EDITORIAL MENTION.

How are the mighty fallen! Grover Cleveland's autograph brings only four shillings in the London market.

Emperor William evidently thinks that he can stir up troubles enough of his own without assuming any of Oom Paul's.

The census of "domestic animals not on farms" in the United States, is plainly inaccurate. It puts several cities down as having only one or two asses.

Well, Lord Roberts having settled the Boer war, Lord Kitchener will now proceed to settle it again. Thus there will be glory enough for all.

Both Chicago and New York are having spasms of reform, and the dive keepers have put up their shutters and retired to live on their savings for a week or two.

This thing of breaking wills is getting serious. Pretty soon all estates will go according to the law of interstate descent if this thing continues much longer.

It seems strange that Minister Choate isn't able to patch up a truce between the Prince of Wales and Tod Sloane. What does he think he draw his salary for?

Talk about German trade restrictions and of sending coal to Newcastle and of anything else of the sort that may occur to you. Here is the United States shipping cabbage to Germany to make sauerkraut!

Pity the sorrows of the poor. The poor brewers who increased their output only three million barrels in 1900 and the poor bank depositors who have to blow in all their wealth on revenue stamps are both on the point of bankruptcy.

As we expected, Col. Mills' report demonstrates to any fair minded man that Cadet Booz was not killed by hazing, and that the chances are he was not hazed at all. Still, since an official investigation would be more conclusive, let us have one by all means.

As Senator Frye declared in the Senate recently, the pending shipping bill scarcely even resembles the original Hanna-Payne bill. Discussion has resulted in so many amendments that the former can hardly be recognized in the latter. Only the principle remains.

Now a Boston man has decided that he will compete for the honor of defending the America's Cup against Sir Thomas Lipton. The more the merrier. The cup is a national matter and should be defended without regard to the origin of the defender.

The latest plan of the Democratic members of the Ways and Means Committee seems to be a somewhat novel one. They want to reduce taxation beyond the safe limit so as to compel the Government to issue bonds to pay the expenses of the Philippine troubles. The idea is that this would force retirement from the islands.

Mr. Bryan refused to be an actor, but he is now filling the role of hired man to the magazines.

Solomon Up-To-Date.

No man can espouse a good cause on an empty stomach; therefore, satisfy his hunger before you fill him with religion.

The life of a man is in the power of his tongue, yet a dumb man generally lives as long as an orator.

He that findeth a good wife findeth a good thing, but every man that gets married does not always hold a winning ticket in the matrimonial lottery.

A man that has friends must be friendly; yet a purchased friend is seldom a true one.

He that is noted for giving gifts hath lots of friends, especially at Christmas tide.

He that witnesseth a lie shall not go unpunished; yet there are plenty of perjurers who are living in affluence through their testimony.

He that keepeth the commandments keepeth his soul; but the men who keep their soul are few and far between.

On the Scent of Bribery.

A Primrose Dame, canvassing a London constituency, called upon a Mrs. Smith and asked for her husband's vote. Mrs. Smith expressed regret, but was afraid her husband would vote for the Liberals. "The fact is," she said, "he has been promised a new suit of clothes if he votes for the other side." The Primrose Dame was in an ecstasy of curiosity. "Who had made the promise?" Mrs. Smith mustn't tell. Half a sovereign was offered for the information; but Mrs. Smith was of the opinion that she couldn't tell for that. "Well, look here, I'll give you a sovereign if you tell me," said the lady at last. Then Mrs. Smith succumbed to the tempter. Having received the money she revealed the secret. "If you will know ma'am it's me as told him that if he'd vote for the Radicals I'd give him a new suit of clothes—and thank you for helping to pay for it."—London Chronicle.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. L. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver and kidney remedy. Cures dyspepsia, loss of appetite. Try it. Only 50 cents. Guaranteed. For sale by L. Taggart.

New York has a Malay Colony.

We have a small number of Malays and Lascars in the sailors' boarding-house district, which is situated near the East and North rivers, down town. The Malays are chiefly Manila men, although many come from Batavia, Samarang and Singapore. The Lascars are from India. They are all so dark as to be taken for negroes, but their features are Caucasian and their hair is straight, stiff and wiry. They are peaceable and orderly up to a certain point, and then they lose all self-control and generally resort to the knife. The number varies from fifty to four and five hundred. They are inveterate smokers, and many of them use opium as well as tobacco.—New York Post.

Saw Death Near.

"It often made my heart ache," writes L. C. Overseret, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma and all throat and lung diseases. 50c and \$1.00 at L. Taggart's.

Letter to W. H. Cramer.

Emporium, Pa. Dear Sir: It is your business to know what materials to put into a house as well as to plan it. Of course, you know the effect of zinc on lead in paint—toughens it. Do you also know the greater effect of zinc ground in?

For a painter can't grind; he can only mix. Devoe lead and zinc is thoroughly ground in oil. The result is an intimate mixture.

Your painter can only mix; he can't grind; there's no need of grinding by hand. He should buy lead and zinc ground together in oil.

Devoe lead and zinc is that; the proportions are right besides. It outlasts lead and oil two to one, and costs no more—even less; for hand-work can't compete with machine-work.

Yours truly, F. W. DEVOE & Co.

Sinnamahoning.

The Buffalo & Susquehanna railroad is now connected with the P. & E., at this place, and after some ballasting and lining up is done, will be ready for business. I have been reliably informed that the first regular train, a mixed one, will be placed in service about Jan. 1st. This road will be of more benefit and importance to this place than may at first appear. Not only will it open up a more convenient avenue of trade and communication between Cameron and Potter counties but will also be of much importance from a commercial standpoint. Our mills will no longer be compelled to depend on rain and snow for a supply of logs, but they can be brought here by rail—a convenience to the parties interested. Besides this the lumber market of western New York will be more accessible to the Sinnamahoning valley, the benefits of which is at present somewhat speculative and must be solved by future developments, but in all events our people have just cause for being elated over the advent of this new railroad.

Barclay Bros'. new bridge, crossing the First Fork, which was partly built and damaged by the recent flood is being rapidly completed and will, when finished, withstand any ordinary flood without injury.

Parties desiring to secure first-class music for the holidays will do well to consult Pap Blodgett and his Zobo band. Their "selections" have a very soothing effect on human nature. There can exist no care or sorrow, rats, cats, dogs or crying babies when this combination begins to toot. Neither would the blowing of steam whistles and the ringing of church bells annoy you when this band is getting in its work on schedule time. Terms cheerfully furnished on application.

The most effective little liver pills made are DeWitt's Little Early Risers. They never gripe. R. C. Dodson.

New Publication.

The revision of a work which has been before the public for over forty years, and which has an annual circulation of over ten million copies in five different languages, is somewhat remarkable. Its venerable author here gives the result of half a century of professional experience in perfecting his system of medicine. As a guide to those who use his Specifics and valuable hints as to diet and care of the sick this Manual of 144 pages is admirably systematized for the needs of the sick.

We especially notice the unmistakable professional tone which pervades every page of the book. This pocket edition contains a portrait of the author, and the cover is a beautiful half-tone from an original model, and will be sent free, postage prepaid, on request to the Humphreys' Medicine Company, corner William and John Streets, New York.
