# CHINA VS. RUSSIA.

Mongolians Invade the Dominions of the Czar.

News from Pekin, but the Reports that the Worst Has Hap-pewed are Not Yet Offi-cially Confirmed.

London, July 17 .- No further news has been received regarding the reported massacre at Pekin from any source. In the house of commons last evening, beyond an admission that there was no ground for hoping that the report was not true, William Broderick, parliamentary secretary to the foreign office, had nothing to communicate.

Tien Tsin, July 13, via Shanghai, July 17.—At 2 o'clock this afternoon 7,000 of the allied troops attempted to storm the walls of the city. The Chi-nese on the walls were estimated at 20,000. They poured a terrific hail of artillery, rifle and machine gun fire upon the attackers. The Americans, Japanese, British and French troops attacked from the west and the Rus-sians from the east.

The Americans suffered terribly. The chief surgeon of the Ninth infantry said that 25 per cent. of the Americans were hit. Col. Emerson H. Liseum was mortally wounded.

New York, July 17.—A dispatch to the Journal and Advertiser from Tien Tsin, July 8, says: Ineffectual attempts have been made to conceal the fact that Admiral Seymour was compelled to shoot his own wounded during the recent disastrous retreat of the Pekin relief expedition. All the wounded and prisoners who fell into the hands of the Chinese were frightfully tortured.

When Admiral Seymour, in his re-treat, found himself so hard pressed that he was unable longer to carry his wounded with him, he asked them "Which do you prefer, to be left to the mercies of the Chinese, or be shot by your own comrades?"

"We prefer death to torture. Shoot us now, that we may die like men." was the response of the helpless men.

A firing squad was told off, and while the little allied force stopped and beat off with gun fire the Chinese horde that surrounded it, inside its lines an act of mercy was performed as the firing squad carried out its orders.

The Shanghai correspondent of the Evening News says: "The allied troops resumed the atack upon the Chinese walled city of Tien Tsin on the morning of July 14, and succeeded in capturing all the forts. The Chinese were completely routed, and the allies took possession of the native city and its defenses. The total losses of the allies in the engagements of Thursday, Friday and Saturday were about 800 killed or wounded. The cas-Thursday, Friday and Sature about 800 killed or wounded. ualties were greatest among the Russians and Japanese."

London, July 19.—While evidence

accumulates daily that China has long been preparing a formidable military organization in anticipation of the present conflict, and that the area of rebellion is continually extending, harmony among the allies is still lacking. The Russians have refused admiral Seymour's request to hand over the restored Taku-Tien Tsin railway to the English company, and it is rumored that Germany purposes taking a serious independent step, namely, to patrol the Yang-Tse Kiang with German men-of-war. Such a step, would be greatly resented by step would be greatly resented by England.

London, July 20.—The Chinese assertions that the members of the foreign legations are still safe have been so often repeated that they are again beginning to raise hopes in some quarters. According to the Daily Telegraph's St. Petersburg corres-pondent, however, the Russian government is already in possession of defi-nite news that all the foreigners in Pekin were massacred on July 6.

A Chinese merchant who has just arrived at Shanghai from Pekin gives horrible details of the massacre. He says he saw European women hauled into the street by Boxers, who stripped them and hacked them to pieces. Their severed limbs were tossed to the crowd and carried off with howls of triumph. Some were already dead, having been shot by foreign civilians.

The Yokohama correspondent of the Daily Mail, who repeats his state ments regarding the jealousy felt among the allies on the subject of a commander-in-chief and the general lack of unity among them,

Japanese correspondents charge the Russian soldiers with appalling barbarity toward the Chinese They declare that the Pei Ho river is full of the corpses of women and children and that the Russians loaded 300

bodies on a junk and burned them."

Shanghai reports that three mission stations on Po-Yang lake have been destroyed, but it is believed that

the missionaries escaped.

It is rumored that Yu Lu, the missing vicercy of the province of Chi-Li, has committed suicide.

The Shanghai correspondent of the Times expresses doubt that the south-ern viceroys will be able to withstage the pressure of the provincial officials to join the anti-foreign movement. He thinks that already there are signs of wavering on the part of the viceroy of Nankin.

### A MURDEROUS PLOT.

### A Young Woman Tells of a Conspire acy to Kill Her Parents.

Anoka, Minn., July 18.—Eliza Wise, the younger of the two Wise girls, whose parents were killed and four other members of the family ed by shots fired through the windows of their home at night several months ago, detailed in court yesterday a horrible plot of which she said herself and her sister were cognizant. It was during the trial of James Hardy and Elmer Miller, who were arested on suspicion. Eliza was on the stand and was asked who she saw outside the house on the night of the murder. She wrote out a statement to the court accusing the defendants, and practically admitting that the plot to shoot her parents was formed with the knowledge of herself and her sister.

The mother had \$1,500 in the bank, which was to go to her daughters in case of her death, and, according to Eliza's statement, the girls had said they would divide with their suitors, Miller and Hardy, when Mrs. Wise was dead. The father had forbidden the boys to call on his daughters and

so he was included in the plot. Eliza testified that she saw the boys with their guns outside the house before the shooting. After the crime was committed she found one of the tell-tale shells outside the window and destroyed it.

In the Shelby county lelegation there were, according to a statement made from the platform, 19 lemocrats. A feature of the speeches made was that they all paid tributes to what the democratic party has to what the democratic party has done in the past, though the speakers insparingly denounced the present lemocratic state administration and he democratic legislature, thus indi cating a purpose to welcome into the republican party all democrats who are opposed to the Goebel election

There was no nomination to be made by this convention except for governor, as this year's election in Kentucky is an extraordinary one to fill the vacancy in the governorship made by the death of William Goebel

World's Convention of Christian En deavorers in London was Marked by the Most Intense Enthusiasm.

London, July 19.—Fully 50,000 per-ons attended Wednesday's meetings of the world's convention of the Young People's Society of Christian Endeavor, the special feature of the program being the delivery of messages from the churches. Rev. Hughes, president of the Wesleyan conference, said he conveyed from 30,-000,000 Methodists of Great Britain the desire to form an alliance with every true soldier of Christ.

Right Rev. Mandell Creighton, bishop of London, extended to the Christian Endeavor society the heartiest welcome of his diocese and assurance of the sympathy with this work of the large body of Christians he represented.

Dr. Parker, of the City Temple, urged American Christian Endeavorers to nominate Rev. Francis E. Clark and Rev. Charles M. Sheldon for the highest offices in the United States, as Christian men should be at the head of things.

The afternoon meeting was devoted to national rallies, which were characterized by intense enthusiasm. The immesse crowds made the grounds impassable and a water famine, added to the intense heat of the day, caused many women to faint. President Clark read a cordial letter from United States Ambassador Choate.

Germany, France, Holland, Belgium and Switzerland held a rally. Two meetings devoted to a "roll call of the nations" and conducted by Secretary Baer closed the proceedings. When the name of the United States was reached the convention rose and sang "America."

Germany, immediately after the outbreak of hostilities, issued a prohibi-tion of the export of arms to China, but Mr. Chamberlain and the entire British cabinet favor such export even now, and we may point for proof to the recent debate in the British parliament on the subject."

London, July 19.—The Shanghai correspondent of the Daily Express asserts that he has ascertained from an unimpeachable source that when the question of an alliance between China and Japan was under consideration last autumn the empress dowager sent a commissioner to Tokio with secret proposals to the mikado.

"These proposals," says the correspondent, "contemplated the conclusion of a secret treaty having the object of decreases. of destroying all European and American influence in both China and Japan, the wholesale massacre of for-eigners, and the division of the whole of eastern Asia, from Burmah to Siberia, between China and Japan. The special commissioner took a code, pre-pared by Li Hung Chang and Sheng, for secret communications the empress dowager and the mikado.

Fine Sport Witnessed at the Annual Regatta on the Harlem River.

New York, July 20.—The twenty-eighth annual regetta of the National Association of Amateur Oarsmen was commenced Thursday under the aus pices of the Harlem Regatta associa tion. The course was on the part of the river between Fordham Heights landing and Washington bridge, a distance of one and a half miles. A strong breeze blew directly against the oarsmen, which made fast time out of the question.

On the program there were seven events, but one, a heat in the four-oared shell race, was put off until today. Of the six races rowed, three-the international fours, a heat of the intermediate singles and the pairintermediate singles and the pair-oared shell race—were rowed with the incoming tide. The intermediate doubles, first heat, the senior eight-oared shells and the Paris four-shells were

rowed against the outgoing tide.

About 10,000 persons lined the river banks near the finish. The first event was the international four-oared shell race. The starters were the Wachu-sett Boat club, of Worcester, Mass., and the Detroit Boat club, of Detroit. The Wachusett crew was stroked by E. H. Ten Eyck, the ex-Henley champion, who introduced his sculling style of sweep rowing. The Wachu-setts were the first to catch the water. After a few strokes, however, the Detroits drew level and then com-menced a rare tussle.

Both crews steered badly, but of the two the Wachusetts were the worse and if they should commit the same mistake in the Paris regatta they will land clear up on the bank of the river Seine. At the mile the crews were about level, but by sheer plugging the Wachusetts forged ahead and finally won by two and one-half lengths of open water.

American Athletes Fare Badly at the Hands of Handicappers for a Long Race. July 20.-The manner in

which the American athletes had been sweeping the field in the international games in connection with the Paris exposition opened the eyes of the organizers, and the result was shown in the handicapping yesterday, which practically left the Americans out in the cold. The effect upon the Ameri-cans was demonstrated by the fact that, whereas, on the previous days they had secured four-fifths of the games, yesterday out of nine events they captured only one first, with

four seconds and five thirds.

The feature of the day's program was the 25-mile Marathon foot race. The first and second prizes, valued at 1,500 and 250 francs respectively, were the gifts of an American silver manu-

The result was a victory for a Frenchman, Theatro Michel, and his compatriots celebrated their first and only win in the sports with characteristic enthusiasm. French spectators invaded the track and carried Michel around on their shoulders, while their cheers resounded across the grounds.

It fell for 30 minutes in a perfect torrent, accompanied by terrific thunder and lightning. The stream of Long run at the foot of the town empties into Short creek, near the settlement, and the dwell-ings of miners line both banks of the small creek. After the rain began to fall, in an almost incredibly short space of time the usually quiet stream

was converted into a raging river.
In less than an hour 75 houses in
