His One Suggestion. "Furthermore, John Henry Meeker," said Mrs. Meeker, who was standing in front of the mirror and putting the finishing touches to her toilet, "I want you to take notice that I am perfectly capable of getting ready for church without any prompting from you, and you can cough and look at your watch as much as you please—it won't hurry me a single second. Do you clearly understand that?" "Yes, my dear," mildly replied Mr. Meeker, "though I think I could understand it a little better if you didn't have your mouth quite so full of hairpins."—Chicago Tribune.

A Probable Result. "If people were only compelled to practice what they preach!" sighed the theorist. "What good would that do?" demanded the practical man. "It would make the world better, wouldn't it?" "Oh, I don't know. I'm inclined to think that whatever changes we noticed would be in the preaching rather than in the practice."—Chicago Post.

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy. The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy. The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."
