Death of a Great Jurist.

For thirty years Judge Thomas M. Cool, of Michigan, who died yesterday, held an unquestionable place as one of the first constitutional lawyers in the country. Few other men have been enable to contribute in larger measure or with greater profundity of learning to the literature of jurisprudence. His exceeding ability and fairness in dealing with the problems arising out of the business of transportation led to his employment, first by the great railways and afterwards on behalt of the Government, as an arbiter between the corporations and the people in whose judgement all might rely for safe and sane conclusions. From his earliest work at the Bar to the end of his active labors no amount of work seemed to doubt or dissuade Judge But he wore himself out. There is a limit to mental and physical endurance. For several years past he had been an intellectual wreck, conscious of his infirmities, and looking forward to death as an end rather to be hoped for than dreaded. Had he lived till January next he would have completed his 74th year.—Phila. Record.

#### Estimate That in 1940 the Pension List Will be Wiped Out.

Col. James A. Sexton, of Chicago, was elected commander-in-chief of the G. A. R at Cincinnati, receiving 424 votes against 241 for A. D. Shaw, of phia to 293 for Denver, it was decided to hold the G. A. R. National Encampment of 1899 in the Quaker City. The report of the committee on pensions refutes the charge that the pension roll was a roll of dishonor. It cited the fact that expensive investigations had been undertaken by the department and after their close there had not been a single case of fraud discovered which could be traced to a member of the Grand Army of the Republic. The report went on to say that the roll was distinctly a roll of honor. It made a somewhat extended comparison with the work accomplished now and during the last administration of Gen. Grant. This showed the efficiency of the department in the way of prompt disposal of claims had been vastly inincreased. The committee gave figures showing that the death rate was rapidly increasing among pensioners. number dying each year now exceeds 40,000. It is estimated that the increase in the number of deaths each year will be; such that in 1920 the number of pensioners will be reduced to a little over 250,000 and in 1940 the list will be obliterated. The report recommended that just and liberal provisions should be made for adjudicating the claims now pending in the department and that no relaxation of efforts on the part

Thomas J. Stewart, gave the number

of members in good standing on June 30, 1898, as 305,608, of which 32,497 were affiliated with the 593 posts in Pennsylvania. The amount expended in charity during the year was \$171,903.
