The Logue brothers have got about through cutting heading bolts, but have hundreds of cords to haul to Bailey Run siding.

R. M. Williams is occupying his old place again this summer.

Mason Hill.

Mason Hill gossip will soon begin. Maud says she was not asleep if she did have her eyes shut.

Miss Ethel Barr is visiting her brother W. U. Barr, at Mix Run.

Mr. Charley Miller, of Millers Run, was seen on our streets Friday.

Mr. Harry Williams visited friends in Medix Run a few days last week.

Misses Emma and Pearl Marsh visited their grandparents a few days last week.

Little Georgie Tanner, Jr., was guest of his friend Maud Williams, one day last week.

Geo. Rudolph, of Rolf, was the guest of his friend Geo. English a few days last week.

The forest fires caused great excitement Sunday among the farmers on the west end of the hill.

A number of Mason Hill's young swains attended the play party at Millers Run on Friday evening.

Clarence Miller and Walter Barr, two of Mason Hill's bright young men took in the excursion to Pittsburg on Sunday. They report a good time.

Edward Barker and his friend Geo. Taggart, of Emporium, passed over the hill on Wednesday enroute for Medix Run. Did you get there, boys?

Quite a number of Mason Hill people attended the surprise party for Mrs. Saul Barr on Wednesday. They report a good time. Sixty-four persons were present.

Buckwater.

Fishing is the chief industry in our section of late.

Mrs. Bert Close was an Emporium visitor last Sunday.

Mr. Feltwell, of Emporium, visited his son here, last week.

Dell Reed, of More Hill, registered at the hotel Hillyard, Saturday.

The bridge is nearly done and More Hill people can be proud of it as well as of their Supervisor, who certainly knows how to do the business.

John Lawson is all smiles the last few days, all on account of that assistant foreman that arrived at his home last Saturday morning. How about a smoke, John?

On Friday afternoon the residence of Mike Hillyard was discovered to be on fire, and our fire laddies were on deck as usual, but would have lost the fight had it not been for the men on work train.

Will Jordan made a business trip to "Germany" last week, and returned with a lot of nice Michigan potatoes. He will devote special attention to potato raising this summer.

Sinnemahoning.

Our little town has again assumed an air of activity and industry, with bright prospects for a busy and prosperous season. Messrs. Barclay Bros.' drive came in on Wednesday of last week and the big mill, planning mill and shingle mill are in full operation and this is not the only satisfactory condition that confronts the laboring classes here, notices having been issued by the Messrs. Barclay that after April 30th wages will be advanced to the old scale existing previous to the panic times of 1895. This firm was among the last to make a cut in wages at that time and are now right in the band wagon with the earliest players, waving a banner of protection and prosperity, which is not only gratifying to their many employees and a pleasure to themselves, but also presents a tough argument for the calamity howlers to run up against. Some of those who claimed that with a gold standard and a protective tariff wages would never be restored, are now at a loss to know whether to crawl into a hole or climb a tree. Surely McKinley times, based on a solid financial system, are good enough for people down this way, and such incidents as these will influence more votes than all the free silver speeches Col. Bryan could grind out in a year with a four-horse threshing machine.

The social event of the week was a birthday surprise party given Mrs. E. F. Smith, by the lady Maccaebes, of which lodge Mrs. Smith is Chaplin. Of course a number of drones or king Bees were also in evidence. The affair was admirably planned and executed with military precision, so that when the estimable little lady returned from a call on a neighbor she found her own

cozy hive in the possession of a swarm of strange bees. A treaty of peace was at once ratified and Mr. and Mrs. Smith were invited to join the mob and partake of refreshments furnished by the visiting queens while the drones presented their fair guest with an elegant stand. The evening was very pleasantly spent and about eleven o'clock the Bees took their flight, each wishing their genial hostess many happy returns, and promising on the next occasion to provide an extra freezer of cream for Sir Knights McCoy and DeShetler.

At present writing Jesse Michaels and Billy Davis are in a fair way to recovery from the effects of their little (?) lunch.

JOE.

The big mill of Barclay Bros. is running full blast and everybody is happy and cheerful, seeing notices posted of an advance in wages of ten per cent., commencing May 1st, 1899. This advance was not solicited by the employees, but the Barclay Bros. are always up-to-date with their men and will always do the best they can with them; all they ask is an honest day's labor for which the pay is always ready.

As M. S. Quay is U. S. Senator, the liars' club of Sinnemahoning held a regular meeting, Monday evening, Pap Berfield in the chair. Minutes of last meeting read and approved. There was a lively debate over the report of Pap Blodgett on his visit to the liars' club, of Emporium, two weeks ago. He was fined three dollars for owning up to having been out-classed by the Emporium club. The fine was settled in tobacco and all took a chew and called it square. The old man had occasion to visit the county seat on Monday and upon being met by Stub Cavanaugh finally concluded to withdraw from action. Shiner Welsh took a glance at the party and disappeared, as Frank Seger could not be found to help him out. Old Charley was the first one to recognize the visiting members. Sheriff Mundy spun a good one but it was no go, as the "Irish nine" in general put in an appearance. By the way, Patsy Morrissey, the captain of the famous gang, is hard to beat. Ed. McNamee was too sleepy to be any good so he was excused from attendance. Big Tom Davins told a big one, then Johnny Hogan came next; he reported that he never told a lie in his life until he met Joe Strayer—in this the place to be educated, John. Ed. Morse told of sawing 60,000 feet of lumber in half a day on the mill he is running with one circular saw. While this talk was going on Dick Lloyd was spinning them outside. Pat Huxley's story of the cow that fattened a whole dairy with her breath, was mild. The party, after seeing West Barr, of Sterling Run, and John Buck, of Driftwood, adjourned to meet the party from Sinnemahoning, at the station. At sight of A. R. Berfield, Joe M. Shafer, Geo. T. Shafer, and Pap Blodgett, the Emporium club hid their heads under side walks like rats in a sewer. They remarked that they could not stand fire from such talent as was represented that day.

PEGGY.

Our left-hand reporter informs us that the Coroner was called to view the remains of four members of the Sinnemahoning club, found by Patsy Burke near Howard's file room. Upon investigation it was learned that the foolish chaps had the effrontery to tackle Dalrymple and dropped in a dead faint at the first blast from his bugle.—EDITOR.

Would Have Done the Same. Rudyard Kipling undoubtedly got his wit from his maternal grandfather, the Rev. George B. Macdonald, a Wesleyan clergyman. It is related of this bright Macdonald that in the days when he was courting the lady whom he afterward married the father-in-law to be—an aged Methodist with extremely strict notions in regard to the proprieties—was injudicious enough on one occasion to enter the parlor without giving any warning of his approach. The consequence was that he found the sweethearts occupying a single chair.

Deeply shocked by this spectacle the old man solemnly said: "Mr. Macdonald, when I was courting Mrs. Brown she sat on one side of the room and I on the other."

Macdonald's reply was: "That's what I should have done if I had been courting Mrs. Brown."—Troy Press.

A Heroic Remedy. Malta's way of treating rheumatism is a trifle heroic, but a generation brought up on mustard plasters and electricity ought not to object to it. The patient is stripped and bees are cordially invited to settle upon his body. It amuses the bees and cures the rheumatism, so it seems to be a philanthropic system all around. The poison in the bee stings is said to neutralize the acid in the blood which is responsible for the rheumatism.

Thomas Gray. Gray kept the elegy by him for nine years before he gave it to the world. He polished away at it all those years as a lapidary polishes a gem, and the result was he made it a gem. In his whole life he wrote comparatively little, and when asked why he had written so little he replied: "Because of the exertion it costs in the labor of composition."

Spreads Like Wildfire. You can't keep a good thing down. News of it travels fast. When things are "the best" they become "the best selling." Abraham Hare, a leading druggist of Belleville, O., writes:—"Electric Bitters are the best selling bitters I have ever used in my twenty years experience." You know why? Most diseases begin in disorders of the stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Only 50 cents. Sold by L. Taggart, druggist, guaranteed.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best.
