A prison official has ample opportunity for an exhaustive study of Crime and Its Criminology. Therefore a new

Prevention. book by Rev. August Drahms, chaplain at San Quentin, Cal., entitled "The Criminal," is a work which commands wide recognition as a scientific study of the man behind the bars. Some of his conclusions, well substantiated by long observation, are very interesting, while in the main confirmatory of those of other investigators. Organically, we are told, all crime has its source in anthropological sources. "In time, the personal factors may become so assimilated with the social mass as to almost lose their personal identity." The social element then becomes as fully the feeder of the criminal propensity as the more strictly perconal propensities. The greatest pro-portion of the crimes of civilization are of this kind. The fluctuation of industrial and economical enterprise, the hardships facing the wage-earner are often a direct invitation to crime. "Intemperance is the chief source of crime, both directly and indirectly. The decrease in the use of alcoholic drinks must ever remain the great aim of all anti-criminal legislation, as well as of moral and social reform. The author is strongly in favor of state industrial and employment bu reaus, to aid the working classes to obtain work, and if necessary furnish tools and temporary assistance. Cali fornia has such an institution which in one year assisted 5,000 individuals to employment. Money thus expend ed by the state, under government subsidy and inspection, "will flow back again into its resources, where as in pauper support and almshouse it represents only dead capital and congested outlay in gratuitous, though laudable, charities."

Mechanical power is bringing to the horse the emancipation which it has brought to the artisan. And yet, as a scientist recently said to a sportsman who feared that the horse will fall into disuse: "Automobiles will not displace horses until type-writers displace pianos." In their proper field the noblest of animals will never go out of fashion.

Coeur d' Alene Inquiry Used by Democrats for Politics.

Lentz and Sulzer Dominated Their Party to Besmirch the Administration-Hobnobbing with the Witnesses.

One of the most remarkable investigations in the history of the United States congress has drawn to a close. It began on the 19th of February in the house committee on military af fairs. It has ever since occupied the attention of that committee, practically to the exclusion of everything else with the exception of the appropriation bill

An inordinate desire to make "po litical capital," to manufacture "new political issues," was the mainspring of those who demanded this investigation-ostensibly an investigation of the conduct of the United States military in the Coeur d'Alenes, Shoshone county, Idaho, after the dramatic occurrences of April 29, 1899, and the dissensions, conflicts and crimes that preceded that date. The prime moven in the conspiracy to drag the present administration into a huge scandal for a conspiracy it was, beyond a doubt-was John J. Lentz, a demo-

Acts of the Kentucky Legislature Are Not Subject to Judicial Review— Taylor's Militia Disbands and He Goes to Indiana.

Washington, May 22 .- The United states supreme court yesterday de-ided the Kentucky governorship case n favor of Gov. The facts and arguments were re-viewed by Chief Justice Fuller, the contention of the contestees being that the action of the legislature was

not subject to judicial review. The judgment of the court of appeals, it was said, denied to Taylor and Marshall no right guaranteed by the fourteenth amendment. It had long been settled that the federal courts had no power to review the action of state courts relating to the constitution and laws of those states. The state of Kentucky is in full posssion of its faculties and no tion arises to warrant federal intererence

Frankfort, Ky., May 22.—The an-nouncement of the United States su-preme court's decision in the gover-norship contest was received here with the wildest demonstration on the part of the democrats. The fire bells were rung, cannons boomed and the city was put in holiday attire in the city was put in holiday attire in honor of Gov. Beekham. TWO STATE CONVENTIONS.

Kentucky Democrats Will Hold Them in the Near Future-A Wide Open Primary Assured. Frankfort, Ky., May 25.—The dem-

peratic state executive committee held a meeting here Thursday after noon and issued calls for two state conventions. The first will be held at Louisville June 14 for the purpose of selecting delegates to the democratic national convention. The other will be held at Lexington July 19, and at this convention a democratic candi-date for governor will be nominated. Gov. Beckham's friends, it is understool, favored only one convention, this to be held the last week in June, but the proposition for two conventions carried by a majority of one. The call will be wide open, as sug-gested by Senator Blackburn, and will invite all known democrats who pledge their support to the ticket and platform in November to participate. nation in November to participate. There was a great deal of discus-sion among the leaders as to the proposition of Blackburn and others regarding proposed changes in the state platform with reference to the election law and other things, but not enough to give a definite idea of what the state convention will do on

CARTER MEDICINE CO. WINS. BECKHAM WINS.

Obtains Injunction in Case Involving: Simulation of Labels. Brent Good, president of the Carter

Medicine Company, yesterday received a telegram from his lawyers in Chicago, informing him that a final in-junction, with costs, had been granted against the Chicago Label and Box Company. This company makes a specialty of manufacturing labels, boxes, etc., for druggists. The Carter Com-pany has been following them through pany has been bolowing them holdgin the courts for two years on the com-plaint that the label company was making simulations of the labels of Carter's Little Liver Pills. They havenow obtained a final injunction, with costs, and the costs are very large, as the case has been submitted to a Master in Chancery for a final accounting. The Carter Medicine Company has been the first and only one to prosecute printers or engravers who have pre-pared such labels and wrappers. It marks a new departure in infringement cases, and their victory is one of great importance to the whole "proprietary trade," and also of interest to retail

cratic member of congress from the Columbus (O.) district. Congressman Grosvenor, of Ohio, once very properly characterized him as the most bitter and vindictive enemy of the president Lentz had a number of worthy al

lies. Chief among them is Congress-man Sulzer, of New York, known to his colleagues as "the Bowery Statesman." In the disregard of all that marks courtesy among men, kindness and gentleness among associates. Lentz has but one rival. That rival is Sulzer. These men dominated the dem-ocrats of the committee. They made it plain to them at the outset that this

was not an investigation that should investigate. It was an investigation that should besmirch. Messrs. Hay, Jett and Slayden and other democrats of the committee had no desire to handle pitch. They willingly left the conduct of affairs to those whose nature fitted them for the work which had been cut out. They allowed Lent: and Sulzer to have it their own way They had It was their investigation. They had given the assurance that this was to be one grand blot on the escutcheon of the administration. The witnesses of the "prosecution" began to arrive. Lentz made no con cealment of the fact that they need-ed drilling. Ostensibly he was one of those to sit in judgment. He quickly threw off that mask. He bobnobbed with the witnesses. He coached them He drilled them. He remained up till the wee small hours to get their stories out of them and to teach them the manner in which they could b most effectively told. He was with them heart and soul. Why? Because it was his purpose to show that great wrong had been done. Surely a philanthropic motive. But the ministration, at all hazards, must be connected with this great wrong. Of what use, otherwise, would be the ex posure of this "great wrong?"

falsehood and irresponsible testimony continued as long as the two demo crats of the committee had their inning. They had boldly come out in their true colors. They had assumed the roles of prosecutors. They had admitted that they had prejudged the case. They rejected everything that was not water on their mill. And yet they were supposed to sit in judgment

Favorable Trade Balance.

The balance of trade in favor of the United States during the present ad-ministration has reached the incredible um of \$1,483,000,000, an amount that asses the power of comprehension. The balance of trade in favor of the United States, during all the administrations that preceded that of McKinley, from Washington to Cleveland inclusive, was \$383,000,000. To put the matter in another way, the three years of the Mc-Kinley administration have seen a

Physicians say that there is no per son who can retain his or her mobil ity of character under long-continued bodily distress. The argument that some invalids and cripples have beautiful dispositions does not apply, for the reason that although such persons imagine themselves in constant pain, there are really long intervals of relief and quietude.

Moved to pity by the hard-luck story of a tramp who called at his Washington residence a few evenings ago, Congressman Crump, of Michigan, gave the fellow a pair of good shoes. Then he missed two fine um brellas at once followed the man, and compelled him to carry them back and put them where he found them.

The advance agent of prosperity has made good his promises, has done ten times more than he promised, and the people who know a good thing when they see it will be slow to change such a certainty for doubtful promises.

The Consular Service.

Mr. George Parker, the biographer of Mr. Cleveland, who served as United States consul at Birmingham, has a magazine article in which he declares that the consular service is impaired by the political pull. The manner in which Mr. Cleveland looted the consular service for his political friends was outrageous, but, as one of the beneficiaries, Mr. Parker displays con siderable nerve in posing as a critic of the pernicious system. Had the gen tleman taken the trouble to inquire he would have ascertained that under the present administration candidates for consular positions are required to pass examinations and the political pull is no longer a guarantee of an open pass examinations and the door.

No Excuse Whatever

The fact that the democratic party has been deprived of the power to do immediate harm in the way of financial legislation is not sufficient excuse for giving it power. There are other impertant questions to deal with and as robust as ever.
