Ralph Williams was up from First Fork, Monday. Miss Sibyl Weed, who has been in Emporium for a number of months, returned to her home in this borough, Friday.—Austin Republican. James Mundy came over from Wharton on Monday to visit Emporium friends. He informs the Press of the death of his brother Philip, which occurred about two months ago at Cincinnati. Ray B. White, formerly an employee of this office, writes under date of July 2nd from Portland, Oregon, to Rev. J. M. Robertson in which he states the report of his death has greatly annoyed him. He is well and has been in excellent health ever since he arrived in Oregon. How the report was started is a mystery. Hon. C. A. Mayer, accompanied by his daughters Miss H. E. We are pleased to learn that the gentleman enjoys excellent health and is a western representative of the Collier Magazine at Chicago, at a handsome salary.

Blum will spend two weeks on Moore Hill, having rented the Wade Spence house. The husbands will visit their families every Sunday and attend Sabbath school regularly. Good, of Philadelphia, came to Emporium July 4th to spend the week with our friends John J. Hinkle and wife, returning to the Quaker City last Sunday evening, accompanied by Mr. Hinkle. Both gentlemen enjoyed their outing in Cameron county and returned to their work well pleased with Emporium. While Mr. Hinkle "is one of us," Dr. Good came to our town a perfect stranger to all, except a few friends, and expressed himself as delighted with our kind, hospitable people and grand scenery. We hope the Dr. may return to Emporium at some future date and no doubt "Farmer Hinkle" will see that he does. J. A. Johnston, wife and son Lloyd, spent their July vacation at Buffalo, Depew and Niagara Falls, and report an enjoyable trip. The towns of Depew and Lancaster and surrounding lands are a veritable flower garden, so charming that the eye could never tire looking upon its exquisite beauty. The possessions of the Depew Land Improvement Co., of which Mr. S. Q. Mingle is General Manager, deserves notice for the extreme beauty it portrays, and the management for its admirable tact and good taste. Not a stick, stone or any unsightly thing is allowed to present itself to view, little clusters of grass along the streets are taken up by the roots and carted away as fast as they appear. It would be a delight to describe the whole scope of those towns and intervening section to Buffalo but space will not permit it this week. Coal Crusher. The Emporium Furnace Co., have commenced crushing coal at the company's works near Canoe Run. The coke ovens have been fired and a thorough test will be made to ascertain whether the coal will properly coke. The company are greatly encouraged and recently one of the owners exclaimed "when we get the coke ovens in operation the Emporium Furnace will make iron 'until the cows come home.'" The improvements being made at the plant in this place will increase very materially the output of iron. Mortuary Report for Six Months, Ending June 30, 1900. There occurred in the borough of Emporium during the first six months of the year ten deaths, from the following causes: Pneumonia, 3; accidents, 2 (one from asphyxia by gas and one from a fall); acute indigestion, 1; heart disease, 1; atelectasis, 1; congestion of lungs, 1; typhoid-pneumonia, 1. No deaths were reported during the months of February and June. ALBRA W. BAKER, Health Officer. July 10, 1900.

Railroad Rumors Galore. Numerous railroad rumors are in circulation, all intended to benefit Emporium. When the Press secures reliable information we shall give our readers the same. Our Population. The population of Emporium over last census has increased about 20 per cent. giving our town about 2,500 population. Counting Sixth street extension, tannery row and Wiley's addition, all cut off by the township line, we can safely estimate our population at 3,000. The New Principal. Prof. Call P. Bastian, of Muncy, Pa., our readers will see by the minutes of the school board published in another column, has been elected principal of the Emporium schools. The gentleman comes highly recommended and we hope may continue the present efficient standard of our schools. Mrs. E. O. Bardwell Improved. Dr. Bardwell informs the Press this morning that Dr. Mann has consented to have Mrs. Bardwell brought to Emporium on Monday. This will be cheerful news to Mrs. Bardwell's many friends. Unless his wife's condition shall change for the worse, Dr. Bardwell bring her home on Monday evening. A Chance Acquaintance. The most beautiful piece of color which Maud Humphrey has attempted has been secured by the great "Philadelphia Sunday Press," and copies will be given free to every reader of the issue of next Sunday, July 15. For delicacy of shading and beauty in every particular this picture, which is entitled "A Chance Acquaintance," is without an equal among water colors. There is certain to be a great demand for it; hence you had better order your copy of next Sunday's "Press" in advance. BRIEF MENTION. Trade follows the flag, but bankruptcy is about the only thing that would follow the flag of Bryanism.—N. Y. Mail. Ex-Democratic Governor Waller, of Connecticut, declares war against the Bryan ticket. He calls 16 to 1 a dose of poison. The Citizens' Hose Company erected a large flag pole near their Hose house last Wednesday and unfurled a large flag. Rev. O. S. Metzler delivered an eloquent address upon the occasion. J. L. Reed, of Beechwood, was calling on Emporium friends last week. He informed the Press scribe that he hoped to rebuild his mill, which was destroyed by fire last month, in the near future. Bryan is a Populist on the Democratic ticket and a Democrat on the Populist ticket, while Towne, the Populist, must retire from his own ticket in favor of Stevenson, the Democrat. It is to be hoped the Populists know "where they are at" in this campaign.—Phil'a Press. Cha Kent Kane, the prominent McKean county lumberman and railroad magnate, as well as proprietor of Kane Leader, the prohibition organ, has declared for Hon. J. C. Sibley for Congress and places his name at the head of his paper. Of course (?) money influenced Mr. Kane. The work on the new Kinzua viaduct is progressing rapidly and half of the spans are in position. This morning a gang of reeters were put to work and 125,000 rivets weighing 75 tons will be driven into the framework of the immense structure so far built. The rivets will be driven in by pneumatic pressure.—Bradford Star. We fully expected that someone interested and acquainted with the facts connected with the Children's Day services at M. E. Church, would send the matter in, and as it was not sent in we overlooked it in our rush with the last issue. We learn, however, that the entertainment was a grand success and the decorations were elaborate and beautiful, and the educational collection surpassed that of past years. In speaking of the ball game at Austin on the Fourth the Autograph says: "One of the most interesting features of the day was the ball game between Austin and Sinnemahoning, which was won by the home team, the score being 15 to 17. It was a hot day but the boys played a strong game with but few errors. And let us remark right here that the Sinnemahoning boys are as gentlemanly a lot of ball players as ever visited Austin. The irrepressible Steve Collins, of Olean, did the umpiring which, of course, insured ball playing from start to finish." The farmer sits on his fence with a smile on his face that resembles a quarter section cut of a watermelon, as he notices the price of wheat climbing up a little higher each day. One dollar wheat inside of ten days seems altogether likely. This promises to be a great year for the farmer. Now if the Standard Oil Company would raise the price of oil to two dollars, where it ought to be, we would all be happy yet. But with the price of bread-stuff going heavenward and the price of oil going hell-ward, what has the producer of oil got to be thankful for?—Franklin Leader.
