EDITORIAL MENTION.

Times are so good that Coin Harvey has been able to purchase a farm.

Mr. Tillman pitchforked just once too often when he attempted to bulldozeMr.

The Democratic "Boxers" have left Washington and are preparing to take the stump.

If Europe should suddenly blaze with war, where would we get ships to carry our exports?

The Democratic party never had any sympathy to expend upon the brown men of the South.

The greatest national problem now to this fall." be solved is the upbuilding of our shipping in the foreign trade.

The Democratic party always was opposed to those millionaires who don't contribute to its campaign funds.

Gen. Joe Wheeler is finding it hard work to serve his country and maintain his place in the Democratic party.

It is everywhere conceded that there will be nothing to prevent the early passage of the shipping bill at the next session of Congress

Tammany is striving hard to protect its dishonest officials. The protection of official dishonor is a favorite Demoeratic practice.

During the last ten years we have bought from foreign countries an average of 777,134 tons of sugar each year. Most of this has come from countries that buy little from us.

Senator Frye, the presiding officer of the United States Senate, says that one of the first bills to be passed at the next session will be that for upbuilding our merchant marine in the foreign trade.

Ex-Governor James E. Campbell ap peals to the Democrats to drop the issues of 1896 and turn their faces to the front. The chances are that the

In an earnest appeal for the passage of the ship subsidy bill, Hon. Arthur Sewall, the Democratic candidate four years ago for the Vice-Presidency, says: "It is time that we brought the maritime power of America to the old hon-ored position it held before the Civil War gave it a setback from which it has never since recovered."

While our temperance friends are agitated over the establishment of the canteen, they might remember that the consumption of spirits in the United States was 1.33 gallons per capita in 1894 under President Cleveland, and only 1.10 gallons in 1898 and 1.15 gal-lons per capita in 1899. The consumption of beer in 1894 was 15.18 gallons per capita; last year it was 14.96 gallons per capita.

The Treasury Department has used about \$28,000,000 of its surplus, and will use about \$25,000,000 more, in refunding high priced bonds, thus making a saving in interest to the Treasury Department. On this account it was not deemed advisable to reduce the war revenue taxes at the last session of Congress. The Committee on Ways and Means, however, has obtained leave to sit during the recess, and should the present rate of surplus continue, a bill to reduce the revenue will be pushed through at the next session.

Senator Quay Retires.

Last Wednesday, the New York Sun said: "It has the best authority for making the announcement that Senator Quay will retire and within a brief time publish a letter defining his reasons Among these, it was said, will be that he does not care longer to participate in a struggle which has already deprived Pennsylvania of having her full if nothing happens it. representation in the higher house of The highway will b the National Legislature, and also that he is weary of strife and wishes to enjoy the remaining years of his life in peace without being affected by the turmoil of politics. This action relieves the political situation so far as the Republicans in this State are concerned. The factional divisions on Quay and anti-Quay lines will disappear and the mantle of leadership so long held by Senator Quay will not descend on any one man's shoulders. A united Republican party will enter the campaign for the Presidency in Pennsylvania

The Fence Law,

For the information of all we publish the following law in regard to fencing:

On the 4th day of April A. D., 1889, a section of the act of 1700 was repealed. The result of this repeal was, to require every man owning stock to take care of the same himself. Prior to that time the law practically required the owner of lands to fence the same with good and sufficient fence, for the purpose of preventing his neighbors' cattle from trespassing upon his lands. The reverse of the case now exists. The owner of cattle must protect them himself from trespassing. It does not matter wheth. er a farmer has his lands fenced or not: his neighbor cannot permit his cattle to run at large, and thereby trespass upon another's lands. It he so permit his cattle to wander at large, and they commit a trespass upon land, whether the same be fenced or uninclosed, the owner of the stock is liable to the party owning the land upon which the trespass was committed. Hence the rights of the parties may be stated as follows: The owner of stock is responsible for any damage committed upon the lands of another, irrespective of the question of fences. This is the general law obtaining on this question.

The Great Rhoda Royal Shows, which are billed for this town, is certainly entitled to patronage. Every town or city in which this gigantic amusement enterprise has been seen this season, its spacious tents have been filled by the best of the amusement loving public. The features are certainly calculated to please, and this fact coupled with the carefully considered reputation of the show in general, has established for it a record that cannot fail to recommend it to all. Manager I. V. Strebig says: "The Great Rhoda Royal Shows intend to win for itself a reputation solely on its merits. We make no promises we do not fulfiill; advertise nothing we do not show: and give a clean, pure show, at which not the least offense can be taken. We want the public to tell us of any shortcoming and we make them our critics. Our employees must be courteous and always study the interests of the people and our own." At Em-

First Fork. Bark "husking" is being rushed and will make business for the new railroad. The prospects for an apple crop look

good, and the berry crop will be immense

The highway will be straightened some between here and Sinnamahoning on account of the railroad crowding it back to the foot of the hills some places.

Alonzo Bailey has been spending a few days in this section, looking over Barclay Bro's lands and estimating timber, etc., and strange to say only killed one rattlesnake.

There has been an epidemic of bridges breaking down in this section for the last week or two. No less than three or four having secumbed to the heavy loads going over them, but they are all repaired again.

"Smallwood Johnson," while cultivatcorn, one day last week, was bitten on the finger by a large rattlesnake, but succeeded in sucking the poison from the wound so effectively as to avoid serious consequences. The snake was killed by Israel Bailey, who was present when the snake bit Johnson. His snakeship was about four teet long.

Railroad business is booming at present large force of men and teams being employed on the grade. A camp is be-ing built on Fred Peno's land, also one the land owned by Haynes' Bros. on and a store is also being creeted. The iron is being laid from Bailey Run down this way. We are expecting an on boom soon as the territory is being leased and the oil is here.

The possibility of a great European war draws public attention to our almost entire dependence upon foreign shipping for our foreign carrying. Such a war would deprive us of ships and strike a frightful blow at our export trade.

On July 1, 1896, under the last Democratic administration, the per capita of money in circulation in the United States was \$21.10. This year, on June 1, it was \$26.71 per capita, an increase of \$5.61 for every inhabtant in the country.

Missouri wants President McKinley re-elected. Frank B. Moore, editor of the Daily Herald, of St. Joseph, says: "Democracy has nothing to offer to the public," but he predicts that the dinner pail brigade will turn out solid for Mc-Kinley in November.

Business evidently continues good in all the Western, Northwestern, Southern, Southwestern, and far Western States, according to Bradstreet's returns of the bank clearings for May and for the first five months of this year. In New York the clearings for May were less than in the same month last year, owing to the dull condition of the stock market. But outside of New York the returns from all sections of ings for May were \$12,000,000 greater than a year ago.

The appreciation of the recent pict ures given free to readers of the great Philadelphia Sunday Press has induced the management of that paper to announce that a beautiful picture will be Druggist. given with every copy of the Philade!phia Sunday Press every Sunday. The assurance is also given that this series of pictures will be the most magnificent ever distributed. The subjects are all original and by the highest class of artists.

The picture for next Sunday, June 24, will be a decided novelty. It will be 14x20 inches in size and its prominent feature will be a reproduction of Percy Moran's famous water color, "The Ideal Summer Girl." Everybody knows Moran and his Summer girls, so that this picture is certain to be immensely popular. It will have added value by the fact that in one corner will appear an artistic calendar for July, something that everybody will prize. It will be well to order next Sunday's "Press" early.

Price of Coffee Goes Up.

Arbuckle Brothers, at New York, have advanced their brand of package coffee one-eighth cent a pound, making the price 11 cents. The price for the brand controlled by the American Sugar Refning company will be similarly advanced. The move is interpreted by Wall street people to mean that the coffee interests of the two leading packers of coffee are being worked on the basis of a mutual understanding, by which each of the leading heands bas a the country show that the bank clear-ing for May, ware \$12,000,000 greater special field and that competition is ended.
