#### A Great Apple Crop.

According to the United States department of agriculture, the apple crop of the United States is estimated at 100,000,000 barrels. Last year the total crop was a little short of 40,000,000 barrels. It was fully up to the average, but only about one-third of what 1900 will produce.

#### Grand Picnic.

The picnic held at the Chadwick school house, in Rich Valley by the Union Sunday School of Elk Fork, was the most enjoyable occasion the people of Rich Valley and vicinity have engaged in for many years. Besides the good things to eat, the singing by the little ones and the school in general, and recitations and speeches were very good, and held the large gathering with listening ears for two hours or more. The ice cream, made by Mr. James Granger was then served in abundance, being more than four hundred who sampled this cream and pronounced it delicious. The water melons, donated by Mr. Josiah Howard of Emporium, were then served to the people and were much enjoyed by all. This notable gathering was under the management of Mr. F. J. Lewis and officers of the Sunday school, all of whom did their part to make the picnic such a grand success, and for reward the Lord seen fit to bless and cause all to have a good time and go home in the evening well pleased with the day's outing.

Closely following the shirt-waist man comes the chemise maa, a product of Atlanta. Despite his effeminate title the chemise man is described as a sensible sort of a fellow and really cooler and more comfortable than the shirt-waist man. His chemise is of a soft material with very narrow cuffs and soft, low collar. How sweet?—Ex

The only thing that a young man should go in debt for is a home, and the sooner he obligates himself to pay as much as possible out of his income for a house and lot or some other substantial form of real estate, the better. There is scarcely an industrious youth anywhere who, if he would make up his mind to it, could not be independent before he reaches middle life.—Ex.

The ladies of Emporium are raising a fund to buy a \$600 town clock to be put in the tower of their beautiful and modern new court house. It is a commendable scheme and an enterprise that the ladies will be proud of for years to come.—Warren Mail. Just think of the good time our people will have when the ladies procure that new town clock.

#### Fire Nearly Wipes Out Turbotville.

Turbotville, a town in Northumberland county, was almost swept out of existence Saturday afternoon by fire which broke out about 12:30 o'clock in the joint stables of John Mozer and Peter Menges. #### Will be Few Changes.

There will be very few changes made on the old line of the Western New York & Pennsylvania Railroad as the physical condition of the road is said to be excellent, and to bring it up to the standard of the Pennsylvania Railroad very little work will have to be done.

It was at first thought that a number of important changes would have to be made, as little was known of the condition of the property. Since these several inspections have been made, and the officers are pleased with the high standard President De Coursey had brought the road to. Some time ago the Western New York & Pennsylvania Railroad Company contracted for the erection of five steel bridges to supplant the wooden ones now in use. These bridges are to be put up as soon as the plans have been approved by the Pennsylvania Railroad Company. The engineers of the latter company are now at work on them, and it is thought they will soon be acted upon.
