OLD KIT.

That a good play is enjoyed by one nationality as well as another is illustrated by "What Happened to Jones," which is of American authorship.

It ran for more than a year in London and three companies are at present playing it in the English provinces. It played to 800 pounds in five nights recently in Johannesburg, South Africa.

while the best record before that for the same time was 700 pounds, which was done by "The Gayety Girl." In Copenhagen Jones created such a furore that the royal family went to see him three nights in succession.

King Oscar of Sweden broke his rule of witnessing only Ibsenite plays to laugh at the American farce. It has already been played throughout Germany and Italy, and is shortly to be done in Japan, while an American company has already played it in Hawaii and Manila. In fact Spain is the only country where there seems to be no demand for this genuine brand of American humor.

Spaniards have always been rather slow to appreciate a joke it is said. Home fried shoosoles are now a luxury in Mafeking. CASTORIA For Infants and Children. The Kind You Have Always Bought Bears the Signature of J. C. Watson.
