#### A Joke on Joe.

At Eldred Col. Stone unexpectedly encountered Joe Sibly, who is making a stiff fight against Chas. Stone for Congress. The greeting was very warm and Sibley's salutation was: "Well, Stone, we can't wish each other success but we are friends for all that."

Gen. T. J. Stewart, one of Col. Stone's speakers was standing by and this remark of Sibley's gave him an opportunity of making one of his inimitable speeches.

"Why, Sibley," he said, "why can't you wish each other success? You know the story of the two Irishmen? If not, I will tell you It was in a quarry and on a warm day. One of the Irishmen, wiping his brow, exclaimed, "Be jabers Pat it is a warm day, I could drink a whole kettle of beer.' 'Ah, Mike,' said the other reproachfully, 'shure, ye wouldn't be thinkin' av drinkin' the whole of it yerself and not offer me half?" 'Indade, then, I think I would.' 'Well, ye might as well offer me half, seein' as how ye are not going to get any of it,' retorted the other "

To this Sibley laughed heartily and good naturedly and turning to the bystanders, said: "The moral is applied

### Our Candidate For Representative.

We know of nothing more applicable in favor of the candidacy of Hon. H. H. Mullin our candidate for Representative, the fol-lowing article written by a prominent Republican of Cameron county and published in the Press in 1896.

FOR THE LEGISLATURE H. H. MULLIN, our candidate for the Legislature, is so well known to all the people of the county that comment is scarcely necessary. Born in the good old county of Cumberland, he was educated in the common schools, and earned his first money, while a boy, as a slate picker in the Montelius coal mines at Mt. Carmel.

In 1867, when sixteen years old. he came to Emporium and entered the office of the CAMERON COUNTY Press, as an apprentice. After completing his trade he remained in the employ of his instructor, Mr. C. B. Gould, and has continued his connection with the paper to this time being now its business manager. But while he has risen to the top of the newspaper business, in the county, he has not forgotten how to sling type or tramp

a job press, when necessary.

Mr. Mullin has been largely identified with the progress and development of Emporium and Cameron county. Every enterprise for the benefit of the public, the improvement of the town or the development of the county, has found in him an earnest advocate and an untiring worker. Harry Mullin's pluck and push has helped more than one enterprise out the mud onto solid ground. The people have recognized these qualities in him and have made use of them for their benefit, through all these years, by keeping him continually at work in their interests. Two years ago he was elected to

the Legislature and his ability and fidelity earned for him a commanding position in the Councils of the State. For a first termer he made a record that is seldom equalled. His wide acquaintance with public men and his faculty of drawing men to him to aid in the accomplishment of his purpose, made him an important factor in all legislaand makes him especially valuable to his constituents. Important legislation affecting the policy of the State, in relation to public lands, the betterment of public service and the relation of various counties to each other will come up for passage at the next session of the Legislature, and the most important of all will be the revision of the tax system of Pennsylvania and it is of vital importance to the farmers, laboring men as well as business men to be represented by a competent Member whose experience and acquaintance will make his 'services invaluable in that direction. It is essential to the interests of Cameron county, that our member be a Republican and a man of standing and influ-ence that we may receive what is justly ours. Mr. Mullin we believe is fully up to the requirements of the hour, and the people of Cameron county will advance their own interests and occupy their proper place in determining the policy of the State by re-electing him by a big majority.

# "They Say."

"They say" the war is over and it is no longer desirable to "remember the Maine." But, it is a very good time to remember the "Wilson bill," and the rotten, puerile and disgraceful management of the last Democratic Congress.

Johnston, of Emporium, preached the tuneral sermon to a large gathering of ority of it, did not know enough to frame a tariff bill that would provide revenue enough to meet the ordinary expenses of the government; and that was a genuine, old, Jefferson-Jackson-Andy Johnson-Beauregard Democratic Congress, Simon-pure and no discount.

But, the party has changed since then. Alas! too true! It has changed. If such financial and economic mismanagement is all we could expect from the real old original Vallandingham-Buchannan Democrats, what should we expect now, when all the fads, freaks and fancies, find warm welcome and honored positions in the councils of the party? Alas! poor old Jefferson-Jackson: it is

a good thing you are dead. Every vote for Swallow is half a vote for Jenks. Every vote for Dr. Smith is a whole vote for a Democratic United States Senator, and for a Republican States Senator, and for a Republican to vote for either of them is to give aid and comfort to the enemy, and no Republican who is also a patriot can afford to do that. Perhaps you could not enlist and suffer on the gory field of battle; too old, married, false teeth, or one thing or another kept you back, but you can do the next best thing, you can help the cause of right, justice, freedom and humanity by voting the straight Republican ticket. Vote it straight from top to bottom. Just put a cross in the circle at the head of the Republican column, and let 'er go.

#### The Political Situation.

Dear Old Press:—

Any one reading the speeches of Jenks or Swallow would infer, if true, that all our State officials were guilty of every crime in the category, and of violating every command in the decalogue, and that this, the old Keystone State was bankrupt and all her citizens villains of the deepnest die.

Now what are the facts in the case? I make history of the State when the farmer and the working man paid as little to the support of the State Government as at the present time. Nor was there ever a time when they received as much in return. More than this, no Treasurer of the State of Pennsylvania was ever a defaulter or embezzier, nor has the State ever lost a single cent in this way. It is no doubt true that there is more or less extravagance. This is also true of every society, let it be church or lodge, also of every county, borough and township. I believe that in proportion to the amount of monies re ceived and paid out by the State that there is more extravagance in any one township in our county—that is the percentage is greater. I say extravagance, not corruption.

State Chairman Garman is exhibiting Brother Jenks as the only honest man in the State. Brother Swallow takes exception to this, as he preempted this title one year ago and claims to e only Simon-pure, all-wool and yard-wide even Old Honesty itself. I am one of those who believe that if a man is honest the people will ome to know it without his proclain he housetop.

In this campaign the Democrats and Prohibi

tionists appear to be allies, as they preach the same doctrine and use the same arguments, which consist only of abuse, vituperation, villifi-cation and slander of all who do not think as they do and are not content with slandering the living alone but must also attack the memory of the dead. Witness the Voice extra for Septembe —"Quay edition," page 5, wherein it states that Square Timber Noyes took to drink and drank himself to death. This is not true as is well known to all who lived here at that time, but this is only in time with their method of campaign. To all the older citizens of this State it is well known that this same hue and cry was raised in 1877. The charge was made that the Republicans had stolen the State Treasury empty and that if they could only get a chance at the books they would prove it. Col. Amos C. Noyes was elected and after an investigation and examination of the books, made this report: "I I can only leave the office with as much credit as did my predecessors, I will be entirely satisfied. But then this is the argument our Democratic friends have always used. It was the case with Lincoln, Grant and Garfield. Our friend Jenks loves to tell how great and good a man wa Lincoln, but I can well remember when he (Jenks) trained with a party that called Lincoln an ape, baboon, tyrant, usurper and murderer. Most of us can remember the "anything to beat Grant" cry, also the forged Morey letters in the Garfield campaign. He must be a very obtuse Republican indeed who cannot see that it is the very same old Democratic ass in a lion's skin. I would advise Brothers Jenks and Swallow to read Exodus 20-16, John 8-7, and give heed thereto. Republicans let us see to it that the party of Lincoln, Grant, Garfield and McKinley stands true and not wander after false gods only to be fed on husks and the crumbs as they fall from the rickety old Democratic table.

Driftwood, Pa., Oct. 31, 1898.

Letter From a Grove Republican.

Editor Press:—

I feel that the Republicans of this section of

the county fully appreciate the grave political situation, yet I am moved to add a few lines in order to stir to action any who may be laggards. Vote for Hon. C. W. Stone for Congress, He is highly esteemed by his colleagues in Congress

and holds the highly important position of Chairman of Committee on Weights and Coinage, a position of vast importance, when the monetary affairs of this country are subject to legislation. Whereas, his opponent, the Hon.

J. C. Sibley is a man of one idea and that is the

opulistic idea of the free coinage of silver at the ratio of 16 to 1, which the voters of this coun-try so emphatically condemned in the election of that brilliant statesman and magnificant American; citizen, the Hon. William McKinley.

OLD TIMER.

that is enviable. He should receive the vote of every patriotic citzen. Remember how important it is to elect Maj. Brown for Senator.

Our next candidate is Representative to the State Legislature; one who has already represented us with ability; one who, if you examine the records of that Legislature, cast no vote to exempt foreign corporations and Express companies from taxes; a man who time and time again, has proven himself the poor man's friend, and a worthy exponent of those grand principles of Lincoln, Grant, Garfield and McKinley. The coming Legislature elects a United States Senator and we want no Democrat to represent us and want no Democrat to represent us and denounce McKinley's administration as they have in their recent resolutions. This war is not settled yet. Are we by our votes going to print the mark of shame on the brow of that grand patriot, soldier and statesman whom the nations of the world have learned the nations of the world have learned

patriot, soldier and statesman whom the nations of the world have learned to respect and admire? God forbid! Elect Henry H. Mullin to the Legislature and by so doing you will be doing your small part towards sustaining the President, as that is the only way you can help him.

Our candidate for County Treasurer is a man you cannot afford to defeat; a man who is responsible; one who arose from a day laborer to be recognized as one of the most successful lumber and business men of his district; one who is a large property owner in this town; a charitable humanitarian. No man ever left his camps hungry. Any man who can conduct his own business successfully can easily by trusted to conduct the business of the county without placing any of his friends in a precarious condition. He is worthy of the office, elect him.

John McDonald, our candidate for Associate Judge, needs no introduction to the voters of this county. He will A vote for Hon, Henry H. Mullin is a vote for not, as is well known to all in this part of the county in the case of Mr. Black, whom he had adcounty in the case of Mr. Black, whom he had ad-mitted and accompanied to a Home in Philadel-phia. He is an indefatigable worker and when a member of a former legislature, hadjan act pass-ed which, if not vetoed by the Governor, would have been of inestimable value to the working men of this county, who wished to procure a home. This act was known as the "Homestead Bill." Mr. Mullin having worked in a coal mine for some time and in a printing office for thirty years, is a laboring man himself and knows their wants and is in full sympathy with them. Be-

ing a working man myself I consider it an hono as well as my duty to give him my support. A vote for C. M. Thomas for County Treasurer, is a vote for a man who is not ashamed to be known as a woodsman, and who while a laboring man himself gives employment to many mer

is a vote for a man who is well and favorably known to the citizens of the lower end of the known to the citizens of the lower end of the county as an honest and industrious citizen. Al-though not so well known to the voters of the upper end of the county, we can assure them that he will fill the office with dignity and im-partiality.

Republicans stand by your guns, and the victory is yours. Every candidate on the ticket is a worker, and worthy of your confidence and support and can and will be elected if every Republican is true to his convictions. Get out the vote.

#### The Duty of Republicans.

There is an important duty incumbent upon every loyal, intelligent Republican this fall and that is to vote the straight Republican ticket from top to bottom. Whilst we may have differences of opinion in regard to the issues of this campaign, yet we cannot afford to let our mortal enemy come into our garden and weed our potatoes. The Republican party is broader, deeper and longer than any individual

Can we afford to assassinate our convictions for the sake of any individual? No! No! A thousand times no. Can we, by criminal ignorance, renounce those grand principles taught by Lincoln, Grant, and last but not least, that statesman of statesmen, Wm. McKin-

Shall we allow our enemy to mislead us by a campaign of villification, hypocrisy and malicious lies? They tell you on the rostrum that they are friends of President McKinley and the present administration. Stop one moment and look back at their recent conventions, held in every county in this grand old Commonwealth of ours, and the resolutions adopted were these: "We pledge our loval allegience to Bryan and his free silver heresies; we denounce the present administration of William Mc-Kinley, the War Department and the war." Yet they will come to you and tell you there are no national issues. They cite you beautiful passages of reform.

Steady, Republicans! Stand shoulder to shoulder; don't deceive your better judgment, by hankering to the tirades of calumny, heaped upon individuals in order to mislead you.

What is the matter with W. Stone's candidacy for Governor? A man of ability, of sterling qualities and one upon whom the sword of criticism has left no mark.

C. W. Stone, our candidate for Congress, is a man who has been tried and not found wanting; an able legislator of not only State but of National repu-tation and one who was even recog-nized by the Cleveland administration

mized by the Cleveland administration for his ability.

Major J. Z. Brown, our candidate for State Senator, in this district is an old soldier, with a record for bravery that is enviable. He should receive

to throw down our arms to the enemy because some captain displeases you?

#### B. W. Green Speaks at Johnsonburg.

The first speaker at the big Republican Rally held at Johnsonburg last week was B. W. Green, of Emporium, who prefaced his address by re-ferring to the closely allied material interests of his county, Cameron, and this county; Cameron having once been a part of Elk and is now joined to it in the ame Judicial district, facts which caused the speaker to say that he did not need to offer any apology for coming up into the county to speak politically. He congratulated the people of Johnsonburg and vicinity on the material prosperity shown on every hand and mentioned the fact that from \$70,000 to \$75,000 are being paid each month to the employes of the paper mills now in operation there. When the speaker referred to the big majority that Johnsonburg gave to "that spotless and brave" candidate for the Presidency, Wm. McKinley, the mere mention of the name brought forth such a general and generous applause that there were few who heard the balance of the speaker's sentence. Mr. Green said that although it was the first time that Elk county had given a majority, he did not believe that anyone felt one pang of regret for their action in November, 1896. By comparing the record of Elk county with that of others the same conditions were ap-

liant record of the Republican party, which, he said, had always stood for living issue and no issues had ever been championed by it that was not right and had been so proven. His eloquent re-ferences to the "Great Pathfinder to the Pacific," John C. Fremont; the "Rail-Splitter of Illinois," Abraham Lincoln; that "Peerless, soldier," Grant; under all of whom the party advanced in the world's history, were in each case greeted with prolonged applause. His statements concerning the paralyzed industries of the country under the Cleveland administration and the fact that the last Democratic National administration were compelled to borrow money in times of peace, were too true and of too recent history to bear the least contradiction. He alluded to claims of the Democracy that this campaign should not include in its scope any but State issues, and said that while the Democrats claimed the above in this, a Republican state, they held opposite views in states that were Democratic in their majorities. In Republican states they dare not endorse the Chicago-Bryan plat-form, but in Democratic states they have the Bryan plank fully endorsed and a part of their state platform.

Mr. Green aliuded briefly to the bril-

Mr. Green said that the Republicans of the Keystone state were, however, equally fortunate whether the battle was on state or national issues, and pointed to the fact that when the Democratic party passed out of power in this state in 1860, they left some bequests to the Republican party, which were undisputable truths. One was a debt of \$40,000,000 of which all but \$1,500,000 has been paid under the rule of the Republican party. He recited a number of other defects and abuses which have been remedied by the Republican party and called particular attention to the fact that \$5,500,000 are now appropriated annually for the schools of the state. He believed in educating the youth; it is for the best interests of the country. In Elk county by reason of the wise legislation of the Republican party, \$30,000 are paid annually into Elk county school funds by the state, where but \$7,000 to \$8,000 are returned to the state for all taxes. The Republican party in the state of Pennsylvania stands to-day for the people and their interests.

At this time the audience became so crowded in the hall that Chairman Horton was obliged to interrupt the speaker and direct the people to make room for those who were standing.

Mr. Green resumed his address by re-ferring to the standard bearers of the party John McDonald, our candidate for Associate Judge, needs no introduction to the voters of this county. He will be elected by a large majority. His popularity among the laboring men of the county speaks volumes for his standing in the community. A quiet, unassuming man, yet his high moral character and manly treatment of all with whom he comes in contact gather the people around him. Judge McDonald will not disappoint the people. This is a campaign of vital importance to the country. Be intelligent, be true to yourselves and to the principles you have always advocated. If grievances exist among us isit patriotic to throw down our arms to the enemy blotch upon his character; he is honest and brave and deserves the support of every man. He is not, as has been charged, the tool of any man, but no man's man every day, and will be found fearless in the discharge of his duty. The candidates of the Republican party were never better; three of them have served their country with distinction during the rebellion and during all of it too.

It is the first time that a soldier candidate from the ranks has been before the people for election to the high office of Governor and, to use the closing words of Mr. Green's address, you who take such an interest in the return soldiers of Co. H ought to look well that when a private of the rebellion is a candidate he should receive your votes, the same as 35 or 40 years hence the privates of the Spanish war should receive the support of every good and loyal citizen.—Elk Advocate.
