Whenever they are in doubt, the Democrats always raise the "anti" issue.

It is said that Mr. Bryan's throat is in bad shape. As a word tunnel it has been shamefully over-worked.

The Democrats run their campaigns on the theory that the people are tired of prosperity already, and want a change.

The fact that the grasshoppers neglected to fuse with the Populists this year in Nebraska may, to some extent, account for the good times in that State.

The Democratic papers are calling this "a government on wheels" since the President started west. At any rate that is better than a "government with wheels."

The Democratic National Committee cleared \$20,000 on the Texas State Fair, and judging from this experience it had better drop politics and go into the State fair business.

By perambulating Europe for several months, Chairman Jones has discovered that our prosperity is but an iridescent dream, and doesn't reach the farmer or the workingman.

About the only famine that the depreciated condition of silver can be associated with this fall is the freight car famine. It is the only bit of hard luck the country has in sight just at present.

Uncle Sam's consuls will look after the interests of British citizens in the Transvaal during hostilities. We have not forgotten John Bull's services in that line when we had that little argument with Spain.

It is hoped that some telegraph company will be thoughtful enough to place a special wire at the disposal of Aguinaldo on election night. It will contribute a good deal toward shortening the war.

Chairman Jones of the Democratic National Committee, if we are to judge from his recent utterances since his return from Europe, is disposed to take up the fight where he left off in 1896. He evidently overlooks the progress made in his absence.

Four years ago hundreds of men could be seen every morning at the gates of the factories hoping for a chance to get a day's work at any wages. Now the factories are advertising for men to take the good wages that Republican prosperity has brought.

The President of the Amalgamated Association of Iron and Steel Workers told the Industrial Commission at Washington the other day that his experience in dealing with combinations of capital or "trusts" had been most satisfactory. As a rule he thought it easier to avoid strikes with them than with private employers.

A decided change is noticed in the attitude of the Democratic leaders. They are less inclined to criticize the policy of whipping the Filipinos first and determining the form of government afterwards, than they were two months ago. The return of the volunteer regiments was a disappointment to them, as they soon found that the soldiers did not take kindly to the demand that the American forces be withdrawn at once.

POINTED COMMENT.

Wage-earners appear satisfied with dollars worth one hundred cents each. At the recent meeting of the Illinois State Federation of Labor a silver plank to their platform was proposed but deliberately rejected.

The Treasury receipts continue to pile up in excess of the Treasury expenditures, despite the Democratic assertion that the Dingley law was a failure and could not meet the ordinary running expenses of the Government.

More railroads are being built in the United States, more business is being transacted on those already in existence, more manufacturing is in progress, more exportation of manufactures is being done and more general prosperity and less failures are reported than ever before in the history of the country, a condition which augurs ill for the Democratic campaigns in 1899 and 1900.

The laboring men who still cling to Bryanism should take into consideration this fact: When Bryan made his previous tour through the country they could go and hear him without losing any time whatever from the jobs they didn't have. Now every industriously inclined mechanic and day laborer will have to "lay off" from his job or miss the speech. The lesson is clear enough.—Indianapolis Journal.

"Cut loose from Aguinaldo," shouts the Philadelphia Times to the Democratic party. Easier said than done. Besides, Aguinaldo sincerely trusts the Democracy and has staked his all on the chances of its success. It would be base ingratitude to throw him overboard just because he has talked too much. Other good Democrats have done that too, and maintained their standing in the party.—Pittsburg Com. Gazette.

People who watch the efforts of the railroad companies to handle their freight traffic will agree with Mr. Bryan's recent reluctant statement that "There seems to be some prosperity." The demands from all over the country for cars to move products continues to tax every resource of the car shops. The railroads centering in the great manufacturing cities of the East are making use of everything in the shape of a freight-carrier that can be made to run; yet complaints of shortage and delays are constant, while in the West the crops are taxing the roads to their utmost.

President McKinley showed very clearly in his recent speech at Minneapolis that expansion found as many opponents and as much severe criticism when the Louisiana Territory was acquired and the Alaska purchase made as it does to-day, yet everybody now concedes that both of those purchases were extremely wise and extremely advantageous in the results to the Union and the people affected.

Loyal and consistent Democrats, and there are millions of them, must blush for their party and the reputation which its would-be leaders are making for it when they read Aguinaldo's latest manifesto, in which he says that "In America there is a great party that insists upon the Government's recognizing Filipino independence, and we should pray God that the great Democratic party shall win at the next election, and Imperialism fail in its mad attempt to subjugate us by force of arms."

Democratic stump orators who were insisting in 1896 that there could be no prosperity without free trade and free silver will, perhaps, be interested to know that the failures in September, 1899, amounted to less than one-fourth of those of September, 1896, the very month in which they were trying to induce people to accept their political nostrums. The failures in September, 1896, were, according to Dun's Review, \$29,774,917, while for September, 1897, they had fallen to \$10,309,935; for September, 1898, to \$8,868,019, and for September, 1899, they were but \$6,979,684, the lowest record in September failures since the keeping of these records began.

Millions Given Away. It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on L. Taggart, Druggist, and get a free trial bottle. Regular size 50c. and \$1. Every bottle guaranteed, or price refunded.

WASHINGTON LETTER.

(From our Regular Correspondent.) WASHINGTON, Oct. 16th. 1899.

Secretary Root finds much to please him just now. The military movements in the Philippines during the last few days, which are preliminary to the general campaign, have all been successful, notwithstanding the bad condition of the ground after the long rainy season. In every case, the object sought was obtained. Secretary Root thinks this the beginning of the end, and that long before the close of the dry season there will be no armed bodies of Filipinos on the island of Luzon, and no difficulties are anticipated on any of the other islands. Everybody now looks forward to the early pacification of the Philippines. Another thing that pleased Secretary Root was the telegram from Havana stating that the taking of the Cuban census was started to-day on schedule time and that everything has been arranged for its early completion.

Gen. Shafter was to-day retired as a Brigadier General of the regular army, but his management of affairs at San Francisco, where he has charge of the shipping of all troops to the Philippines, has been so efficient that he will be retained in the service as a Major General of Volunteers, as long as his services are required. Gen Shafter was retired under the age limit law, which gave the war department no discretion, to-day being his sixty-fourth birthday.

Ten army chaplains have been ordered to the Philippines by the War Department, to assist the eight who are already over there, in looking after the spiritual welfare of the soldiers.

Senator Hayward, of Nebraska, who is in Washington, and who is thoroughly posted on the political situation in the state, says he is satisfied that the Republicans will win, although Mr. Bryan is making greater effort to prevent it than he did to carry the state for himself in '96. Speaking of the National outlook, Senator Hayward said: "I regard the renomination of Mr. Bryan as absolutely certain, and his defeat as inevitable. He can't get the prosperous citizens of the West excited over as dead an issue as free silver is. Nor can he gain any capital by his stand upon the Philippine question, though it is rather difficult to learn just where he does stand on that subject. At all events, he won't be able to get electoral votes of his own state next year, and outside of the South, the voters everywhere will record themselves overwhelmingly for his Republican opponent."

The settlement for the time of the Alaska boundary dispute, by Canada's acceptance of the temporary boundary line sometime ago agreed upon by Secretary Hay and Great Britain's diplomatic representative in Washington, is a great diplomatic triumph for this administration. The temporary boundary line gives Canada neither a port, nor an outlet on the Lynn canal, both of which Sir Wilfrid Laurier recently said it must have or there would be war.

The war between Great Britain and the Transvaal republic will be likely to prove decidedly profitable to this country, as our neutrality will not prevent our selling supplies to both, excepting, of course, arms and munitions of war. Our peace commerce with the Transvaal—last year the total was slightly over \$2,000,000—is so small that its loss will not be seriously felt. This government will be strictly neutral in the war, and our consular officers in South Africa will return the courtesy extended to us by British consuls in Cuba, during the war with Spain, by looking after the interests of British citizens in South Africa as long as the war lasts. In assuming this task our government gave the strongest possible pledge of its maintenance of neutrality, although the Democrats are pretending otherwise, with the hope of affecting German votes in Ohio and elsewhere.

Spreads Like Wildfire. You can't keep a good thing down. News of it travels fast. When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O. writes: "Electric Bitters are the best selling bitters I have ever handled in my 20 years experience." You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Only 50 cents. Sold by L. Taggart.

Many a woman isn't half as bad as she is painted. Thousands of the most distressing cases of piles have been cured by Tabler's Buckeye Pile Ointment. It never fails to cure. Price, 50c. in bottles, tubes 75c. L. Taggart. oct
