It takes all kinds of people to make a world like this, with Aunt Peggy and Mason Hill thrown in. Well I declare and what are we going to do with friend "Buzz" and the Sterling Run people. The supposition is, we will have to build a little world along side of this for them, as they are too perfect to live in an imperfect world like this. We are sorry that we said "chickens went home to roost." The shoe fit you too tight and hurt your toes, which you mistook for me tramping on them. Look at your article friend "Buzz" and you will find it reads thus: Mason Hill seems anxious of our whereabouts; we would say that they are too fond of chicken out there for us, which accounts for things disappearing mysteriously at the convention." Does not this clearly say we stole the chicken. We have no better opinion of the territory that surrounds us than formerly, nor do we jump at conclusions and mix Esau's pottage with anybody. We have studied natural history, and find down comes before feathers, but your article was neither down nor feathers, but was wool, and of a black sheep too at that.
