A Beneficent Honeycomb.

One of the prospective brides that June will marry, living in the east, has planned her wedding with the end in view of making people happy and comfortable.

Not a little perplexity is being caused in social circles in Washington by the custom inaugurated by a certain set of introducing people.

INSURANCE COMPANY IN TROUBLE.

Concord, N. H., June 8.—The supreme court yesterday granted the petition of Insurance Commissioner Lincoln for the appointment of a receiver for the Provident Mutual Relief association, one of the oldest and largest fraternal benefit organizations in the state.

CONVICTED OF TRAIN ROBBERY.

Hartsville, Mo., June 8.—Jacob Fagley, a farmer, but who has been a justice of the peace, chairman of the populist county committee and minister of the gospel, was yesterday found guilty of complicity in the robbery of the K. C. Ft. S. & M. railroad train at Macomb last January, and sentenced to 12 years in the penitentiary.

SCORES OF GOLD SEEKERS PERISH.

Seattle, Wash., June 8.—The list of prospectors who have perished in the rush to the Yukon gold fields over the Edmonton trail is growing and it reports brought down by the steamer Laurada from southeastern Alaska are to be believed, it will be very large when the full story is told.

BRYANITES SILENCED.

Abundance of Gold Knocks the Prop from Under Free Silverites.

If the Bryanites succeed in forcing the old issues into the platform of 1900 their campaign will present a greater array of absurdities than it did in 1896, because of the changed condition in the currency situation.

While silver and wheat parted company long ago, the Bryanites are now confronted by a currency condition that sweeps the last prop from under their fallacious arguments.

But if the "dear dollar" was in hiding in 1896, it has come forth in such abundance in 1899 as to flout all the channels of industrial and commercial exchange.

The source of this immense tide of gold money with which the country is now flooded may be found in the increased output of the gold mines of this continent, the gold payments to this country from foreign trade balances in our favor and the general reviving of trading activity all over the country.

The country, in fact, is surfeited with gold. A new financial situation has not only come to the front which will demand the attention of the next congress, but the influx of gold currency is completely obliterating the fallacies of the double standard party and must fix the country for all time upon a permanent gold standard basis.

SCATTERING SILVER FORCES.

The Cheap Money Standard Is Being Described by Political Heavy Weights.

The announcement by ex-Senator Peffer that he has returned to the republican fold need cause no great surprise. He states the case with frankness. Originally a republican, he left the party at a time when Kansas and other western states as the result of crop failures were struggling with very lean years.

The next twelvemonth will probably reveal throughout the west many men like Mr. Peffer. The populist party in this section as originally formed was recruited almost entirely from the republicans. The hard times explained the organization there.

But what will Bryan do? The Nebraska leader cannot afford to recognize or yield to the good times. They have arrived not only without his consent, but against his predictions.

A POLICY THAT PROTECTS. Southern Industries Encouraged and Increased by the Dingley Tariff.

The protective policy continues to be justified by its fruits. Secretary Wilson, of the department of agriculture, has just returned from a trip to Louisiana and Texas. Those southern states have found that they need the protective policy of the republican party.

TO DELAY THE INQUIRY.

Senator Mason Declares that Attempts Have Been Made to Frustrate the Work of the Pure Food Commission.

Chicago, June 8.—Senator Mason, of the pure food commission, made the following positive statement last night: "I wish to say that this commission will prepare a bill compelling manufacturers of food products to mark their goods for what they are; for instance, chicory must not be labeled coffee, but chicory."

"We will have in the bill a provision that will absolutely prohibit the introduction of deleterious substances in food products, that which is deleterious to be left to the evidence submitted to impartial scientific men."

"I propose to offer an amendment to the revenue bill which will absolutely prohibit the importation of food articles the sale of which is prohibited in the country from which they are exported."

A WAR CLOUD. It Is Ready to Break Over Nicaragua and Costa Rica.

New Orleans, June 8.—From advices received last night from Bluefields, via the steamship Sunniva, which sailed from that port June 1, Nicaragua and Costa Rica are on the brink of war.

QUESADA'S REWARD.

A Well Known Cuban is Appointed to Represent His Country in Washington.

Havana, June 8.—Director of Posts Rathbone has discovered an immense abuse of the franking privilege. Every official in the island owns one. There are about 300 persons in all who are using the frank for personal communication and those of friends.

Gen. Brooke has issued orders appointing Gonzales Quesada special commissioner for Cuba at Washington with a salary of \$5,000. Those who believe the policy followed by Gomez is a wise one—and they include a majority of the most prominent Cubans in Havana—are much pleased with this appointment, considering it a just reward of years of faithful service.

At a meeting of Havana merchants yesterday the project of Collector Bliss to improve the Havana warehouses according to plans designed by Sylvester Seovel, was unanimously approved.

FLOODS IN THE SOUTHWEST. Texas Towns Suffer Severely from an Overflow of the Colorado River.

Austin, Tex., June 8.—As a result of a terrible water-out and exceedingly heavy rains Tuesday night the Colorado river is raging out of its banks. Reports from Marble Falls and Llano, 30 miles above, show a 25-foot rise there, doing great damage to property.

A FLAT DWELLER'S THEORY.

After Going Through an Ice-Making Plant He Was Out of His Steam Heater.

"Mister," said the man who had been going through the plant when they make artificial ice, "I'll never forget this visit. I'm much obliged to you. You have given me a hint that'll probably be worth hundreds of dollars in doctors' bills."

"You don't say so?" "Yes, sir. Now, let me understand it all clearly. Those pipes carry the gas which circulates all around the water and freezes it up so tight that any bonnets and things that happen to be floating around can't possibly get away until they're thawed out."

"That's the scheme, simply stated." "Well, I'm glad to know about it. It's a very interesting process."

"It's more than interesting. It shows the way in which a man will go on thinking hard of his fellow man, when he's all a mistake. I'm glad to feel that I have been doing some one an injustice, and that I can go forth and candidly own up that I was bearing malice where it was
