Our venerable and highly esteemed citizen and friend John Day, Sr, was a very agreeable PRESS caller last Friday. We greatly enjoyed the cigar presented us by our good friend on the ion of Senator Quay, not saying that the Squire is an admirer of the great stalwart war horse. We always enjoy his visits nevertheless and hope he may be spared many years to inspire the young from his storehouse of knowledge.

Income From Electric Light.

A rapid cavass of the Borough gives me a list of signatures of business men who agree to take collectively over 200 incandescent light equivalents, if same is sold at not more than 25c each per month. The canvass is by no means complete, and we are perfectly safe in estimating an income of \$750.00 per year right from the start. Add to this \$420.00, amount now paid for torches, and we have \$1,170.00 per year without any increase in taxation. Now, the Westfield plant has two hundred and eight 2000 c. p. arc equivalents in use and it costs \$2,500 per year to run the plant which is as will be noted about four times the capacity of the one proposed here. Basing our figures on the experience of others, and using the most economical fuel our expenses ought not to run over \$1,000 per year. This leaves a surplus of \$170.00 to apply on first cost, and so far from putting a \$7,000.00 mortgage on every house in town the taxation should not be increased at the very outside more than one-fifth of one per cent. on as-

sessed valuation. E. O. BARDWELL. Jan'y 22, 1901.

Warren Mirror: In a proposed congressional reapportionment bill which will probably be introduced into the Pennsylvania legislature the counties of Erie, Crawford and Warren, population 201,062, are classed as district No. 31. If this bill becomes a law there will be but three reliable Democratic districts in the State. Mercer, Venango, Forest, Cameron and Elk, population 158,015, are classed together as district No. 30.

According to an exchange the lovesick lads and lassies of the old Keystone State will be forced to find other fields for their runaway wedding trips than to New York, as the legislature of the Empire State has recently made a chage in the license law of that State. The enterprising clergymen who used to tie the knots for the couples will now miss some little revenues and the J. P's who used to add to their coffers will be forced to find other methods. The new law adopted by the Empire State is as strict and perhaps just a little more stringent than that of the Keystone State.

To the Tax-payers of Shippen Town-

The undersigned hereby announces his name as candidate for supervisor of Shippen township in order to find out what becomes of the money that is assessed to apply on the road funds, as I think there is sufficient taxes collected to put our township roads in good condition. In my section there were no improvements made on the road last season and nobody called to work out his tax on the road. Truly,

Dear Sir: James Ackley's house in Cairo (Catskill Mountains), N. Y., a conspicuous one in the midst of the village, was painted 14 years ago with Devoe; has not been painted since; and the paint is in good condition to-day. He is going to paint; but there's really no necessity of it.

Devoe has been sold in Cairo 18 years. Our agent is Gaston Wynkoop. House owners there want Devoe, and painters there paint Devoe. It would be a hard job to persuade a Cairo man to paint lead and oil—of course a painter paints whatever his customer wants, even if it's buttermilk.

Marian Van Hoesen, a Cairo painter, has painted Devoe for 15 years. There are two or three others; all for Devoe, we are told—don't know their names. It's the same wherever Devoe gets into a town; it stays there and owns the whole business.

Speaking of Newspapers.

With a news gathering service sweeping the world down to the last second, and with an editorial page the product of judgment, ability, force, discrimination and real humor, The Pittsburg Times is conspicuous as a daily newspaper that is good reading always. It is safe to assert that there are more clippings of news events worth preserving and of general information made from The Times than from any other paper published in Pittsburg. Like a good home, it is tidy, clean, comfortable, and with everything of the best one finds within its pages information, instruction, comfort and pleasure as he may desire. That it conducts no type founders' vaudeville of freak headlines makes it the pride of the printer's craft. It is not above republishing from the humble country papers and with whatever it uses it invariably gives full credit. "The Wooden Indian", quaint in his philosophy, has tomahawked to death many a tired, unhappy feeling. The serial story, of the best, is told in installments neither too close together nor too far apart. The editorials are written with sincerity, directness of expression, and reliability of information that make the page the daily text book of many a person in life's school of facts. Giving other people the right of individual opinion it is never a scold nor a nagger. The Times, first and above all, is reliable. Its telegraphic service covers civilization. Its local newsis crisp and honest. Its financial and market reports are accurate. The sporting world is covered in an attractive way. The social field is carefully and intelligently cultivated. Six cents a week.
