"If there is any one who believes the Gold Standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me, because I promise him it will not be maintained in this country longer than I am able to get rid of it."—W. M. J. BRYAN.

POINTED COMMENT.

We can see a way by which Mr. Bryan's two speeches a day can be resolved into the nature of a conscientious performance.

The constituents of Mr. Pettigrew owe the country a duty, and there is every reason to believe they will perform it in November.

The woiziness of Minister Wu appeals strongly to Mr. Pettigrew. In fact the South Dakota statesman is highly impressed with the Chinese system of government.

The Vermont in Vermont was entirely satisfactory, thank you; but good Republicans and good anti-Silverites everywhere will keep on working just the same.

No recognized government opposes the policy of the United States in the Philippines. The entire opposition comes from Aguinaldo and the Democratic party.

Failing in his effort to boss the Maryland Republicans Mr. Wellington has taken his political playthings and moved over into the Democratic party where bossism stands a better show.

Voting for Bryan on the theory that a Republican Senate will prevent him putting his heresies into practice is not a practice that will appeal strongly to the intelligence of the country.

The Republican party is not trying to combat the theory that strikes make Democratic votes. The Republican party has devoted its time and attention to the work of removing the Democratic causes for strikes and commercial depression.

JUDAS ISCARIOT IN THE SHADE.

"The fact that the Republican party recognizes in HON. JOSEPH C. SIBLEY, OUR PRESENT CONGRESSMAN, A PERSON WHO POSSESSES IN A HIGH DEGREE ALL OF THE QUALIFICATIONS NECESSARY TO BE ONE OF THE PARTY STANDARD BEARERS, is a sufficient refutation of the great masses of rot dumped upon an unsuspecting public by RENEGADE REPUBLICANS AIDED BY SOME FEW OF THE DEMOCRATIC FAITH."

—Emery's Bradford Record. The above is what Emery thought a few short months ago, or at least pretended to think. He was then actively supporting Mr. Sibley for nomination by the Republicans, with all the power and influence of a daily newspaper which he owned, controlled, directed, and supported at the expense of his own bank account. This same Emery is now the nominee of a few Democratic bosses reinforced by some Republicans whose future is behind him. His act of treachery to Sibley has no more to palliate it than the Modoc Indians might have offered for calling General Canby for a peace talk only to set up and murder him. It is wonderful what sins can be committed in the name of reform. Hereafter when Mr. Emery proffers the hand of political friendship the intended victim will not take the extended hand until he is sure there is not a dagger in the other, nor pledge in the wine cup till after Emery drinks some of it. These are figures of speech but they illustrate the principle.—Oil City Blizard.

The Full Dinner Pail.

The bank deposits and the savings of the people always give a test of prosperity. Since the dark days of Democracy when the Wilson Tariff bill was in effect there has been a tremendous change. It will be remembered that the so-called Wilson bill, that is to say, the bill that was passed, was not the real Wilson bill. The original bill was very much more stringent, and was indorsed by President Cleveland. So disgusted was he because the measure was amended by Congress and made less drastic that he refused to sign it and permitted it to become a law without action.

But in spite of its amended condition it brought disaster. We all remember those dark days when mills were closed and men had to go down into their pockets for subscriptions to found soup houses to save the victims of Democratic control from starvation.

It is well to compare the statistics of those dark days with the present time. In 1894, when Democracy, under President Cleveland, was at its height, the total amount of money deposited to the credit of the people of the United States was \$2,874,589,406. In 1899, in the midst of the Republican administration, these figures had been increased to \$4,608,096,005, an increase of almost one and three-quarter billions of dollars.

Does any one doubt these figures? Then we refer him to the report of the Comptroller of the Currency of the United States for 1899. The figures are official. In the following table will be found the number of depositors:

Table with 3 columns: Bank, Total No. Depositors, 1894, 1899. National: 1,424,966 (1894), 1,991,183 (1899). State and Private: 502,756 (1894), 966,394 (1899). Loan and Trust: 205,368 (1894), 443,321 (1899). Savings: 3,413,477 (1894), 4,254,516 (1899). Total: 5,545,867 (1894), 7,655,414 (1899).

And in the following figures will be found the total amount of deposits:

Table with 3 columns: Bank, Total Amt. of Deposits, 1894, 1899. National: \$1,155,191,588 (1894), \$1,830,116,140 (1899). State and Private: 214,442,510 (1894), 418,281,267 (1899). Trust Cos: 239,504,892 (1894), 576,724,117 (1899). Savings: 1,265,450,416 (1894), 1,782,974,481 (1899). Total: \$2,874,589,406 (1894), \$4,608,096,005 (1899).

A billion dollars is a tremendous sum, and when you almost double a billion you have wealth that the ordinary mind cannot grasp. This money is in the hands of ordinary depositors, among the plain people of the United States.

IS THERE A FULL DINNER PAIL, OR IS THERE NOT?—Philadelphia Inquirer.

Russell Sage declares that Mr. Bryan would have to go to Wall street for advice if he were elected President. Mr. Sage evidently forgets that in the somewhat justly celebrated "crown of thorns" speech Mr. Bryan defined the Gold Bug.

"Dear Boy" Letters.

My Dear Boy—You say that you have read Mr. Bryan's speech at Indianapolis and that "there are some things in it that appears to be reasonable."

Well, Mr. Bryan is a very pleasant speaker and can make a plausible showing when he has a very weak case. He is a clever, respectable gentleman who "earns his bread by the sweat of his jaw," and he has learned his trade very well. But let me call your attention to a few solid facts for you to consider before you feel inclined to yield your mind to his brilliant generalities about imperialism.

1. Mr. Bryan's record proves him to be an unsafe leader. He is a theorist rather than a practical man of affairs. In every campaign in the past and upon every issue heretofore presented to the people for settlement, Mr. Bryan has been mistaken. The results have proved that he was mistaken. The natural presumption is that he is mistaken now. When a Democratic Congressman and also when a Populist leader in 1892, Mr. Bryan was very sure that Free Trade was the thing needed to insure prosperity in the United States. He was sure that the "robber tariff" was making it hard for the farmer and the wage earner to live. He and those who believed as he did succeeded in convincing the people, and the Wilson bill, a free trade measure, was adopted and became a law. Three years of bitter experience proved that Mr. Bryan and his friends were mistaken. Factories were closed; laboring men were without employment; capital found no productive investment, and the produce of the farm brought no adequate return to the farmer from 1893 to 1897 while this Free Trade bill was the law.

In 1896 Mr. Bryan and his Democrat-Populist following dropped the tariff issue like a hot potato and took up that of free silver. During that campaign he declared that if the free coinage of silver at the ratio of 16 to 1 was not adopted, if a gold standard continued to be the law and become a fixed policy of the country, "that prices will go down as certain as the law of gravitation;" that "the rich will grow richer and the poor poorer;" that "there will be a decrease in the amount of money in circulation;" that "the army of the unemployed will continue to increase."

Results have proven that Mr. Bryan was again mistaken. Every one of his predictions turned out to be false. We have now a protective tariff and the gold standard law. Prices have gone up instead of down, while the rich have grown richer the poor have shared in the general prosperity, the amount of money in circulation has largely increased, and labor was never more generally employed nor more adequately rewarded than now.

Is it not fair to presume that the gentleman who has always been mistaken upon every other leading issue is mistaken about imperialism, which he declares to be the "paramount issue of this campaign?"

2. Your father remembers two campaigns before this when imperialism and militarism were the key note of the Democratic war cry. The first was in 1864, when the mighty Lincoln, whose name you bear, was a candidate for re-election. I was not quite old enough to vote for him, although I was carrying an Enfield rifle in the Union army, and I remember how unjust it seemed to me because I was old enough to fight and not old enough to vote. I remember that our Democratic friends said that the re-election of Lincoln meant the downfall of the republic and the establishment of an empire by force of arms.

The same cry came to the front in 1872 when General Grant was a candidate for re-election. "Caesarism," "nepotism," and "military tyranny" were the sum and substance of every Democratic speech, and the downfall of the republic was predicted if Grant should be elected.

Well, the logic of events proved that our Democratic friends were mistaken. Lincoln and Grant were elected, but the republic lived on. No empire was established. No army tyrannized over the people. The nation grew and prospered. Free speech, free schools, and free press not only continued but enlarged their privileges and powers.

In this letter I have shown you that the presumption is against the Democratic position.

In every campaign for forty years the logic of events has proved that the Democrats were wrong and the Republicans right. It is not unfair to presume that such is the case this year.

YOUR FATHER.

If you want a Tenant, If you want a Boarder, Advertise in the Press.

In 1899, under the Republican policy of Protection, the people of the United States consumed 452,470,332 bushels of wheat. They consumed only 232,815,041 bushels in 1896 when our industries were paralyzed by Democratic Free Trade. The difference of 219,655,291 bushels shows why American farmers have been paid better prices for their wheat.

The consumption of wheat per capita in the United States was: Bushels. Under Cleveland and Free Trade, 1896..... 3.41 Under McKinley and Protection, 1899..... 5.95

In favor of Protection... 2.54 Under prosperous conditions every man, woman and child in the United States eats over 2 1-2 bushels of wheat a year more than in Democratic times of distress.

Good Republican Argument.

The Port Allegany Reporter, so many years recognized as the leading democratic paper of McKean county talks good Republican doctrine. In last week's issue Mr. Layman says: "If there is one reason more than another why the Reporter would like to see Sibley returned to Congress it is because he is thoroughly in accord with the present progressive times. His opponent is not. He wants to pull down the tariff laws and have free trade; he wants steel rails manufactured in England and not in Pennsylvania. He would rather see the price of wool again at ten cents than to stay at thirty cents as it is now, and the man who votes for Emery practically endorses those theories."

Last night's issue of Mr. Emery's personal paper contained the announcement that the ANTI-QUAY Republicans and the Democrats elected Mr. Sibley in 1898. This is the truth, yet they have so soon forgotten their refusal to publish Judge Morrison's denial of their assertion that he and the regular Republicans had voted for Sibley two years ago. Hon. C. W. Stone can read for himself in last night's Record the true statement, made in Mr. Emery's paper, that it was the anti-Quay Republicans who defeated him for Congress in 1898. Can it be possible that Emery will still attempt to fool the Republicans into thinking that he is not a dodger? A good memory is an indispensable factor for successful dodging. Why Emery's 'Dependent supporters should vote for Sibley as a Democrat and refuse to do so as a Republican is a mystery.—Bradford Star of Wednesday.

An Inconsistent Candidate.

In the declaration which ex-Senator Emery gave to the voters of the Twenty-seventh Congress district he stated with boldness and directness that he would not "favor a change in the present currency of the United States until a clear majority of the people demanded it."

This sop was thrown out for the purpose of catching the independent voters who oppose the free coinage of silver and of their worse than Democratic allies, the insurgents. Mr. Emery, however, is running upon a ticket which bears the name of the Bryanite electors, and Bryan and his electors are all pledged to free silver.

It is not worth while to discuss the attitude of such a man, except to say that at the best he is too inconsistent or illogical to receive the serious attention of the voters.—Philadelphia Inquirer.

MAILING A MAGAZINE.—Eighteen men, aided by the fastest mailing appliances, are kept on a rush every month getting The Ladies' Home Journal off to its subscribers. The first shipments are started about the middle of each month, and from that time until the twenty-fifth the magazines pour out of the Journal's publishing office by the two-horse-draw load. On the twenty-fifth of each month every Journal has reached its destination, and work in the mailing department slackens for a few days. Some idea of the tremendous size of the Journal's subscription list may be gained when it is known that forty tons of mailing type are required to set up the names of the subscribers. There are three-quarters of a ton of each numeral, and it requires twenty thousand galleys to accommodate the subscribers' names in type. This stock would equip six or eight large daily newspapers. As many as sixty-five compositors are employed setting the names of the Journal's subscribers in type—printers enough to set the type for the biggest metropolitan daily newspaper. The expenses for postage paid by the Journal approximate \$75,000 a year.

Mason Hill.

Editor Press:— Mrs. Russell is still on the mend, but very slowly.

George Tanner, who has been very sick, is better at this writing.

Thomas Patchell and wife, of Castle Garden, passed over the Hill on Friday morning on their way to Emporium.

Miss Lillian Shultz, of your town, drove down on Saturday with her grandmother, Mrs. Walker, and returned the same day.

Honest Joe (we call him so because the Democrats gave him that name and it just suits him) will receive a nice vote from this place in November next.

Mesdames A. L. Barr, Carrie Connors and Miss Maggie Farley attended a surprise party for the former's sister, Mrs. M. A. Losey, at Wyside, it being her 63d natal day.

Mrs. E. S. Walker, who formerly lived here, but now of Findley, N. Y., is visiting her son, E. J. Walker, at this place, and her many friends are pleased to see her.

In last week's issue we notice the items gathered from Mason Hill by the Huston Hill item writer were old and stale and concluded that you and your readers would prefer something fresh and new.

J. M. English and wife attended the burial of Howard Jordan, son of Orin Jordan, of Huston Hill, on Saturday. This family has truly been afflicted. On Wednesday last a boy one year and a half old was buried, making two in one week.

Mr. Potter, of Mix Run, attended prayer meeting here Sunday night. He was accompanied by Eugene Fink and wife and a young lady cousin of Mrs. Fink. All present enjoyed a very profitable time.

Some of our people appear to be very much troubled about the sickness on Huston Hill and want the Sunday-school closed and all public meetings stopped, thinking they are the cause of it all. If fear of an epidemic prevails, would it not be better to double our prayer and praise meetings? Do not get frightened at a gnat and swallow a camel. No cause yet to stop anything or take the children out of school.

Letter to Leet & Co. Emporium, Pa. Dear Sirs: H. M. Hooker & Co., Cooperstown, N. Y., have sold Devoe paint for 42 years. D. T. McGown, of that firm, built a house in '85 and painted Devoe, of course. The paint lasted ten years. A year or two later, a neighbor built a house, and painted it lead and oil. The neighbor's house was repainted twice in the same time. This looks as if the neighbor's house was painted three times in eight or nine years, and McGown's once in ten years. We are not quite sure—we tell the tale as it comes to us. It is enough to say that Devoe lead and zinc lasts twice as long as lead and oil. Yours truly, F. W. DEVOE & Co. An injunction on the thermometer is in order. Valuable in Changeable Weather. People are benefited by the use of Speer's Port Grape Wine, especially ladies. It purifies the blood and makes their eyes shine like stars. 25-cow Doubtless there will be several new third parties this week.

TRY IT Women suffering from female troubles and weakness, and from irregular or painful menses, ought not to lose hope if doctors cannot help them. Physicians are so busy with other diseases that they do not understand fully the peculiar ailments and delicate organism of woman. What the sufferer ought to do is to give a fair trial to BRADFIELD'S Female Regulator which is the true cure provided by Nature for all female troubles. It is the formula of a physician of the highest standing, who devoted his whole life to the study of the distinct ailments peculiar to our mothers, wives and daughters. It is made of soothing, healing, strengthening herbs and vegetables, which have been provided by a kindly Nature to cure irregularity in the menses, Leucorrhoea, Falling of the Womb, Nervousness, Headache and Backache.
