Why Grinding?

The finer the better for paint, no matter what paint; and the best is Devoe lead and zinc ground together.

Letter to Walker, Howard & Co., Emporium, Pa.

DEAR SIR:—Perhaps you would like to take the agency for the foremost paint in the world: Devoe lead and zinc. It is right to put before you the facts as to why it is the most foremost.

(1) Best materials; lead, zinc, dryer, color and lincsed oil, ONLY used in it.

(2) It contains nothing else whatever; no water, no alkali, no benzine, no petroleum, no fish oil, no barytes no whitening—no adulterant.

(3) Your state chemists not only has analyzed the paint, and verifies (1) and (2); but he is going to buy it and analyze it occasionally, and thus watch over the interests of your customers.

(4) It is proportioned for wear.

(5) It is mixed intimately and ground fine.

(6) It is full-measure (231 cubic inches a gallon.)

(7) It is sold at so low a price as to make it cheaper than lead and oil.

(8) It wears twice as long, and therefore costs less than half as much by the year.

(9) You can refund the money if any customer is dissatisfied.

(10) We are responsible; have been in business 145 years without a break, and are the largest paint manufacturers in the U. S.

Yours truly,
F. W. Devoe & Co.
