The voters of Jefferson county decided by a vote of 3,891 to 2,970 on the adoption of the county poor farm system, at the late spring election. Counties all over the state are thus rapidly falling into line, and in a short time there will not be one to retain the overseer system of caring for the poor.

The wave of prosperity rolls over the Monongahela Valley, in which the McKeesport Times says \$5,000,000 will be paid out and upwards of 5,000 more men given employment. The end of the present twelve months, adds the Times, will close a decade during which \$25,000 will have been invested in manufacturing enterprises within a radius of five miles of that place.

"Advertising don't pay," some people say, yet the most successful firms are always the largest advertisers. There is a way of advertising that don't pay, and it is to place an ad. in a paper because it has a cheaper rate than some other, while the rate paid to the first paper is high enough at the best judgment from results coming in, if any at all. Judicious advertising always pays and that paper is the cheapest which brings the best results, no matter what its rate may be.—Press and Printer.

**Railroad Rumors.**

It is a well known fact that the Pennsylvania road has for years been after the Buffalo division of the W. N. Y. & P., but the latter company has always refused to sell that part of its property unless the whole system was taken. It is now stated that the Pennsylvania people will take the whole system, providing the price is not too steep. The cause of this action is said to be the desire of the Pennsylvania to obtain a through line to Buffalo, and the holding of the Pan-American exposition in that city in 1901, will make the line very valuable to this company should they succeed in buying it. Whether such a change would prove of any value to Olean is doubtful, as it would very likely result in the taking away of the car shops located here.

Now that the purchase of the Buffalo & St. Marys by the C. N. Y. & W. is assured, there is no question but that the narrow gauge division from this city will be made a standard gauge this summer, and the line extended from Bolivar to Angelica to connect with the Angelica branch. This change will undoubtedly prove of much benefit to Olean as this city will very likely be made the headquarters of a number of men employed on the line.—Olean Ledger.
