Now comes a scientist with the declaration that the stomach is only a survival of man's herbivorous stage, not particularly necessary to the successful operations of one's internal economy, and a stomachless Chicago man is a living proof of the statement.

A committee of 14 British experts and scientists has reported, after 18 months of careful investigation, that there is no such thing as hereditary drunkenness, and that love of intoxicating liquors is in no case transmitted from parent to child.

In 20 years Andrew Carnegie's benefactions have reached a total of \$35,985,025. Since January 1 last his gifts foot up \$22,827,000, an average of \$195,000 a day.

The growth of the silk industry in this country during the last decade has been as remarkable as that of cotton and woolen manufactures.

The rector of St. George's, a fashionable church in Brooklyn, N. Y., has deemed it necessary to issue a circular in which he announces that in future "audible courtship" will not be permitted in his church while service is in progress.

It is related by a traveler who was in Peking last winter that during the exciting times there a wealthy American suggested to Gen. Chaffee that citizens of this country might as well get a share of the loot that was being seized.

Poor old Arabi Pasha, the leader of the Egyptian rebellion of 1882, has been pardoned by the khedive and will be permitted to return from exile.

It would seem as though the people of New Jersey ought to know about everything worth knowing concerning mosquitoes.

Among the presents received by Mrs. McKinley during her trip to the west were an exquisitely embroidered bedspread from the Chinese residents of Los Angeles; a profusion of flowers from the women of the southern cities visited; a crate of strawberries grown near Houston, Tex.; dates grown and cured in Arizona; rare flowers from the women employed in the mint at New Orleans and a loving cup and a basket of trout from the women of Decatur, Ala., presented through two of Mrs. McKinley's former schoolmates.

The movement to erect a monument at Washington to the heroes of the revolution has taken definite form, and Gen. Breckinridge, president of the Sons of the American Revolution, has named a committee to have charge of the matter.

CONGRESS SUSTAINED.

The Supreme Court Decides the Porto Rican Question in Accordance with the President's Views.

The supreme court has broken its long silence. Decisions have been handed down in a number of the cases involving the status of the insular possessions of the United States.

Five of the nine justices—Fuller, Harlan, Brewer and Peckham dissenting—are of the opinion that the Foraker act, or rather that part of it which levies customs duties, is constitutional.

This decision disposes of a good many ugly possibilities. It will not be necessary to admit duty-free the sugar and tobacco of Cuba if it should be annexed.

It is settled, furthermore, that the internal revenue duties levied on this continent will not have to be levied in Porto Rico and the Philippines, where conditions are so different from what they are here that their imposition would be inexpedient, not to say unjust.

Some of the cases decided by the court related to the collection of duties between the date of ratification of peace and that of the enactment of the Foraker law of last year.

This is a great legal victory for the president and his advisers. It is a defeat for the persons who have been making long arguments to prove that the ratification of the treaty of peace made Porto Rico and the Philippines a part of the United States.

From the monthly summary of commerce and finance which is issued by the bureau of statistics of the United States treasury department the interesting and important fact appears that in the current fiscal year this country leads all other nations in the matter of exports.

NOW WORLD LEADER.

America's Supremacy in Commerce and Finance an Assured Fact.

During the nine months ended on March 31 the average monthly exports amounted to \$124,497,853, while those of Great Britain, which are second in amount, were \$117,816,246.

During the nine months the total domestic exports of the United States were \$1,120,480,673, against a total of \$1,060,346,214, from the United Kingdom, showing a balance of about \$60,000,000 in favor of this country.

Upon such conditions as these is our prosperity based.—Albany Journal.

A FALSE PROPHECY'S END.

Political Dishonesty of Bryan Now No Longer a Matter of Doubt.

Col. Bryan seems to have finally abandoned his pet silver issue, for in a late interview he is reported as saying that "it matters not whether we have more silver than gold or more gold than silver, but we must have money enough to meet the demands of an unrestricted commerce."

Apparently he concedes that there is enough now. At any rate, at the close of 1900, including the money in the United States treasury, there was \$30,666 per capita, as against \$24.91 in 1890 and \$18.55 in 1873, when silver was at a premium in gold and the "crime of 1873" was committed.

There could be no fault found with even this late conversion of Mr. Bryan did it not prove two things. First, his political dishonesty in clamoring for the free silver plank in 1900, and second, his determination that there shall be no reconciliation of the wings of the democratic party, except on terms dictated by himself and involving his retention in office as party dictator.

When questioned regarding his recent gift to the universities of Scotland, he said: "Everything will be settled shortly in a way satisfactory to both sides. The high Scotch officials and myself are still having conferences to arrange matters."

At about 10 o'clock the official timers returned to shore, coming in on the tug Frank W., of the Great Lakes Towing Co., which had been used as the stake boat.

WILL NOT BACK DOWN.

Senator McLaurin Demonstrates His Views of National Progression.

United States Senator McLaurin, of South Carolina, does not flinch under fire. And few public men have been exposed to fiercer attacks than he has experienced since he announced his intention to forsake the Bryanized democracy of the south, with its intense Bourbonism, and come out for progress and modern methods.

Wednesday Senator McLaurin made the first formal presentation of his views on the national issues now occupying the attention of the people.

"I say that any man, on domestic problems, problems of internal concern, should, as far as possible, bow to the behests of his party. If he cannot agree with his party on questions of this kind he should, if possible, find a party with which he is in accord."

The senator by way of further explanation told how, rather than create trouble in democratic ranks, he had, though differing from them as to the wisdom of the course pursued, fallen in line and followed the lead of "Jones, Tillman, Pettigrew and company," but became tired of it, and finally forsook them.

Logically, therefore, he is for expansion, for protection, for subsidies to American ships and for anything that can advance the commerce and prosperity of the United States.

CARNEGIE IN LONDON.

He Predicts That the Continental Powers Will Combine to Smash up England.

London, June 5.—"Mark my words," said Mr. Andrew Carnegie last night to a representative of the Associated Press, "the time is coming when the continental powers will combine to smash up this little island of Great Britain. When that happens, she will have to turn to the United States for help."

"I feel certain it will not be refused. The United States will step in and say 'Don't.' They will act just as Great Britain did in the Spanish-American war. What she did then was great, and it is not half realized yet."

When Mr. Carnegie gave utterance to these sentences he was in the Langham hotel, London, where he had arrived from Scotland for the chamber of commerce gatherings. Until last night he had steadfastly refused to be interviewed.

"I know how deeply interested King Edward is in the United States. I have known this since the time, years ago, when I drove him on a locomotive in the United States, which, by the way, he did not forget when we met under different circumstances."

"Do you think," Mr. Carnegie was asked, "that British enterprise can be sufficiently stimulated to meet American competition?"

When questioned regarding his recent gift to the universities of Scotland, he said: "Everything will be settled shortly in a way satisfactory to both sides. The high Scotch officials and myself are still having conferences to arrange matters."

STEAMERS RACE.

The City of Erie Beats the Tashmoo by Forty-five Seconds.

Cleveland, June 5.—The racing steamers City of Erie, of the Cleveland & Buffalo Transit Co., and the Tashmoo, of the White Star Line, got away yesterday morning, the weather being clear and the lake calm.

At about 10 o'clock the official timers returned to shore, coming in on the tug Frank W., of the Great Lakes Towing Co., which had been used as the stake boat.

CHARGES SUSTAINED.

George D. Herron, Former Professor of Applied Christianity Forced Out of His Church.

Des Moines, Ia., June 5.—George D. Herron, former professor of applied Christianity in Iowa college, at Grinnell, is no longer a Congregationalist. He was tried by a council of ministers and elders of the church representing eight organizations, sitting at Grinnell yesterday, on the charge of "conduct unbecoming a Christian and a gentleman."

Washington, June 5.—The cabinet yesterday decided that existing conditions did not warrant the calling of an extra session of congress this summer.

London, June 5.—The reception tendered to-night by Mr. Choate to the delegates of the New York chamber of commerce drew a crowd of celebrities to Carlton house terrace.

Treatment By Specialists. In medical circles it is an acknowledged fact that development and progress in the profession have been so swift and far-reaching in recent years that it has been an utter impossibility for the regular practitioner, confined to treat practically all diseases, to keep pace with the rapid advance of knowledge and skill in the many special lines of this condition the specialist has arisen.
