Lynching may once have been a habit.

Well, everybody will now concede that Grover is the greatest ex-President in the country.

Why doesn't some real enterprising editor invite Boni to come over and edit his paper for a week. Boni might be glad of the money.

The Democrats are declaring how much they admire General Harrison. Times have changed since the old days of the so-called force bill.

Poor "antis". The Philippines are so quiet that they can't find anything to grumble over, and even Cuba seems about to accept the protection offered to her and be good.

Why not extend that "Cabinet on Wheels" idea by shipping Congress to the Philippines in a big steamer that will allow speechmaking to go on en route?

China has declined to yield Manchuria to Russia. Now we shall see whether Adamzad wants that country badly enough to fight for it.

Bryan will only bring himself into greater contempt than ever by such attacks as his latest on Mr. Cleveland. To offer an ex-President of the United States \$5 for an article may be funny in Nebraska but it is ridiculous elsewhere.

Milkmen in many parts of the country have taken a hint from the footpads, and have adopted rubber boots so as not to disturb their customers unnecessarily. They are also a protection from water.

It is reported that the President did not know that Representative Rodenburg had voted to starve out the civil service commission only a year ago, when he appointed him to a post on it. It is possible that the appointment may be revoked.

Secretary Root may go to Manila this summer in order to study the conditions there for himself. No written or verbal report can take place of personal investigation. It is to be hoped that the Secretary's plan will not be allowed to fall through.

The Philippine Information Society, and "anti" association, after careful investigation has admitted publicly that the war in the Philippines was started by the natives. Its members haven't apologized for past falsehoods on the subject, however.

Educational tests are things that two people can play at. How would the Democrats like it if the Republicans should adopt the Maryland qualification in New York, disfranchising about one-half of Tammany's foreign support in the greater city?

Great Britain's reasons for refusing to accept the Hay-Poncefore treaty as amended, strike us as being merely a variation of the old bargaining customs that won her the title of a nation of shopkeepers. She wants to know what we'll give to boot. Possibly, she will find out.

We have just received the sad news of the death of Calvin Barr, on Monday, at Medix Run, the eldest of the family of A. H. Barr, on Huston Hill. From what we can learn he had only been sick

since last Friday with appendicitis. Two doctors from DuBois and Dr. McGarrick, of Medix Run performed an operation and he never rallied and died before they had finished. He leaves a wife and five children, father, mother two sisters and one brother to mourn his untimely death. He was a man greatly beloved by everybody and especially his own folks.
