#### Col. Stone's Platform.

"These are the times when party differences should be reconciled and party harmony should prevail, and when we should stand like a wall in support of the President and his war policy. It is no time to remember that this candidate or that candidate might better have been nominated for this office or that office, but we should stand shoulder to shoulder, as we did in the days of Curtin and Lincoln, in supporting the honor and dignity of the great nation and its flag. Pennsylvania is a great State, but she is the greatest when she upholds and exalts the supremacy and glory of the nation and of the flag. As Pennsylvania held up the hands of Lincoln from '61 to '65, let us uphold the hands of Mc-Kinley during this Cuban war.

'In accepting this nomination and becoming the standard-bearer of a great party in a great State, I naturally feel the responsibility that rests upon me. I shall endeavor to conduct this campaign with honor and with dignity. It will be my purpose when elected to conduct self so as to win the respect and good will of those who have opposed me as well as those who have given me their support. I shall be the Governor of the whole people of the State. Abuses have undoubtedly grown up in the Legislature which are neither the fault of the one party nor the other, but rather the growth of custom. Unnecessary investigations have been authorized by committees, resulting in unnecessary expense to the State. It will be my care and purpose to correct these and other evils in so far as I have the power. It will be my purpose while Governor of Pennsylvania, as it has been my purpose in public positions that I have held, with God's help to discharge my whole duty.

"The people are greater than the parties to which they belong. I am only jealous of their favor. I shall only attempt to win their approval and my experience has taught me that it can best be done by honest, modest, daily discharge of public

# WASHINGTON LETTER

WASHINGTON, Aug. 8, 1898.

President McKinley is so confident from the assurances he has received that the Spanish government will, as soon as it can with safety to itself, formally accept our terms of peace, that he is devoting considerable time to deciding upon just and right men to represent the U.S. upon the commission that will be charged with the important and delicate duty of negotiating the treaty of peace between the U. S. and Spain. Notwithstanding his confidence, there is a limit to the time he is willing to give the Spanish government to square itself with the people of Spain. The French Ambassador, who is representing Spain in Washington, has been told that unless the terms of peace are accepted in a given time, they will be withdrawn, and that if they are withdrawn, it is in-tended by this government to carry the war into Spain at once, and that no such magnanimous terms will be again offered.

brought away from Santiago just as fast as the ships at hand can get them away, in order to give the men a chance to recuperate.

President McKinley gave the two Cincinnati boys who started the idea of raising, by contributions, from school children, the money to buy the finest battleship in the world, for presentation to the U.S. and to be named the American Boy, a letter endorsing their pro-ject and saying: "I am sure the boys and girls will deem it a privilege to be numbered among the contributors to this patriotic undertaking." Master W. Rankin Good, of Cincinnati, President of the National American Boy Fund, and a companion had a very pleasant interview with the President-

two interviews in fact.

The Department of State has been officially notified that an international Congress, for the purpose of discussing tariff legislation and the regulation of labor, will be held at Antwerp, Belgium, from Sept. 12th to 17th, inclusive. Public economists, socialists, manufacturers, merchants, employers and workmen are invited to take part. The points from which these questions are viewed by Americans and Europeans, are so wide apart that few Americans are likely to attend this Congress, except from curiosity. Americans have a tariff system now that is bringing them great prosperity, and countries that are prosperous have little difficulty in the regulation of labor.

Not only is the American manufacturer holding his own market under the Dingley tariff law, but he is pushing his goods into all the markets of the world at a rate that must be astonishing to those who claim that a protective tariff would cause our manufacturers to loose all their foreign trade. It was generally known long before the bureau of statistics could foot up the figures and announce the grand total, that our exportation of agricultural products during the last fiscal year, was largely in excess of any single year in the history of the country, and it is now known that our exportation of manufactured articles during the last fiscal year, exceeded that of any other year, by nearly \$12,000,000, and reached in value the enormous sum year. of \$288,871,449, and, what is still more gratifying, our imports of manufactured articles during the same period were unusually light, showing that our manufacturers have recovered control of the home market, which they partially lost under the low tariff law, enacted by the democrats, as well as increased their foreign trade. These are the sort of facts that will have to be forgotten before the people of this country vote the democratic party back into power; they are also the sort of facts that speak for themselves and need no labored argument to make them understood.

Surgeon-General Sternberg has written a general defense of the medical corps of the army and himself from attacks made upon them, many of which he says were instigated by those who became of-fended at his opposition to sending female nurses to camps of instruction or with the army in the field. He says the only trouble with the medical corps is that there are not enough surgeons in the army, even in peace; that it is probable that in taking on about 300 contract surgeons, some incompetence may have slipped in, owing to hurried examinations. Of the shortage of medical supplies, at Santiago he says: The principal reason was that the supplies were left behind when the army left Tampa, owing to lack of transportation facilities, and one of the minor reasons was the delay in landing supplies of all kinds at Siboney.

Remarkable Cure for Chronic Diarrhoea.

Remarkable Cure for Chronic Diarrhoea. In 1862 when I served my country as a private in Company A, 167th Pennsylvania Volunteers I contracted chronic diarrhoea. It has given me a great deal of trouble ever since.

I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and after that I bought and took a 50c bottle and now I cannot be thankful enough to you to all to be thankful enough to you for this remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, Henry Steinberger, Allentown, Pa. Sold by L. Taggart.

The title "admiral" originally came from the Arabic phrase "amir-al-bahr," meaning "ruler of the sea." When the last word was dropped and a "d" was added it became "admiral."

It is always gratifying to receive testimonials for Chamberlain's Colic. Cholera and Diarrhoea Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective remedy than Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Dr. R. E. Robey, physician and pharmacist, of Olney, Mo.; and as he has used it in his own family and sold it in his drug store for six years he should certainly know. For sale by L. Taggart. aug
