Papers sent out of the county must be paid for in advance. A man who recently visited a pie factory in Chicago thus describes it: "The Secrets of the day we were there a special run was being made on the

pumpkin pies, and I looked in vain for any signs of pumpkin rinds. One of the foremen grinned and told me, in Mr. Bryan's intelligence should classithe foremen grinned and told lie, in strict confidence, that real pumpkin was never used in pumpkin pies at present, except possibly in a few remote and ver primitive New England villages. The substitute was a mixture of sweet potatoes, apples and cheap of sweet potatoes, apples and cheap flour, flavored with a chemical extract. I tasted some of the stuff and was satisfied he was telling me the truth. Cranberry pie contains only enough cranberries to 'make a showing,' after the manner of the oyster in the church fair stew. The rest is apple jelly, colored red and flavored. I have forgotten the other substitutes employed, but these will give you a general idea of the morality of the business. The average output of the foundry was one a second, or about 36,000 pies for a working day. The manager told me they were shipped all over the pie belt in specially prepared crates."

The following from the pen of an optimistic philosopher in an eastern exchange is severe but true: "The pessimist is a robber. He enters your home and steals away the sunlight. He meets you on the street and he robs you of the feeling of contentment that crept into your veins when you noticed that the day was fine and clear. I cannot tell you just how he does it-his ways differ so-but you know well enough that he does The pessimist criticises your friends, and his own. And can you think of anything more depressing than to have the little shortcomings of the folks you like discussed? These little shortcomings you have long ago recognized, and you do not need anyone to point them out to you. Besides that, you are generous enough to want your friends to appear well in the eyes of everyone else. But trust the pessimist for throwing the worst light upon them possible.'

The recent epidemic of typhoid fever in an orphan asylum was traced to germs brought in on apples. This should warn housekeepers, if further emphasis is needed, of the risk in serving unwashed fruit. At every corner grocery the tempting fruits now so abundant are displayed uncovered, offering the best sort of catch-alls for the germs of the street and air. In addition they are handled by none too clean fingers, carried through the streets in unprotected baskets, and toc often transferred directly to ice-boxes, in which they may stand, perhaps, next to open vessels holding those excellent absorbents, milk and butter. The average cook resents any reflection on her care of the food that is to be served uncooked. The vigilance and patience of the mistress, however, that will be needed to enforce her regulations in this regard are a small price to pay for the additional security to the health of her family.

A photographer at Seneca, Kan., recently took one of the most unique groups that ever stood before a camera. In Centralia there is a woman who is living with her second husband, having been divorced from her first. The other day the divorced husband visited the town and called on his former wife and her new partner. Seized by an impulse, the woman proposed that all three should have their pictures taken together. The husbands had no objections and the group proceeded to the photographer, where a likeness was taken with the woman standing between the two men

Some of the principal public libraries in the country have added music to their circulation departments, and with marked success. The idea is spreading now to the libraries in the smaller cities. Seattle has just adopted it, beginning with 200 books of vocal and instrumental music. Work of Hanna and His Asso-Campaign.

The man who has endured the hard

He has proved by his management of a second presidential canvass that it was strict science, not luck, that distinguished his successful proceedings on the former occasion. At the same time, by judicious and satisfactory per-sonal contact with his fellow citizens on the stump he has given them a new idea of his actual self.

The truth about Hanna-not merely the campaign truth, but the truth be tween campaigns and at all times—has been stated by nobody more accurately than by that observer of character who originally discovered what was the matter with Kansas. Writing for Mc-Clure's Magazine, Mr. William Allen White remarks:

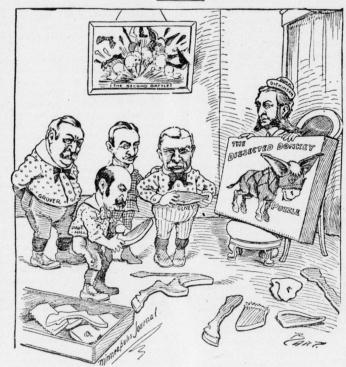

White remarks:

"Hanna is a representative American. Mr. Bryan, emotional, fanatic, raw, represents American moments when mob spirit rages; but Hanna, with his apparent faults, which he does not deny nor his friends try to conceal, and with his undenlable virtues—thrift, industry, practical sense, a cash register conscience, fidelity, love of truth; with his efficiency, and that covereth a multitude of sins; with his sense of humor, that anchors him to sanity—Hanna is a wakking, breathing, living body of the American spirit."

HUMBUG CRY OF FRAUD.

Slanderous Imputation of Altgeld Denied by a Democratic

Ex-Gov. Atlgeld elevates his raven ce to cry that McKinley was elected by fraudulent votes throughout the country and that 40,000 fraudulent votes for Mr. McKinley were cast in Cook county, Ill. This is childish if not im-It indicates a mild form of mental aberration on political subjects

The charge is a slanderous imputation on the characters of all the mem-bers of the election boards in the 1,200 election precincts of Chicago. There are 6,000 members of these boards, onehalf of whom are democrats. The charge amounts to an allegation that 3,000 democratic election officers in Chicago conspired with 3,000 republican election officers to place 40,000 fraudulent votes in the ballot boxes.

There is one democratic watcher and one republican watcher at the polling in each precinct. The watchers are selected by the party committees because they are persons of high integ-rity, devoted to their respective parties. and of peculiar sagacity, especially in the detection of frauds. Mr. Altgeld's allegation is a charge against every democratic watcher at the polls of the 1,200 precincts in the city.

Altgeld was the mammoth "hoodoo" of the democratic party in the re-cent campaign. In each state that he visited and where he made campaign speeches he drove more votes away from the democratic party than are numbered in his charge as to fraudulent voting in Chicago.—Chicago Chronicle

unanimous in support of President Mc- | seem to justify the foregoing estimate.

We do not refer to these facts for the purpose of exulting over them. Nothing is further from our purpose. But we do wish to impress on all democrats the extreme seriousness of the situation in which they now find themselves. Men may argue about causes, and differ as to means and methods, but they cannot shut their eyes to facts. We have set them forth as they actually exist. We owes gratifude to-day for their part in believe that they prove that there is no hope whatever for the democratic party under its present leadership. Eight years ago the party carried New York, Connecticut, New Jersey, Indiana, Illinois, Wisconsin, Delaware, Maryland, West Virginia, and got eight votes in California, and one in Ohio. All are now lost. Is not the inference irresistible? There is no reason why the democratic party reason why the democratic party should not command the confidence and support of the country. If administered the government for a great many years, and did it well. In spite of its mistakes during the civil war, notwithstanding its dalliance with slavery, it promptly recovered,

The generally accepted verdict is that Mr. Bryan is completely discredited as a leader. From one calamitous defeat he has led us to another even the free-silver doctrine turned the greater. It would be insane to think of the continued leadership of a man who has twice failed to carry his own precinct, not to say the country. It is well land and Palmer, is the party which enough to pass around the usual kindly words heard at a funeral, but it must which points to a return of the demo-

OPINION OF A DEMOCRAT.

Result of the National Election as Viewed by James H. Eckels.

Mr. James H. Eckles, who was a distinguished member of President Cleveland's official family during the second term of that democratic executive, ex-presses himself as follows regarding the result of the national election:

the result of the national election:
"The defeat of Mr. Bryan, decisive as it is,
means his complete elimination as a factor
in national politics. It means for the democratic party a riddence of populism and a
reorganization upon democratic lines. It
means for the country no more class strife with slavery, it promptly recovered, making a great fight in 1876, and electing a president in 1884.

Clearly there is something wrong. For our part, we have no doubt as to what the trouble is. It will be well if democrats everywhere learn the lesson which the election returns teach. If the democratic party is again to become a national party it must return to its old principles, which are and always have been national principles, and appeal, not to one section against another, or to one class against another, but to the whole people. It ought to fill democrats with a sense of shame, and Mr. Bryan with the deepest remorse, to think that only four states out of the great, rich and progressive north, in which elections are free and the people vote according to their convictions on national questions, should be found in the Bryan column.—Indianapolis News (Ind.).

FADED IN HER YOUTH

Pretty faces and graceful forms of young women! Why is it they are se soon replaced by plainness and lankness? It is because the young girl just

entering into womanhood does not know how to take care of herself and has no one competent to instruct her. It is not necessary that there should be anything weakening or wearying about the obligations of a female organism. Parents of young girls should inform themselves and prevent their dear ones from making costly errors.

That young woman has a just cause of complaint, who is permitted to believe that great periodic suffering is to be expected, that severe mysterious pains and aches are part of her natural experience as a woman. These things are making constant war on her health, her disposition and her beauty. It is a wanton sacrifice, absolutely unnecessary and cruel. It is more-it is criminal.

Dr. Greene's **NERVURA**

for the Blood and Nerves

Dr. Greene's Nervura blood and nerve remedy, is the right medicine for every young girl who is just entering the first stage of womanhood. It prepares the system in every way to act normally. It enriches the blood supply, and keeps the nerves calm and steady. Fortified with this great medicine, all the womanly duties may be undertaken and experienced without the slightest jeopardy to health. It preserves the gifts of nature and assists their development into glowing, healthful beauty.

MRS. MARY FRANCES LYTLE, of 2 Hunter Alley, Rochester, N. Y., says:

"I was very pale and delicate—had no color, 1took Dr. Greene's Nervitra blood and nerve remedy, and now I am well and strong, my face is plump, and checks red, and my complexion pure."

MRS. WILLIAM BARTELS, 239 East 87th St.,

MRS. WILLIAM BARTELS, 239 East Stell St., New York City, says:

"Dr. Greene's Nervura made a wonderful improve-ment in my health, and that dark, sallow look left my face. My friends herdly know me. I have gained flesh and am like a different person."

The nervousness in women which invariably comes with pain is of itself certain to stop the development of beauty in face and figure. Excited nerves make sharp lines and hasty speech. The beautiful curves which make women so

attractive are not possible when the female organism is out of order, as it surely is when discomfort and pain are always or even periodically present. It is only necessary to look in the faces of young women everywhere to see that this must be so. Else why are they so pale and thin?
