Smethport School House Burned.

About 3 o'clock Wednesday morning the Smethport public school house, a fine large brick structure, was discovered to be on fire, and despite all efforts to save the building, it was totally destroyed. Hamlin and containing some choice volumes, was also destroyed, but was insured for \$800.

Emporium Liars Club.

Editor Press:—
Our club came together in Hayes' ice house on Monday night. Meeting called to order by Brother White, who sat on a crockery crate and hammered an empty beer case with a piece of pig iron.

Finnegan Davies reported his automobile's crank broken and Judge Brennan's jaunty car had lost a linch pin, so our trip to the chicken farm was called off.

Fritz Seger entertained the elab with incidents from the Bradford Firemen's Convention, where Shorty Harrington was the finest coon in town, where Smike got lost looking for a barrel in the jam.

Some one swiped the jug and the fun began. John Clare hit Bill Keys with a limberger cheese, and someone swiped Brady with an imitation golf cady, while "Dutch" put "Doc" out with a punch on the snout, and Sam Stevens in the ring was up against the real thing, but aswing on the ear put Del in the clear and the whole mess adjourned yelling for beer.

ANTHONY.

An Era of Prosperity.

An exchange says that the number of strikes now on is an indication that we are in era of prosperity. That is a new and no doubt an original observation, but it doesn't follow that it was made by a philosopher.

It has always been held and accepted as a self-evident truth that the number of strikes was indicative of commercial and industrial standing in that the more numerous were the strikes the less prosperous was the country. Men don't strike when they are satisfied, and there are few reasons for dissatisfaction when work is plenty, because at such times the markets are good and wages usually satisfactory.

But it is a fact that this country has entered upon an area of prosperity. Everybody that wants work can find it. Wages are going up instead of down. Business men are busy and laboring. Empty houses are few in number and empty larders are fewer. Each political party will construe the situation to the satisfaction of its own prejudices and perhaps none will tell the exact truth about it.

But prosperity cannot be measured by the number of men that quit work but rather by the number working or going to work.—Harrisburg Telegraph.

The Creamery Industry.

It is a very few years since a creamery was unknown as an industry. Now there are over 900 of these butter factories in Pennsylvania, or about one fifth the number in the United States. The total product of the state's creameries each year is about 19,000,000 pounds of butter, while 77,000,000 pounds of it are made on the farms.

It Must be Stopped.

Several persons have been in the habit of pasturing their cows within the enclosure of the East Ward school property. The School Board has resolved to put a stop to the practice and have notified the Constable to impound all cattle found within said enclosure. This notice is final.

The Fourth Street Druggist,

The Sanitary Still.

I have recently purchased and placed in my Drug Store one of the popular and greatly endorsed Sanitary Stills, manufactured by THE CUPSEGRAPH CO., of Chicago, Ill. There is no process of filtration which will purify water. Nature's process of vaporizing water and cooling it into refreshing showers of pure rain water is repeated by the Sanitary Still in our store. We distill all water used in both our Prescription Department and Soda Water Fountains.

PURE WATER, PURE DRUGS, PURE SODA WATER.
