BRIEF MENTION.

DR. BULL'S Cough Syrup is a most valuable remedy for all throat and lung affections. It cures a cough or cold in one day. Doses are small. Results sure. Price 25 cts a bottle.

A grocer trusts a customer during a period of hard times, or during a period of sickness in the customer's family, until the bill becomes pretty large. Then the grocer wants his money and the customer (in some cases) pays the bill. How does it look, then, for the man who has been favored with credit, to quit the grocer that has trusted him, and give his trade to another dealer? The same rule of common fairness will apply to a newspaper publisher.—Potter County Journal.

The person who can go without her dinner and not advertise the fact; who can laugh, who makes light of a heavy weight, and can wear a shoe that pinches without anyone being the wiser; who does not magnify the splinter in her finger into a stick of timber, nor the mote in her neighbor's eye into a beam; who swallows bitter words without leaving the taste in other people's mouths; who can give up her way without giving up the ghost—such a one surely carries a passport into the good graces of mankind.—Ex.

The Philadelphia Press, says: Those who are acquainted with the true situation in the interior districts of Pennsylvania know that it is not a dearth of funds that impels people to be careless about paying the local publishers; but it is a habit—habit only—that has made it a common thing for county subscribers to give no thought to all that is fair and just toward their home editor, who beyond question, does more gratuitous service for the upholding of the respective communities than any other ordinary citizen, or even a board of trade, if such body should exist in the place.

The New York Journal thus facetiously epitomizes the President's message: "We have thrashed Spain and remembered the Maine. I am running Porto Rico and the Philippines. Cuba can run herself as soon as we think her ready. Foreign governments don't like to have their subjects shot. Dig the Nicaragua canal. Give a million dollars for the Paris exposition. We are trying to make up with Canada. I shall let you know what to do with Hawaii as soon as I know myself. When you give the gold for greenbacks don't give the greenbacks for anything but gold. Give Alger 100,000 regulars. Build a mighty navy. Discourage yellow fever. Drum up trade in China. Take care of the next census. Make Dewey an Admiral, and let me pick my man for Vice Admiral. Preserve the forests. Celebrate the centennial of the foundation of Washington."

"The grip," says a physician is certainly infectious. My advice to the public would be to avoid persons suffering with the malady, and to keep their systems in the best possible condition. The man or woman whose physical stamina is up to the right standard may throw off the attacks of the disease, but persons in a debilitated condition are unable to do this. The sufferer from grip is very foolish if he or she tries to 'wear out' the disease without obtaining help from the physicians. A day or two in bed, under proper treatment, usually puts an end to an attack and starts the patient on the road to recovery. The danger of pneumonia is always present in grip cases and for that reason nobody can afford to take chances. An ounce of prevention in the treatment of grip, is worth more than a pound of cure when pneumonia has developed."

How to Prevent Pneumonia. You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and la grippe. Every bottle warranted. For sale by L. Taggart. jan

LaGrippe Successfully Treated: "I just have recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'"
