the richest and best wine to be had

The juice of the Portugal Port Wine grape grown in N. J. is thick and rich same as the juice of pears and other fruits grown here. From California pears you can squeeze water as from a sponge; so with all fruits grown in California; while those grown in New Jersey are solid in substance—less juice but thick and richer. The New Jersey apples, for instance, make a cider that was always popular the world over. If you vant a wine for sickness or for entertainments don't take cheap, watery wines but choose a first class old, full bodied, high grade wine from Speer's Passaic vine-yards. Sold by Druggists.
