Made Her Young Again

HAIR-HEALTH.

Since I was 35 years of age my lovely, long, black hat has been turning gray. I got a bottle of Hay's Hair Health, but had little hope, as I had tried many alleger restorers and invigorators with no effect. I have been using Hair-Health ever since; like it very much. It has brought the youthful color back and I never will use anything else.

Democracy and Trusts,

The judiciary committee of the national house of representatives has agreed to submit to that body the text of a constitutional amendment dealing with the trust question. The amendment will confer upon congress the power of dissolving or otherwise effectively dealing with all combinations in undue restraint of trade or business. It further provides that the several states may continue to exercise the same power in any manner not in conflict with the laws of the United States, and also gives to congress power to enforce the constitutional provisions by appropriate legisla-

Strange to say, the Democratic members of the committee unanimously opposed the proposed amendment, which, if it is incorporated in the national constitution, promises to give congress ample powers to deal with evils of trusts, powers which there now appears to be grave doubt as to its possessing. As the amendment does not take from the states any powers which they now have, it would seem to be unobjectionable also in this respect. The action of the Democratic members is therefore not explainable upon any ground other than a mere desire to prevent the Republicans from getting any credit from the proposed attempt to provide for the mere effectual regulation of trusts. Inveighing against the latter has been one of the chief cards of the Democratic program, and their journals and leaders have sedujournals and leaders have sedu-lously sought to create the false impression that the Republican party was the friend of those who liver and bowel troubles. R. C. Dodson. would use trusts and combinations to the detriment of the public. But the hypocrisy of this claim is shown by the united front opposed by the Democratic members of the judiciary committee to a measure calculated to give congress power to deal effectively with the very evils their party affects to so loudly decry.-Pittsburg Times.

Where It Rains Froms.
Every once in awhile stories are brought out about extraordinary showers of fish, of bloody snow, etc., the latest thing being of a ship captain far out on the Atlantic who ran into a dust shower so heavy he had to set his crew shoveling the dust from the decks when the weight began to get dangerous. To this be there added a tale:

It rains frogs in Arizona. The old timers believe there is no doubt of it, though they cannot explain whence the frogs were originally "lifted." But this much is straight—let there be a summer rain along the line of the southern cific in southwestern Arizona, and behold the next morning every little peol has a myriad of little lean green frogs with marvelous croaking powers. They don't wait for nightfall like their more civilized brothers elsewhere, but keep up the music by day as by night. They live where water comes only about once a year. They can't live over the interim under the sun baked black rocks. They assuredly haven't hopped from the Colorado river, and they are all of a size to boot. If they didn't come from the ground or from the river, they must have come from

And that's what the Hassayampers firmly believe.—Arizona Graphic.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her besom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering that the restriction is the property of the property o about the pretty picture in her mind which fills her with terror. The dread of childbirth taken of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs.
