## Life a Century Ago.

From the Memphis Commercial Appeal One hundred years ago a man could not take a ride on a steamboat. He could not go from Washington to

New York in a few hours. He had never seen an electric light

or dreamed of an electric car. He could not send a telegram.

He could not talk through the telephone, and he had never heard of the hello girl.

He could not ride a bicycle. He could not call in a stenographer and dictate a letter.

He had never heard of the germ the ory or worried over bacilli or bacteria. He never looked pleasant before a photographer or had his picture taken. He never heard a phonograph talk or

saw a kinetoscope turn out a prize fight. He never saw through a Webster's

Unabridged Dictionary with the aid of a Roentgen ray.

He had never taken a ride in an ele-

The Renovo Record has entered upon its 30th year. Brother Shaffer has labored hard and zealously for the town and county of his adoption and has given the citizens of Renovo a paper fully up to the times. We congratulate our genial friend and wish him many years of prosperity.

The Austin Republican says that the rumors regarding George Hart's financial embarrassment are without foundation. Like many a jobber, he was short of cash for his men, many of whom wanted to celebrate the holidays, but it was only temporary. We hope the rumors will not affect his credit, which up to this time has been A No. 1.

A Lexington, Ky., dispatch says that Miller & Sibley, the millionaire horse-men of Franklin, Pa., have retired from the trotting horse business, and have presented to Charles Marvin, the veteran trainer, all the stock on their Ashland Park Farm, near Lexington. The stock would, it is said, be worth in the sale ring between \$20,000 and \$25,000.

Erie Dispatch: Thomas A. Roberts, superintendent of this division of the Pennsylvania Railroad, and W. Heywood Myers, general superintendent of Pennsylvania lines arrived in the city last night at 10:30 o clock, aboard the private car of the latter. Their visit will determine the status of this city so far as the railroad is concerned, Erie no longer being a division headquarters. The disposition of the local force will also be considered and whatever changes are necessitated will be made. It is said that "Jack" Henry will retire from the local force and will look after his business interests.

John P. Emery was elected to the Legislature in Venango county, as a regular Republican. At Harrisburg the callow fellow flopped and joined the enemies of his party, the insurgents. His perfidy is extolled by the partywreckers as an act of surpassing excellence. Senator Washburn of Crawford. having grown tired of the tricks of the fusionists, joins forces with the regular Republicans and Washburn is deemed a fit subject for attack by the professional slanderers of the insurgent-fusion press. Thus it will be seen that it all depends upon whose ox is gored. Bradford Era.

#### He Meant Business.

A Davenport boy went to New York to solicit a position to travel for a wholesale house, says Success. He went five times to one establishment, nd every time was told that they did not want to engage him. He tried to prevail on them to let him make a trial trip, but to no avail. Finally he proposed to buy a small stock of goods; this was business, and they were ready to sell. He then went on the road on his own account, and made money, so when the firm saw that he meant business they were ready to employ him, and he is now wealthy, being a member of the firm. Not a boy in a hundred would have had his persistence after a refusal. There is nothing like courage member of that firm had only fourteen cents when he reached New York, to seek his fortune.

# Miss Kingsley and the Gorillas

On the Gabun river Miss Mary Kingsley's guide one day called to her to creep quietly through the bushes and then she saw a family of five gorillas-an old male, three females and young one. The guide sneezed, which alarmed the gorillas, and they fled with a bark and a howl, the old male swinging from bough to bough like an

acrobat on a trapeze. On another day Miss Kingsley and her two guides came suddenly upon a solitary male gorilla, who, as usual, had appropriated a forest glade as a park for his private enjoyment. Fu-

#### A Deep Mystery.

It is a mystery why women endure backache, headache, nervousness, sleep-lessness, melancholy, fainting and dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kid-ney trouble," writes Mrs. Phebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 75 years old, I now am able to do all my housework." It overcomes constipation, improves appetite, gives perfect health. Only 50 cents at L. Taggart's. Jan

He had never imagined such a thing as a typesetting machine or a type writer He had never used anything but a

wooden plow. He had never seen his wife using a

ewing machine. He had never struck a match on his

pants or anything else.

He couldn't take an anesthetic and have his leg cut off without feeling it.

He had never purchased a 10-cent magazine which would have been regarded as a miracle of art.

He could not buy a paper for a cent and learn everything that had happen ed the day before all over the world. He had never seen a McCormick

eaper or a self-binding harvester. He had never crossed an iron bridge In short there were several things that he could not do and several things he did not know.
