the Fourth and Sixteenth Pennsylvania, the Second and Third Wisconsin, the Fourth Ohio, and

the Third Illinois will go to Porto Rico. The Sixteenth Pennsylvania and the two Wisconsin regiments are already reported on transports sailing from Charleston, and the rest will go from Newport News.

The Third Brigade, including the Third Pennsylvania, is also going, as are also all the other commands comprising the Fourth Corps at Tampa. General Fitzhugh Lee has been telegraphing for permission to go to Porto Rico, but he may have to wait for the campaign against Havana.

PROGRAMME FOR THE NAVY.

The part which the navy is to take in the assault against Porto Rico has been fully matured. The several transport fleets will have with them one or two auxiliary craft, carrying strong secondary batteries of six or eight six-pounders. Secretary Long said this afternoon that no time had been fixed for the departure of Admiral Sampson's fleet for San Juan. As to the naval plans, he would only say that they would co-operate in every way with the movements of the army.

NO FEARS CONCERNING CAMARA.

Secretary Long said to-day that no apprehension whatever existed over the Spanish threat that the Camara squadron would be divided, part of the ships coming to this side to attack American seaport cities.

It is believed by the Administration that after Porto Rico is taken and the Spanish coast is attacked by Commodore Watson, Spain's pride may become sufficiently humbled to accept the inevitable without waiting for the capture of Havana, postponed until the close of the rainy season.

One Clean Place.

There is one place in town where every glass is washed in hot water and polished every time it is used. It is lots of work but it pays, because clean people go there for soda. You don't have to ask where it is—Metzger's, of course.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D.: "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at L. Taggart's Drug Store. Regular size 50c and \$1.00. Guaranteed or price refunded.

Baby's Coming

means pain, danger and possible death for some wives. For others it means practically no discomfort at all. There is no reason why childbirth should be a period of pain and dread. Several months before a woman becomes a mother she should prepare herself for the critical ordeal. There is a preparation made which is intended for this purpose alone. The name of this wonderful preparation is

Mother's Friend.

It is a liniment to be applied externally. It relaxes the muscles and relieves the distension, gives elasticity to every organ concerned in childbirth, and takes away all danger and nearly all suffering. Best results follow if the remedy is used during the whole period of pregnancy. It is the only remedy of the kind in the world that is endorsed by physicians. \$1 per bottle at all drug stores, or sent by mail on receipt of price. FREE BOOKS containing invaluable information for all women, will be sent to any address upon application to The Bradford Regulator Co., Atlanta, Ga.
