HE STAKED HIS LIFE. "WILDCAT" SMITH'S THRILLING GAME

OF SEVEN UP.

The Doughty Pioneer Beat His Comanche Captor, Big Laugh, at the Game and Then Risked His Life Again to Save a White Girl Captive.

Old "Wildcat" Smith is just about the last living one of that famous band of pioneers who drove the Indians to the mountains, killed the panthers and bears, and blazed the tracks through the trackless wilderness. He does not look like a lawyer, but he has, nevertheless, sat upon a camp stool and decided cases of the greatest importance He does not bear any very marked re semblance to a general, but he has commanded a considerable force in battle, and, while military critics might have complained that he was deficient in strategic ability none ever charged him with lack of valor. Few people would discover in his face or manner any of those traits that distinguish a duelist, but he has demonstrated that he possesses them all in an eminent degree by ordering "pistols and coffee for two" more than once. Upon one occasion he had the audacity to invite Gen-eral Houston, who was at that period president of the republic, to "come out and exchange shots" with him. He says that the old warrior "floored" him by coolly making a note on a slip of paper and putting it in his desk. In answer to the enraged challenger's inquiry the general simply said: "Mr. Smith, you are the fortieth. When I have killed these other 39 scoundrels who have challenged me, I will accommodate you. Be patient, sir.

Smith came to Texas in 1836 and served in the Texas army through all the long wars with Mexico. He was also a soldier in the great civil war, and when that ended he enlisted to fight Indians and remained on the bor-der until there were no more Co-manches to shoot. He has been a man war from his youth up, and in his old age he carries a soldier's musket with a fixed bayonet, and continues to make war on all kinds of game and "varmints." He wanted to go to Cuba, and when the boys insisted that he was too old and feeble he threw off his coat and challenged the whole company to fight him.

Upon one occasion Smith was captured by a roving band of Comanches, many of whom were well known to him. They frankly told him that they intended to make him run the gantlet and burn him at the stake when they reached their village on Devil river. The cap-tive had a flask of whisky, which the chief took away from him. After tak-ing several drinks the old warrior asked Smith if he could play seven up. Smith proudly boasted that he could beat any man living playing that par-ticular game. This answer appeared to put the Indian on his mettle, and he at once proposed that they should halt by the side of the warpath and play for the highest stakes that mortal man ever waged on a game of chance-

Smith eagerly agreed to the proposal, and they sat down under a tree and dealt the cards on a blanket. The other deal the cards on a blanket. The other warriors dismounted and anxiously watched the game. The chief's name was Big Laugh, so called on account of a natural grin that marked his features. After a short time they stood 6 to 6, and it was Smith's deal. He ran the cards off and turned a jack from the bottom. Smith had won his liberty, and Big Laugh told him he might go, but the Texan had something else in view. He might easily have walked away, but he determined upon another act which marks him as a generous soul possessed of the highest courage. There was a young white girl tied on one of the ponies, who was weeping in the most piteous agony.

Smith coolly proposed to play another game, staking his life against the lib-erty of this young girl. Big Laugh was evidently pleased with the white man's courage, and after taking another drink he began to shuffle the cards. The young girl was cut loose from the pony and made to stand on the blanket. while the thongs for binding Smith, in case he lost, were thrown at her feet.

HE WAS SUPERSTITIOUS.

MAY GOULD,

And In Spite of His Mascot He Drop-ped His Big Roll. "Yes, superstition broke me," said

the ex-gambler, as, perceiving that the next man to him had a squint, he crossed his fingers. "I had heard of the luck that a humpback is certain to furnish, so I advertised for one. I got him all right, and now I wish I hadn't. He had a hump that was a wonder. It was two feet high at least. I took him to Europe, with the intention of cleaning out the bank at Monte Carlo. Going over on the steamer I made a little money, and I could see a glorious finish. From London to Nice I nearly ruined bank roll constantly rubbing it against my mascot's magnificent hump.

"To make a long story short, I'll just say that in spite of my humpbacked friend I dropped my roll at roulette be-fore we had been in the Casino two hours. I had just a thousand franc note left, and my mascot, who was as badly broken up as I was, begged me to let him play that in himself. I consented, because I didn't see how the luck could be any worse. The first crack that he made was to put a limit bet on the double zero, but when he won it I fainted. By the time the doctors had brought me to he was playing on velvet a foot thick and never turned a hair or winked an eye until the croupier announced stolidly that the bank was broken. "I was the happiest man in the

world then, I guess, but not for long, as I came back in the steerage. No; I didn't lose it back. In fact, I didn't get a chance, for when I asked my hump-back to divide he said 'Nit.' I reminded him of how well I had treated him and begged him to at least tip me off to the secret of his success. He unbut-toned his coat, loosened a few straps and tossed me over a most artistic ar-tificial hump. 'That's it,' he said. ''Ah, yes! Superstition has ruined many a good man.''--New York Press.

A public exhibition of the force of a common Mauser rifle used by a Spanish soldier at San Juan hill was given in Kansas the other day with wonderful results. The rifle was brought home by Capt. A. M. Wilson of the Twenty-third Kansas. A ball shot from it against the flat side of a common flat iron penetrated the iron and left a hole as smooth as if it were a pine board. The ball, in going out on the opposite side, scaled the iron as an ordinary bullet would aboard. Then three shots were fired against a steel axe blade. Two of them gouged deep holes into the steel and the third bulged it on the opposite side. Kansas the other day with wonderful

The agent carries with him a box contain-number of envelopes, which he says contains blanks and numbers. The scheme is carried on much in the nature of a lottery. The fakir informs his victim that there are but few num-bers in the lot, and requests the person to draw an envelope. Of course every envelope contains a number and the lucky (?) person is informed that they are entitled to a crayon portrait abso-lutely free of charge. The balance of the scheme is identical with former one. The portrait will not be given unless an extortionate price is paid for a trame. The original pictures are never returned, and the agent leaves for pastures new.—Ex.

Editor Press:-You please inform the Emporium liars club that we accept the challenge sent to us last week, on conditions, that our club objects to meeting in Dick Loyd's back room, as refreshments are too far away from the club room to make things lively. what awful interest that poor girl must have watched the turning of that trump! The Indian slowly dealt the cards, and, peeping at the trump, a

hideous grin spread all over his face. "I was sure that all was lost and was just in the act of springing at his throat," says Smith, "when he turned the queen of hearts for a trump. He could not give me, of course, and I held both the ace and deuce of hearts."

Big Laugh was by this time hilariously drunk and in a most excellent good humor. He not only kept his word and gave Smith and the young girl their liberty, but he furnished them two ponies and allowed Smith to take his gun. The liberated captives reached the set tlement in safety, where Smith's strange story would never have been credited had not the young girl borne witness that it was true. She is still living on a fine plantation on the Brazos and is the widow of no less a personage than Colonel Sam Jones, who was killed at the battle of Shiloh.
