Serene comfort and happiness in advanced years are realized by comparatively few women.

Their hard lives, their liability to serious troubles on account of their peculiar organism and their profound ignorance concerning themselves, all combine to shorten the period of usefulness and fill their later years with suffering.

Mrs. Pinkham has done much to make women strong. She has given advice to many that has shown them how to guard against disease and retain vigor-ous health in old age. From every corner of the earth there is constantly coming the most convincing statements from women, showing the efficacy of Lydia E. Pinkham's Vegetable Compound in overcoming female ills. Here is a letter from Mrs. J. C. Orms, of 220 Horner St., Johnstown, Pa., which is

earnest and straight to the point: "DEAR MRS. PINKHAM:-I feel it my duty to tell all suffering women that I think your remedies are wonderful. had trouble with my head, dizzy spells Of all the subjects variously shot at, there is probably not one that could collect a more variegated and elaborate set of opin-ions expressed about itself, than "the so-ciety girl." By many people she is inva-riably put down as a flimsy combination of late hours, gauzy gowns and gossip. But to judge her singly, and to put her down in the concrete under such a head, is about as just as to say that because one Smith was a pirate, therefore lock up your silver when anybody by the name of Smith happens in. The society girl is as various as the figures on a government salary list, and, like it, includes most every kind of combination. However, in appearance, she is but a and hot flashes. Feet and hands were cold, was very nervous, could not sleep well, had kidney trouble, pain in ovaries and congestion of the womb. Since taking your remedies I am better every way My head trouble is all gone, have no pain in ovaries, and am cured of womb trouble. I can eat and sleep well and am gaining in flesh. consider your medicine the best to be

had for female troubles." The present Mrs. Pinkham's experience in treating female ills is unparal-lelled, for years she worked side by side with Mrs. Lydia E. Pinkham, and sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

He stood near the door, with his cap in his hand and was looking half doggedly out from his half bowed head when Miss Thornby rorosed to where he stood and said with the airiest good nature: "Did you wish to see me, sir?" Her tone confused him. Somehow he had expected to be ill treated, if not ordered out. Collecting himself he said tremblingly: "Yes, miss, I came to ask if you would let us stay a little longer in your house. "My agent is going to turn us into the street to-morrow." "My agent is going to put you out of your house," he corrected. "Why, how perfectly horrible," she ex-laimed in annazement. Miss Thornby was a veritable butterfly (so every one said),) with a fortune at the command of her own capricious fancy. Judson had never seen her, but he had' heard of her, for the humble cottage that treasured all he had in the world belonged to her. The usual kindly light had long since died out of Judson's eyes, and the only sparkle that ever came from them glanced from a silent tear. Miss Thornby was scarcely conscious of having conferred a favor, the effort had been so slight, until she saw the man's trembling hand as he took the paper from her, and listened to his tearful voice as he thanked her again and again. Judson went hurriedly down the street in the effort to reach the first electric light. There he stopped to read the number on the check. He read it once, and then looked closely and carefully at it again. His heart gave a sudden bound. There was no mistake—it read "one hundred dollars." Judson's angry thoughts of a few mo-ments before flashed over him and struck him to the heart. His eyes filled with tears. "God bless her." said he prayerfully; "she has saved me from something worse than death—" and so she had, for Judson had made up his mind not to let his little ones live to suffer starvation.—Maxine Wray-burn, in Detroit Free Press.
