The first snow of this season fell on Friday last, although but a few scattering flakes. Special Bargain Sales in ladies' and children's winter wraps, this week, at Cramer's Variety Store. What a variety of emotions a pat on the back can awaken, all according to who happens to do it and how it is done.—Ex. The ladies of Meadville are conducting what they term a "rag sale" for the benefit of the city hospital. Second hand clothing and many articles which accumulate about a house are donated and then sold to poorer persons in need of such things. The innovation is proving a success. There are 159 cities in the United States with a population of over 25,000. Of this number 19 have 200,000 or more inhabitants, 19 have between 100,000 and 200,000 population, 40 have between 50,000 and 100,000 inhabitants and 81 have between 25,000 and 50,000 inhabitants. As compared with the 38 cities having over 100,000 inhabitants at present, there were only 23 in 1890 and 20 in 1880. W. N. Y. & P. History. A high official of the Pennsylvania said that it was not often his company bought back a road that it had once sold. This remark was caused by the recent acquisition of the Western New York & Pennsylvania. It appears that shortly after the war of the rebellion, and about the time of the coal oil craze, with the assistance of Pennsylvania, a road was constructed from Irvineton, on the Philadelphia & Erie, to Oil City, known as the Warren & Franklin road. A line was then secured from Oil City to Petroleum Centre, Oil Creek was then bridged and the Boyd Farm and Oil Creek Railroad, from Boyd's Farm to Corry, on Philadelphia & Erie, was also acquired. These roads gave to Philadelphia & Erie a circuit of the oil region of 105 miles in length. All these roads were worked independently for some time, but later on they were merged into what was then known as the Oil Creek & Allegheny River road. Western New York & Pennsylvania then ran only as far as Franklin. All the merged lines afterward became the property of the Buffalo, New York & Philadelphia, and later on were included into Western New York & Pennsylvania. While Philadelphia & Erie did not build these lines, its officials were great factors in having them constructed, and they virtually belonged to Pennsylvania. Letter to J. W. Kriner. Emporium, Pa. Dear Sir: When you build a house you want a good paint next the wood—it goes a long way in taking care of the wood. The paint that has the best chance to be useful is this first coat; first two coats; first three coats. The first takes care of the wood; the second takes care of the first; the third takes care of the two. All three become one; and that one is to last forever. "Forever" means as long as the house lasts. The way to make the first painting last, as long as the house, is to follow it up with repainting often enough. How often? Depends on the paint. Repaint while the paint is still waterproof. All the wear is outside; there is no wear on the under paint. This is how the first painting lasts forever; by keeping it covered; keeping it sound. And this is the cheapest way to take care of a house. But how often to paint depends on your paint. If you paint lead and oil, paint again in three years or less; if Devoe lead and zinc, paint again in three years or more. That "less" and "more" are about as one to two. Devoe lead and zinc takes care of a house at half cost, because it lasts twice as long as lead and oil. Yours truly, F. W. DEVOE & CO. Advertise in the PRESS. Terrible. Sinnamahoning Liars' Club. As the country is safe four years more the Liars' Club has reorganized and are now ready for business. Pap Blodgett has not told the truth since failing to get second place on the National ticket at Philadelphia convention, and is a little envious of Teddy now. Beldin's skin is cracking, like a piece of old oil-cloth, from holding back for our first meeting. Pap Berfield sold his house to the railroad company, so we are undecided as to where our headquarters will be located—perhaps in Logue's corn crib. Isaac Bowen told some whoppers on election day which will go hard with him unless he brings Wesley Barr for proof. Wesley is in the best of standing and his testimony goes; he was looking up a place the day before election for meeting and reports a favorable place—a barn—which will be brought up for consideration at our first meeting. Should we reinstate all the old members we will be prepared to meet John Hogan, Mike Murphy, Mike Dolan, or Ed. McNeerney, barring out Dalrymple. We expect to initiate Ed. Morse at our first meeting, then Dalrymple's debarment will be annulled and the world can compete. Hanscom will be elected Great Annias at our first meeting, to serve one year. The Club has a drum corps to liven the sessions. The music is very elaborate; the shading and frazing by Past G. A., Blodgett, on the bass drum, and N. H. McCloskey who handles the life, and the trills on the six "snore" drums and two B I horns, by members of the club, is something for the authorities (on music) to look into. FIDE. P. S. Since writing the above one of our members, Mr. Colby, was out and saw what he thought was a lion or a bear and fired, killing what he found on investigation to be a fine specimen of tom cat. He talks of going to the jungles of South Africa. F. Huntley. Editor Press:— Mr. and Mrs. Levi Smith were visiting their many friends at this place last week. John Jordan shot another bear last week which makes his third this season. G. S. Hill, who has been confined to his bed the past week, is able to be out again. Miss Alberta Russell, who has been visiting her sister at Big Run for a week past, has returned to her home at Wy-side. H. P. Hill, who recently finished a seven year job on Dry Run, has taken a ten year job on Big Run, and is landing the logs at a rapid rate. Miss A. Gertrude Hill was called home on account of the illness of her father, Mr. G. S. Hill, but finding him convalescent returned to her school in Potter county, on Sunday. A surprise party was held at A. F. Nelson's one evening last week. O. B. Tanner and family, C. W. Williams and family and Miss Arvilla Hill of Mason Hill were present. A good time is reported by all. Sterling Run. Editor Press:— Winter is drawing nigh. The show has gone and there is no more excitement. The Philadelphia hunters have left our town after a short stay. It does not always pay to bet on election, especially betting watches. We hear that Robert Whiting is going to Rochester to take a business course. Mrs. W. E. Devling was visiting her sister, Mrs. P. E. Lewis, at Emporium last week. We are sorry to hear of the illness of Mrs. James Strawbridge of Johnsonburg and hope to hear of her immediate recovery. Mrs. Rufus Baker and daughter, of Coudersport, are the guests of her parents, Mr. and Mrs. Joseph Kissel, of this place. Mr. Milton Whiting, who has been at Ligonier for some time, came home to cast his vote for McKinley. Mr. D. B. Peterson of Cameron has moved his family to this place where he will reside in the future, occupying the vacated house of Leonard Smith. Miss Celia Gilmartin returned home last week from Emporium where she has been visiting the Misses Farrel. Mr. and Mrs. J. R. Strawbridge and son DeWitt of this place visited Mr. Mack Mason and family at Driftwood on Sunday. Mrs. T. F. Moore and daughter Genevieve drove to Emporium with her mother, Mrs. Davey, a few days ago. PEG. A Buckle in Her Lung. Early in the year 1896 Mrs. Smith, then Miss McHenry, of Hughesville, placed a small metal snap off a suspender between her lips, and having occasion to laugh the piece of metal slipped down her throat and lodged in her windpipe, as she believed. Several physicians were consulted, but none were willing to believe as the young lady did, they claiming that the metal had passed down her throat and would do her no harm. The young woman adhered to her theory, and, as a substantiation of her assertion, a soreness in a short time developed in her right lung and the symptoms of tuberculosis made their appearance. Matters continued practically the same until a few days ago when, during a severe spell of coughing, the lady spat out what is supposed to be the piece of metal swallowed years ago. It had become oxidized, resembling a piece of charcoal.—Clinton Democrat.
