TERMS OF SUBSCRIPTION: Per year, \$2.00; 6 months, \$1.25; 3 months, \$0.75. If paid in advance.

Political Announcements.

All Announcements under this head must be signed by the candidate and paid in advance to insure publication.

County Commissioner.

Having lived in this county nearly all my life and never having asked for, or held, a county office, I have taken this opportunity to offer myself as candidate for County Commissioner, subject to the decision of the Republican County Convention.

DELOS BURLINGAME, Sizerville, Pa., Feb. 20, 1899.

Gen. Wheeler has gone to Manila.

Republican State Convention Aug. 24.

This great big nation is booming and calamity howlers are not in force now.

The New Nation and the Old Fourth.

One year ago the Spanish war reached its climax, and the American navy at Santiago completed the work started by Dewey at Manila two months before. It is doubtful whether for a long time to come the Nation will feel the same thrill that pervaded it then, for from one end of the land to the other the quickening impulse of a new life was known to be stirring. Dully and without analyzing it, all understood that a new nation was being born from the elements that had composed the old one.

It is no idle whim to compare the growth of this nation to that of a man. In a far more serious way than most of us imagine that analogy hold good. When this country interfered with Spain in her management of the Cuban question, by that very act it assumed the responsibility of solving the questions and problems that would grow out of the changed situation. No longer relying on other nations to do what was right in the premises, this country voluntary gave bonds that right would be done and the present Fourth of July finds us bringing to a close the various tasks that have confronted us. The little American with his small patriotism and his shortsightedness has not appreciated the vast results that have already been accomplished but those who have gone deeper into the heart of things know that between to-day and this date last year the nation has taken a most tremendous stride forward.

It is well to remember the associations that cluster so thickly around the inception of the day, but it is far better to call to mind what this year and this generation have done to make the day of greater significance than ever. The task set by the founders of the Nation in 1776 has been more than accomplished. The people carried out the plans then laid down for their guidance, but the time came when the Nation growing too large for its cramped conditions stretched itself and burst the restraining bonds with ease. The outcome has been a new nation and a united one, with ideas and aspirations that were scarcely dreamed of before.

In one year, from Fourth of July to Fourth of July, we have moved from the position of a self-restrained, self-interested and self-distrustful people to a Nation ready to take its full share of the responsibilities and profits of the world's work. Thus while it is really the old day that we celebrate it is a New Nation that is doing the celebrating.—Philadelphia Inquirer.

Hicks said that July will open with fair weather, warmer about the third, storms from 3rd to 5th, followed by cool weather after the 7th. About the 11th to 15th very warm weather and summer storms, with light storms during the balance of the month, accompanied by blustering winds, lightning and thunder.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by L. Taggart, July

WASHINGTON LETTER.

WASHINGTON, July 10th, 1899. President McKinley has too much confidence in American and English common sense to share the fears expressed in some quarters, that the failure to agree on a boundary line between Alaska and Canada, which seems likely to result from Canada's attempt to play the grab game, will result in any break of the pleasant relations of the U. S. and Great Britain. He realizes that the failure to agree will be the cause of considerable irritation, and possibly of some disputed territory, but does not believe that it will dangerously involve the two governments.

The President is devoting much of his time to the selection of officers for the new volunteer regiment, and hopes to complete the list this week. Gov. Roosevelt spent a day and night in Washington, upon the President's invitation for the purpose of giving his advice in regard to the appointment of some of these officers. The present expectation is that the new regiments will all be in service by Aug. 15, as the recruiting, which was started to-day will be rapidly pushed in all sections.

Ex-Congressman Geo. R. Davis, of Ill., has not been in politics actively for some time, but he keeps a close watch on things in his State and is regarded as an authority. Of the political outlook he said: "We elect a Governor in 1900, and being a Presidential year, the Republican party will have a great advantage, seeing that the State ticket will almost surely carry with the success of the National ticket. The two will go together. There is scarcely a doubt of the continuance of Illinois in the Republican column."

Ex-Senator Brown and Hon. Jesse Smith, of Utah, are in Washington trying to get official permission for the people of northwestern Utah to pasture their sheep on the Uinta reservation, embracing 875,000 acres, which was set apart as a forestry reservation under the last Cleveland administration. Mr. Brown said on the subject: "People wonder at crime in the western country, and yet these immense reservations, covering thousands of acres, are left as regular hiding places for cut-throats of every character. These reservations, and especially those in the far West, have practically no police protection, and it can be readily seen that if the government would permit their use for pasturing our sheep, this would give the reservation protection that it would not otherwise get." Speaking of politics Mr. Brown said that Bryanism was rapidly dying in the West and predicted that President McKinley would receive the electoral votes of Utah and Colorado.

There is neither surprise nor alarm in official circles on account of the few cases of yellow fever among our troops in Cuba. Surgeon-General Sternberg, of the army, said: "We have anticipated yellow fever among the troops and prepared for it, and never expected to get through the occupation of the island without some cases of the disease. Maj. Gen. Brooke understands the situation. He has as his chief surgeon a competent officer, and anything called for by him will be immediately sent. That there may be plenty of surgeons available, additional immune surgeons have been ordered to report to Dr. O'Reilly."

Col. Henderson received a warm welcome from his numerous Washington friends, during his stay of several days in the city. Neither his successful Speakership campaign, nor the shoving up, by newspaper writers, of his military title to "General," which seems to have been at once accepted by the public in general—Hon. Thos. J. Henderson, who represented the seventh Illinois district in the House from the 44th to the 53rd Congress, was breveted Brigadier General in the Civil War, but Hon. D. B. Henderson never got higher in rank than Col. of the 46th Iowa Infantry—has made the slightest change in him. He greeted all his friends from President McKinley down to the humblest private citizen, in the same whole-souled way that has made him one of the most popular men who ever sat in Congress, and which probably also made him sure of becoming Speaker of the House.

Spain's Greatest Need. Mr. R. P. Olivia, of Barcelona, Spain, spends his winters at Alken, S. C. Weak nerves had caused him severe pains in the back of his head. On using Electric Bitters, America's greatest blood and nerve remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 50 cents. Sold by L. Taggart, druggist.

ALL AROUND THE COUNTY.

Cameron. It was rather quiet around Cameron on the Fourth, as most of our townsmen were enjoying themselves elsewhere.

Mr. John Phoenix, of Bradford, was home on a visit last week.

Mr. H. W. Brown, the Penfield photographer, and Mr. A. P. Yingling were the guests of Mr. Albert Lord and family last week.

Rev. Mulliner preached a very able and interesting sermon last Sunday evening.

BEN.

Sinnemahoning.

The Sinnemahoning Liars Club that was hooked to go fishing on the Fourth failed to materialize owing to C. W. Beldin and J. V. Hanscom having sprained their backs in a contest with Pap Berfield and Harvey Smith, but W. S. "Juniors" filled the engagement successfully. Pap Blodgett caught two bass and one smelt, and got away with his share of "snake bite." The "Juniors" will hold a meeting to-night to initiate a few applicants, Jack Cafrey and Hank Shade and a few more who have been on probation. W. H. Michaels was fined one bottle of beer for not having told a lie in three days. Harry Decker, our grand chief previcator, proposes to match our noble talent against Wm. McDonald and Fritz Seger for a quart of gin. Smike Blinzler, who has won distinction as George Siler II, will referee, and will receive a small of the gin and a bite of Leiberger to eradicate any bad taste in his mouth resulting from rank decisions. Frank Buck will be balloted upon and, if favorable, will be slid in on a rail and stood on his head in the spout until thoroughly seasoned. He will make a good member, and, being an experienced chaperon, he can beat George Skinner all hollow in conducting strangers to rattlesnake dens.

BUCKWATER. Miss Ethel Fisher is visiting friends at DuBois. Old Black Maria is back again and Pat is happy. W. L. Thomes drove through our town last Sunday, enroute for More Hill. Luie says he is just learning to wait on the ladies. We notice he is getting plenty of practice. W. C. Heath has added a celery bed to his garden. We hope it will prove a better crop than did his onions. Mr. and Mrs. Pellam and family returned to Glen Hazel after spending a quiet Fourth with the old folks.

A certain young man of our town is in the live stock business up to his neck. He even had a calf to sell on the Fourth.

M. R. Hellyor has added to his farm a Buckeye Mowing machine, a horse rake, a top buggy, a shovel plow, a harrow, eleven swarms of bees, a barrel of salt and bargained for a barrel of pepper, but backed out and only took twenty-five pounds.

There will be no such a place as Buckwatter after July 15th. Our post office will then be discontinued and thereafter our town will be known by the station name "Howard Siding." We are very sorry our postmaster gave it up, but he says he did not make his salt and the post office bothered him so he could not enjoy the flavor of the salt he did get.

BEESWAX. Beechwood. All our farmers are busy haying these days. The excelsior factory is running every day. Dr. C. H. Dumbolton visited in Emporium last Friday. Mr. Robert Wylie, of Pittsburg, is visiting relatives here. Mr. Harvy Geswender, of Straights, visited friends here recently. Quite a number of our young people attended the races at St. Marys. The Misses Lulu and Jennie Young are visiting friends at this place. Mrs. Jacob Herbstreet transacted business in St. Marys last Friday. Mrs. Kirkpatrick visited Mr. and Mrs. Gilman Leavitt last Thursday. Mr. Kendal Morrison and family, of Hulton, moved to this place recently. We notice that Will Reid has been going up Big Run quite regular of late. Miss Sadie Painter, one of our popular teachers is visiting friends in Pittsburg. The dance given by Mr. and Mrs. Market on the Fourth was largely attended. We are glad to state that Mr. Robert Armstrong is recovering from his recent illness. Mr. Will Leavitt who has been away working in the woods is spending a few days at home. Mr. Nyheart is doing a rushing business on his ten thousand acre stock farm on Big Run. We are informed that Mr. John Kelly, of Emporium, has rented the farm owned by Harry Young. Mr. Clarence Morrison has quit working for John Nyheart and is now employed by R. P. Bingham. The Rev. Hopkins preached to a large congregation in the Wesleyan church last Thursday evening. James Sanford seems to be all smiles of late. Wonder if that new lady friend has anything to do with it? The many friends of little Miss Linda Wainwright will be pleased to learn that she is recovering from the painful accident she sustained in Emporium on July 3d.

The evil that men do is soon forgotten—by themselves. The average man who tries heroic measures gets a misfit. Bucklen's Arnica Salve. The best Salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents a box. For sale by L. Taggart.

There never was a man yet who found it to a disadvantage to learn a trade, and a person with an occupation is independent, for he is then able to earn his living by his skill. Boys should be given trades no matter how well off they may expect to be, for there is no certainty but adversity may overtake them. Clerks who are employed behind a counter measuring off goods, in which work there is no exercise for the muscle or brain and to the great mass of them no outlook toward anything higher or better, they are the ones who bitterly regret that they did not learn some trade which would command them better wages and make them independent, and not subject to the fluctuating fortunes of this or that business house where they can be employed.—Ex.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Grotton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Trial bottles free at L. Taggart's drug store. Regular size 50c, and \$1.00. Guaranteed or price refunded.

S. E. MURRY, PRACTICAL PLUMBER, GAS AND STEAM FITTER.
