EDITORIAL MENTION.

For the week ending March 12, 1898, Chicago made a new record, having shipped by rail 158,232 tons of freight. This was while the Leiter wheat shipments were in progress. This record was broken during the last week in February, 1900, when the freight shipments by rail amounted to 212,312 tons.

The average farm value of corn in 1894-1896, was 24.6 cents per bushel. Last year, when the crop was 195,600,000 bushels larger, the average price was 30.3 cents per bushel on the farm. During McKinley's prosperity there has been a greater demand for this leading product of the farmers and at much better prices.

Senator Lodge made an able speech outlining his views on this Government's duty towards the Filipinos and highly endorsing the policy of the Administration. He truly said that "Mr. McKinley's own policy and his own acts in the East are his all sufficient defense, both now and in history."

Some of the copperhead papers are shouting gleefully, "The Filipino rebellion is not suppressed." This would be great news to the Democratic party if it were true. Bryan would whoop for joy if the Filipinos should make an onslaught on the Americans anywhere in the islands and kill a few hundred of them and drive the rest of them into Manila or onto the warships. But Bryan will never get a chance to do any whooping on this account. If the copperhead papers have any doubt on this point, let them ask Aguinaldo about it, if they can find him. He will quickly tell them that the jig is up for him and them.—St. Louis Globe Democrat.

"We are to-day Greater America, but that greatness will be lost if we forget the political philosophy which has made us great—expansion of American thought, mechanical skill, civilization and the philosophy of development. Under a destiny unforced and uncontrolled by us, the power and institutions of the nation have been planted in the East. I believe that if we do our duty it means not only the elevation and uplifting of the people of that far-off land, but that it will add to the power and glory of our free institutions and the commercial supremacy of the nation."—Senator McLaurin (Democrat) of South Carolina, in the U. S. Senate.

The anti-imperialists who have been shuddering at the proposed oppression of the Filipinos by the Administration, are considerably embarrassed at the recent speech of President Schurman at Chicago. As one of the Philippine Commission he pointed out that the plan of government for the islands which the Commission has recommended, and to carry out which the President is to appoint another Commission, follows closely the lines of Jefferson's for the government of the Louisiana purchase. It will hardly be claimed by the anti-imperialists that the Louisiana country were less fit for self-government than are the Filipinos to-day.

The petticoat has come to stay. The divided skirt and the bloomer have had their little day, at least with the French girls. By a unanimous vote the female readers of a French paper have decreed to oust every style of frock but the old reliable petticoat design, and as the French ladies are conceded to be the leaders of fashion, the decision is final. No reason for this peremptory decision is set forth, of course, but then women are in the habit of doing things without giving any detailed reason for it, more than the proverbial "because," a word which may be assigned whatever meaning you like. They are not particular about that. It may be that woman in her ambition to be classified with the angel elects to wear the petticoat merely to detract from the knowledge that she is only a biped, a hideous clothes peg, like a man.—Punx'y Spirit.
