

BED FOR HOSPITALS.

Provisions Made for Treatment of Numerous Diseases and Also for Surgical Work,

The illustration shows a specially constructed bed adapted for use in hospitals, provision being made for treating numerous diseases and also for surgical work. A cooling tank is provided which contains ice and wa-

IMPROVED HOSPITAL BED.

ter, and this can be brought in proximity with any portion of the body while the remainder is given hot treatments by other appliances. The special function of the cooling tank is to regulate the temperature of a pyretic or febrile patient—as, for instance, in spinal meningitis, pneumo-nia, typhoid fever and all forms of eruptive diseases, where bodily tem-perature plays such an important role. In spinal meningitis and ty-phoid it may be necessary to apply heat to the spinal column and neck of the patient to produce muscular relaxation, while the general temperature is reduced by the application of the cooling apparatus to other parts of the body. The mattress of the bed is adapted to be inflated with hot water or air, and in order to main-tain the water at the required temperature the mattress is connected with the water heater in proximity to the bed by means of a pipe. It will be noticed that supports for a fractured arm or leg are also pro-vided, as well as a thermometer, writing tablet, holder for medicine glasses, etc. The designer of the appliance is Adolfo Luma, of Chicago Ill.-Louisville Courier-Journal.

HUNDRED YEARS HENCE.

The Fearsome Future Woman to Whom the English May Be Expected to Look Forward.

This is what the writer in one of the English magazines predicts will be the state of affairs when another

century rolls around: "By that time women will be all is feet in height, many of them con-siderably over, while the average height of a man will be five feet nothing. Woman will be strong and nothing, would will be strong and lusty; broad and heavy in build, and will be very proud of her large feet, thick wrists, powerful limbs and great muscular development, while men will have grown vain of their trimly-corseted waists, nice pink and white complexions and soft voices.

"Love will not have been complete-

FEEDING THE BABY.

FEEDING THE BABY. All Mirk Given to Little Children should Be Sterilized, and Sea-soned Just a Little Bit. There has been a great change for the better in the feeding of little children in the last score of years. Far more children who are deprived of their mothers' milk thrive on ar-tificial feeding than formerly. This is chiefly due to the process of sterili-zation. All milk 1ed to infants or little children who live largely on milk should be sterilized. This should How's This! We offer One Hundred Dollars Reward for any case of Catarrh Cure. F. J. Cheney & Co., Props., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in as business transac-tions and financially able to carry out any obligations made by their firm. We offer One Hundred Dollars Reward for any case of Catarrh Cure. We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in as business transac-tions and financially able to carry out any obligations made by their firm. We defer One Hundred Dollars Reward for any case of Catarrh Cure. Hall's Catarrh Cure. Hall's Family Pills are the hest. Far more children who are deprived of their mothers' milk thrive on ar-tificial feeding than formerly. This is chiefly due to the process of sterili-zation. All milk red to infants or little children who live largely on milk should be sterilized. This should be done to destroy impurities which be done to destroy impurities which the milk may receive from contact with the air and from vessels which hold it, as well as to destroy germs of typhoid fever, tuberculosis or

other diseases which may be neceived from the cow. The importance of from the cow. The importance of sterilization, therefore, cannot be in-sisted upon too strongly. Apparatus is sold for this purpose, so that it may be easily accomplished in any kitchen with little trouble. Formerly the milk of one cow was insisted upon. Some authorities object to this, preferring a child should be fed from a mixture of the milk of different

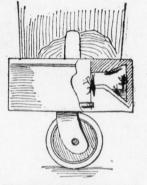

There is more salt and sugar in human milk than in cow's milk. A very little loaf sugar and a little salt should be added to milk given to an infant. A safe rule for feeding little infants is to boil a teaspoonful of powdered barley and a little salt in a gill of water for 15 minutes. Strain the mixture through a fine strainer which is kept for the purpose and sterilized every time it is used. Add to this mixture as much cow's milk and a little sugar. This preparation can be taken from a bottle. Sometimes oatmeal must be substituted for barley. Use oatmeal in place of barley if the child's bowels are not as open as they should be. For **a** very young child physicians generally recommend cow's milk, weakened only with water. If it sours on the stomach, as it may, make a very thin, transparent mucilage of the best gum arabic and milk, sweetened and flavored with a little salt, and give the child a little. It is a simple, harmless medicine.-N. Y. Weekly.

TRAP FOR COCKROACHES.

Pennsylvania Man Has Invented a Contrivance That Keeps Them Off the Dining Table.

To find a roach crawling on the dining table fills the heart of many a

housewife with disgust, and she is tempted to kill him instantly, which,

BUG TRAP FOR TABLE LEGS

of course, soils the cloth. The best way is to prevent the pests from climbing up the table legs, and that is just what the invention of P. J. McAtee, of Gilberton, Pa., is designed to accomplish. We illustrate the idea in the accompanying picture, a por-"Love will not have been complete-ly done away with, though sentiment will have given away to common ment. The bug who climbs this table ly done away with, though sentiment will have given away to common sense. Every woman will be required to marry and support two husbands, one of whom must be a useful, do-mesticated creature, capable of tend-ter the children and looking after ing the children and looking after small indeed. The slanting upper the household (while the wife is away wall of the trap is highly polished, in the city earning good money to keep the home together), and the other will be a better looking, and they attempt to crawl across it. The therefore more ornamental creature liquid may be kerosene or some poi-(not a 'general utility' man like the son, making it impossible for the in-'housekeeper'), whose duties will be to act as companion or 'gentleman help' to the mistress and ruler of the mansion, and keep things up to the mark generally. tors are used, as it comprises a cas-tor with an extra long shank, having the trap surrounding the lower por-tion and adapted to support the leg as shown .-- Chicago Daily News.

How's This?

Hall's Family Pills are the best.

"Why is it called 'pin money?" his wife asked of him. "I don't know, unless it is because the husbands are always stuck for it."-Philadelphia Times.

The Doctors Were Not in It.

The Doctors Were Not in 14. Not long ago, when Mr. C. B. McKebbin was living in Spencerport, New York, he wrote: "Your Lotion has cured me of Bar-ber's Itch of twelve months' standing, after trying every other known remedy and num-erous doctors without benefit." Many oth-ers have written of similar experiences and all recommend Palmer's Lotion as the only reliable remedy to be used in like cases, and in fact for every kind of virulent cutaneous disease. If your druggist happens not to have it, send to Solon Palmer, 374 Pearl Street, New York, for samples of Palmer's Lotion and Lotion Soap, which will be promptly sent you.

"I shouldn't work so hard," protested the gold brick solicitor, "if other people didn't work so hard!"-Detroit Journal.

Homeseekers Excursion.

Homeseekers Excursion. On the first and third Tuesdays of each month the Chicago, Milwaukee & St. Paul Railway will sell round-trip excursion tick-ets from Chicago, Milwaukee and other points on its line to a great many points in South Dakota, North Dakota and other Western and Northwestern States at about one fare. Take a trip west and see the won-derful crops and what an amount of good land can be purchased for a little money. Further information as to rates, routes, prices of farm lands, etc., may be ob-tained by addressing F. A. Miller, General Passenger Agent, Chicago, III.

Sometimes we envy the prosperity of **a** wicked man, little knowing how the wicked man envies us.—N. Y. Herald.

Wonderful Yield of Speltz.

Wonderful Yield of Speltz. Blanchard Bros., Chaffee Co., Colo., write to the John A. Salzer Seed Co., La Crosse, Wis., who are the introducers of this re-markable grain and hay food, Speltz, say-ing: "We have just threshed 182 bus. of Salzer's Speltz from the 100 pounds of seed, you sent us last spring. The neighbors all think it is wonderful. Nearly all of the 182 bus, sold at \$2.00 for seed. Speltz and Alfalfa are our money makers." Every farmer should try a few acres of Speltz. Write to Salzer to-day. [K.]

Don't whistle; it takes the attention of the people from their own affairs in won-dering what tune you are trying to hit.— Atchison Globe.

There Is a Class of People There Is a Class of People Who are injured by the use of coffee. Re-cently there has been placed in all the gro-cery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stom-ach receives it without distress, and but few can tell it from coffee. It does not cost over 4 as much. Children may drink it with great benefit. 15 ets. and 25 ets. per pack-age. Try it. Ask for GRAIN-O.

Never Looked for Trouble.

Never Looked for Trouble. "We went to New Orleans by way of Hot Springs and Texas," said the girl who came home yesterday decked with the green and orange and purple of the carnival colors. "Leaving Hot Springs we changed cars at a place called Malvern. The porter was pol-ishing my boots as we came into the station where we were to wait for the train. The name seemed familiar to me. Then I re-called Bret Harte's poem: "Is Malvern hill near here?" I asked. "I can't say, madam,' he answered, po-litely. I ain't never heard of Malvern hill.' "Never heard of it? I said. 'Why, there was a great battle fought there.' "I.tately?' he inquired. "'Sp,' I said,' during the civil war. Why, it was at Malvern hill that the colored troops fought so gallantly. I should think that every colored man would know about that.'

"He looked up at me, sericusly, almost re-

Between Feminine Friends

"He kissed me," said the girl in gray, with a giggle. "I am not surprised," returned the girl in blue, sweetly. "He told me he had been doing penance."—Chicago Dest Post.

The friends that wealth makes are as the quicksands, but the friends of poverty are like the fixed stars in Heaven.-N. Y. Herald.

THE DUTY OF MOTHERS.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great dea' of exaggeration in this. If a young woman suffers severely she needs treatment, and her mother should see that she gets it.

Many mothers hesitate to take their Many mothers heat due to take then daughters to a physician for examina-tion; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is charge. Mi Lynn, Mass.

Mrs. August Pfalzgraf, of South Byron, Wis., mother of the young lady whose portrait we here publish, wrote Mrs. Pinkham in January, 1899, saying her daughter had suffered for two years with irregular menstruation— had headache all the time, and pain in hear side, foat swell, and was generally had headache all the time, and pain in her side, feet swell, and was generally miserable. Mrs. Pinkham promptly replied with advice, and under date of March, 1899, the mother writes again that Lydia E. Pinkham's Vegetable Compound eured her daughter of all pains and irregularity. Nothing in the world equals Mrs. Pinkham's great medicine for regu-lating woman's peculiar monthly troubles

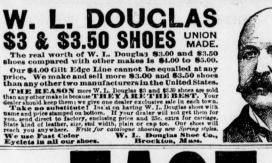

ALARMING MORTALITY. Noticeable Among the

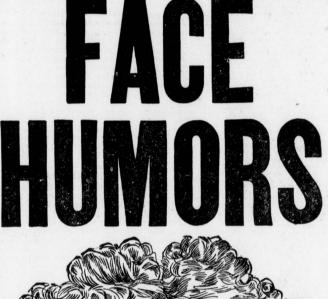

Weak and Ailing.

Spring the Time Death Reaps Its Largest Harvest.

There is a Way of Eluding the Grim Destroyer.

Every Spring it is noticeable how many people are taken away that we have been accustomed to see in our daily life. Especially large is the mortality among weak and sieldy people. The reason for this is apparent. The body that is weakened by age or disease has much to content with during the Winter months. Insufficient exercise frequently has been allowed to become run down, and when Svring comes with this bright, sunshing days, older people will begin to realize that their thing is true of people who are naturally sickly and weak. This is the season of the year when even a strong person feels at his worst. That tired, restless feeling is experienced by too many. There need notbe asmany deaths this year as usually take place. A little care will ward of many Spring funerals. If one is weak or all take Dr. Greene's Nervura blood and nerve remedy. This great medicine has been in many cases, and will continue to be, the means by which the block ang gives rength and vitality to the nerves. It tones up and restores to a healthy condition all of the great life giving organs of the body. The Greene's Nervura blood and nerve remedy will enable those who take it to throw off little ills that prove dangerous wasted and weakened. The Greene's Nervura blood and nerve remedy will enable those who take it to throw off little ills that prove dangerous wasted and weakened. The one the following from the famous General Longstreet of 1217 New Hampshire Ave., Washington, D. C. He says: "It gives me great pleasure to add my testimony withmany others for D. Greene's Kemedy, which I have used with highly beneficial results, and I am able to recom-used it for catarrh and have derived help." Mr. Wellington Hynes, Elizabethtown, N. Y., writes: "It feel it my duty to tell how much good Dr. Greene's Nervura blood and nerve re-used it for catarrh and have derived help." Mr. Wellington Hynes, Elizabethtown, N. Y., writes: "It feel it my duty to tell how much good Dr. Greene's Nervura blood and nerve remedy and in less than three weaks I f

Rough and Oily Skin

PREVENTED BY

MILLIONS of Women Use CUTICURA SOAP, assisted by Cuticura Ointment, the great skin cure, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative antiseptic purposes which readily suggest themselves to women and mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest ing ingredients and the most refreshing of flower odors. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz. : TWENTY-FIVE CENTS, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

CAMERON COUNTY PRESS, THURSDAY, MARCH 28, 1901.

housekeeper'), whose duties will be mark generally.

'Women a century hence will all wear 'bloomers,' both literally and figuratively speaking; any woman tion transgressing by appearing in a long-tailed skirt will be condemned to act as public street scavenger for as long a period as the local council shall determine. Women will also wear a mustache, and the faces of men will gradually become smooth. Cooks will no longer be at a premium, as tiny tabloids of food will take the utes, a tabloid for each course, or, if
