The Job department of the Press is complete and affords facilities for doing the best class of work. PARTICULAR ATTENTION PAID TO LAW PHINTING.

No paper, will be Afraget. No paper will be discontinued until arrear-ages are paid, except at the option of the pub-lisher.

Papers sent out of the county must be paid

apon which he is wont to lean an elbow while speaking, Lord Salisbury once, at a meeting in his own home ing fire-screen, and finished eloqueat-

The tiniest village in the world is on Long Island. Far out where the sand- tipped end of the island reaches into the sound is this smallest hamlet. Fire Place is its name. Its popula-tion, according to the last census, is 10. Every man in the village holds an office. There are two dwellings.

It is, perhaps rather a curious thing that though the king of England is such an excellent judge of horse fiesh, it is years since he has driven him-self. Neither he nor the duke of Cornwall has ever shown any leaning toward this pursuit, and it is not likely that the king will be seen driving his own equipage about London. On the other hand, the queen is very fond of her ponies in the country and all her daughters drive.

The preliminary report of the census of Ireland, according to the London Mail, confirms the position that the depopulation of the island containues with little abatement. Since 1841, when the population was 8,196,-597, the population has fallen off 3,-740,051. Of this total there was 1,622,-319 lost before 1851 in the great famine. Since then the loss has been more regular, and in the last ten years it

The most costly state funeral which has ever taken place was, perhaps, that of Alexander the Great. A round million was spent in laying Alexander to his rest. The body was placed in a coffin of gold, filled with costly aromatics, and a diadem was placed on the head. The funeral car was embellished with ornaments of pure gold and its weight was so great that it took eighty-four mules more than a year to convey it from Babylon to

When the King of England goes nary train and take any vacant seat he can find. Instead of that he has his own business car, which has the right of way over almost any railroad n Europe. This car which is just be ng finished, has been under spasmode construction for over two pears. It is said to run very smoothly, and, as soon as the necessary trial trips have been held, it will be turned over

Roman, Sig. Marino Torlonia, re zently made a bet with his friend, Sig, Silvestrelli, that with his automobile he could beat the railway train in running from Rome to Civita Vecchia a distance of 42 miles. Sig. Silvestrelli took the train on whose prowess he counted, although it does not appear that the engineer was induced to put on any extra steam, and Sig. Torlonia started with his automobile. The latter won in what seems to have been almost a neck-and-neck finish.

According to the Japan Times a new island has been discovered in the pearing in the Nichi Nichi it appears that the island is situated at between Ul-long-do island, off Korea, and the Oki archipelago, off the coasts of the San-in-do, the distance from either side being thirty miles No maps ever published contain any reference to the island, which is reported to be about two miles in length and about the same in breadth.

Private railway cars have always been associated in the popular mind with great wealth, but a plan has been developed which makes it possible for even a vaudeville actor or business man in ordinary circumstances who wishes to enjoy the luxbuilt according to his own specifications. A car-refitting company in New York city buys old Pullman coaches tears the inside furnishings out, and refits them according to the wishes of its customers.

In the corridors at Windsor stands a little ebony pedestal, and on it a splendid casket of seventeenth cen-tury Italian work, with sides of engraved rock crystal. Within this gorgeous setting lies wide open, on a satin cushion, a little well-worn book. It is General Gordon's Bible, and is open at the gospel according to St. John. Below, a little plate bears an inscription recording the fact that the Bible was presented to Her Ma-jesty by the sister of General Gordon after his death.

### CAUSE TO BE PROUD.

Triumph of Republican Policies Justifies the Feeling That Prevails in the Party.

Very few people in this city, or, indeed, in the country, if called upon at the present time to note the important events of the past year, would recall the National Liberty congress held in this city in August, 1900, as a matter of any consequence. It is more probable that many intelligent men would find it necessary to stim-ulate their memories with some close thinking to recall the faintest recollection of such an event.

Viewed from to-day and the results, that incongruous assemblage called liberty congress appears one of the most ridiculous events of the campaign—the platform partly occupied by a limited number of respectables making speeches to two or three hunfew of whom could comprehend the utterances of the speakers. The solemn farce ended in an earnest appeal, adopted by local democratic henchmen, to rise above party and save the land and the islands of the sea from imperialism and McKinleyism. In view of the result, how absurd that liberty congress now appears. Even the excellent gentlemen who participated in it and hailed Aguinaldo the George Washington of the Philippines, would be obliged to the writers of history if they should pass over the liberty congress as an inconsequential affair. Their demand, like Mr. Bryan's, was that the president offer the Filipinos in arms independence on the same terms that it was promised by congress to Cuba. The republicans took the ground that the insurgents must recognize the thority of the United States and that local self-government should be extended to the Filipinos as soon as plurality of 871.513 the voters of the United States accepted the plan of the president in preference to that of Mr. Bryan. And now under the republican policy civilization is spreading in the Philippines and hundreds of school teachers have gone to the islands to earry on the work begun by the army and the Taft commission.

Again, five years ago this month, men by the hundreds were going about the country shricking 16 to 1. By thousands they labeled themselves with the inscription 16 to 1. On the street corners they threatened the safety of men who were so impolitic as to dissent from the unlimited coinas to dissent from the unlimited coinage of silver at the ratio of 16 to 1. Processions carried banners and transparencies marked 16 to 1. The test of democracy was noisy proclamation of 16 to 1. Four years ago Mr. Taggart was suspected of disbelief in the party shipholeth and to lief in the party shibboleth, and to placate that element was compelled to issue a letter declaring his undying devotion to 16 to 1. The republicans, because of a courageous majority, declared for the gold stand-urd. The fight was a fight to the death, but the good sense of the majority prevailed and the silver heresy was rejected. In Indiana there are not a hundred intelligent men in their orator in Indiana who has a reputation for ordinary intelligence who would not like to revise his wild ex-

pressions of devotion to 16 to 1. Attention is called to these recent political events to remind a great number of people that in every great erisis in the nation's affairs the re-publican party has fought on the right side and saved the people from disaster and the government from ruin. It seems necessary to do this because so many people forget, from time to time, and assail the party in seasons of security which have come, like the present prosperity, by the triumph of republican policies. It is the one party which can point with pride to its past.—Indianapolis Jour- Y. Commercial Advertiser.

# Want None of Bryan.

convention do invite Mr. Bryan to atsuch time as he may designate." The exception of about 18, are democrats, but the majority of them evidently are not enthusiastic over Mr. Bryan. Had the convention met at any time between the summer of 1896 and the fall of 1900 it is more than likely that Mr. Bryan would have been invited to address it, had he been in the state, although the Virginia democrats never took so kindly to him as the democrats of some other states. Mr. Bryan has had his day. Perhaps he is philosophical enough to accept the situation uncomplainingly. - Chicago Tribune

# Prospects of Porto Rico.

Porto Rico's treatment by the United States will make American sway in the Philippines popular, and will strengthen the annexation sentiment in Cuba. Within three or four years, it is safe to predict, Porto Rico will be given the full territorial sta-The island has already considerable home rule, but it will have more when it enters the list of territories. As a territory it will have made a big advance toward statetoward the Porto Ricans. The islanders are showing an appreciation of the good treatment given them by the United States, and are thus putting themselves in the way of further favors. Porto Rico has a ct. Louis Globe-Demohood. The American people feel well

## A BUGABOO EXPLODED.

The Party of the Contented Is Grow the Discontented.

In his Phi Beta Kappa address at Harvard recently Mr. Wayne Mac-Veagh gave us in substantially original form the prophecy of Aristotle, now over 2,000 years old, as to the danger to a republic which lurks in a death grapple between the haves and the have nots. Mr. MacVeagh did not trace it farther back than Macaulay, and he set Webster's version above Macaulay's as coming nearer to his

own ideas, citing it as follows: own ideas, citing it as follows:

"The freest government would not be long acceptable if the tendency of the laws was to create a rapid accumulation of property in few hands, and to render the great mass of the population dependent and penniless. . . . In the nature of things, those who have not property and see their neighbors possess much more than they think them to need cannot be favorable to laws made for the protection of property. When this class becomes numerous it grows clamprous. It looks upon property as its prey and plunder, and is naturally ready at all times for violence and revolution."

That differs only in phraseology rom Macaulay's famous passage from Macaulay's famous passage which he closed with the portentous sentence: "As for America, we appeal to the twentieth century." Well, the twentieth century is here, and the answer is squarely against Macaulay; yet, curiously enough, Mr. MacVeagh does not seem to realize this. He put into his address on "The Value of Ideals in American Politics" the same prophetic passage on this point that has appeared in every similar address for nearly or quite a hundred years. "Things are going on smoothly enough now, but beware of what may happen when times are less prosper-ous!" This is the invariable basis for making it. When that point in the address is reached Macaulay and Webster are certain to reappear with their echo of Aristotle, and we are sure to get a modern application of it from the orator. Mr. MacVeagh gave it to us as follows:

the orator. Mr. MacVeagh gave it to us as follows:

"Now, it is at least quite possible that in the not-distant future American politics may transform Mr. Webster's warning into history, for our electorate is already beginning to be divided, and must, in obedience to the law of social evolution, continue more and more to be divided, by that sharp cleavage which separates those who are discontented with their lot from those who are discontented with their lot. Under whatever disguises, called by whatever names, inheriting or selzing whatever partisan organizations, the alignment of the two great political divisions of American voters, who will sooner or later struggle against each other for the possession of the government, will inevitably be upon the basis I have named. The party of the contented will be ranged under one banner, and the party of the discontented will be ranged under the other, and that alignment will steadily develop increasing sharpness of division until the party of the discontented, being the majority, has obtained the control of the government, to which, under our system, they are entitled, and then they will be sure to remodel the present system for the distribution of wealth, unless we have previously done so, upon bases wiser and more equitable than those

umphantly from two "alignments," precisely that character? Bryan's andidacy of the "discontented" was the product of the hard times between 1893 and 1895. Those times produced exactly the conditions that Macaulay right mind who would wear a 16 to based his prediction upon, and they a badge. There is not a democratic came on the very threshold of the century to which he had appealed for his answer. Neithe Aristotle, nor Macaulay, nor Webster, nor Mac-Veagh could conceive of a more dangerous candidate or leader for the discontented than Bryan was. We had the "sharp cleavage which separates those who are contented with their lot from those who are discontented with their lot," and what was the result when the count was made? Why, Drs, that the contented outnumbered the discontented. This was the result in 1896, and it was also the result at the second cleavage in 1900. Does Mr. MacVeagh think that there would be It is any different result in 1904 if a third

# To Mr. McKinley's Credit

The refusal of President McKinley A few days ago a member of the to remove Pension Commissioner Evans, despite the tremendous prestroduced a resolution reading:
"Whereas, it is reported that Hon:
"Wisioner by the shyster pension at missioner by the shyster pension at William Jennings Bryan will shortly torneys—not the reputable men enmost creditable acts of the administend and address the convention at tration. A great deal of money has been spent by the attorneys in workconvention refused to consider the resolution. The members, with the gone so far as to declare that the national committee promised to have Evans removed, but that proves to be like so many of their rejected claims, a "fake." The soldiers never had a better friend in the pension office than is Commissioner Evans, himself a sollier, and all stories about his being in the slightest degree inimical to the true interests of the veterans are bosh. Commissioner Evans has proved bosh. Commissioner Evans has proved the right man in the right place, de-spite what certain "professional sol-diers" may say to the contrary.—Phil-adelphia Press.

In view of the statement of Chairman Jones, of the democratic national committee, that Bryan will not enominated by his own party in 1904. and that his pet issues of free coinage and "imperialism" will be laid on the shelf, it would not be surprising to see the Nebraskan at the head of a party of "reformers" three year. party of hence. If the democratic party organized, as has been suggested by Mr. Cleveland and other former leaders in the east, Mr. Bryan may be glad to affiliate himself

# AN AWFUL WRECK.

A Lake Shore Limited Runs Into

The Engineer and Mail Clerk Were Killed, and Several Other Per-sons Injured, Two Perbaps Fatatly - Terrible Scene.

Nottingham, O., July 10.—The Southwestern limited one of the fast-est trains on the Lake Shore & Michigan Southern road, crashed into several freight cars while it was mov-ing at the rate of 55 or 60 miles an hour, and was precipitated into a gully, about 100 feet below early Tuesday morning. Miraculously, only two persons were killed, although seven others were seriously injured, one or two perhaps fatally. The limited, or "the Cannon Ball," as it is called, eastbound, left Cleve-

land shortly after 2 o'clock, and had just past Dille street, one of the main thoroughfares of the village, main thoroughfares of the village, when a freight train—the Southwestern fast freight—passing in the opposite direction on the other track, broke in the middle, it is supposed. The freight was running at the rate of 15 miles an hour, and consisted of 50 cars. When it nearly the rear 50 cars. When it parted the rear section jumped the track and bounded at an angle right in front or the ed at an angle right in front of the fast-running limited with its precious load of humanity. The passenger engine in an instant was derailed and was shot down the steep embankment, carrying with it the coal tender, mail, baggage and buffet cars. One of the sleepers left the track, but became aetached and remained on the roadbed.

In the rear section of the freight train were 13 cars, and these were telescoped and thrown to either side, and rolled down into the ravine,

turning over and over as they went.
The killed: Frank L. Anderson, of
Buffalo, engineer of passenger train.
O. G. McCullen, of Cincinnati, mail clerk.

The injured: William J. Elliott, of Buffalo, fireman, fatally injured; Charles W. Gano, of Cleveland, extra charles W. Gano, of Cleveland, extra conductor on freight, seriously in-jured; A. Hertz, of Cleveland, conduc-tor on freight, seriously injured, but will recover; Andrew Haund and Harry Maltby, of Buffalo, badly in-jured; W. M. Baker, of Columbus, mail clerk, badly bruised; E. F. Loveless, of Cincinnati, mail clerk, slightly bruised.

None of the occupants of the passenger coaches were injured, al-though each was badly shaken up and very much terrified. Then it was that pandemonium reigned. Women shrieked, children cried and men ran hither and thither yelling at the top of their voices. All thought that they were going to certain death. The sudden lurch following the collision had awakened all the passenlision had awakened all the passengers. Those abourd the train came from all sections of the country, although not a few took the train at Cleveland, and many were en routs from the far west to the Pan-Amer-ican exposition at Buffalo.

Thirteen freight cars were almost reduced to kindling wood, and their contents, including several car loads of fish, were scattered everywhere.

of fish, were scattered everywhere.

The baggage car was almost demolished, its roof being the only part remaining intact. Most of the baggage was recovered, although not a little was lost. The mail in pouches was not mutilated, but that part of it which the clerks had been distribution was strong long to the control of uting was strewn broadcast. Gec W. Pepper, superintendent of mail service, and a postal clerk, rived shortly after and supervised the collection and disposal of the mails.

The crash made a loud report, and

awakened the citizens of Nottingham, who lent all possible aid to the in-

# Pierre Lorillard Dies.

New York, July 8.—Pierre Lorillard died at 2:10 o'clock yesterday after-noon. The death of Mr. Lorillard took place at the Fifth Avenue hotel, where he was taken from the Deutschland when that steamer arrived from Europe July 4. The members of the family present at the bedside when the end came were Mr. Lorillard's daughters, Mrs. T. Suffern Tailor and Mrs. Wm. Kent and their husbands and Pierre Lorillard, jr., and wife and also Pierre Lorillard

# Crops Drying Up.

Topeka, Kan., July 10.—The hot weather in Kansas continues with no immediate prospect of relief. Corn is fast shriveling up, the oats crop is worse than a failure and hay is scarcer than for years. In western Kansas the conditions are better than in the eastern part, this being directly opposite to the usual state of affairs. Some of the central Kansas farmers are shipping their stock to as to take advantage of the superior hay crop.

# A Remarkable Feat.

Victoria, B. C., July 10.—Officers and crew of the Norwegian tramp steamer Guernsey have performed a most remarkable feat of marine engineering. Losing their propeller and shaft in mid-occan, they shifted the cargo until the stern of the boat was tilted high in the air put in a new propeller and sha ...

# Charged With Stealing.

Kansas City, Mo., July 10 .- Alfred Thomas Gamage, 29 years old, for-mely a sergeant in the British army, stationed at Hamilton, Scotland, is under arrest here charged with steal-ing \$500 from the crown. Gamage, who had been known here as Sidrey Thomas ,of Hamilton, Lenarkshire Thomas of Hamilton, Lenarkshire, Scotland, was arrested at the instance of Frank Stanley Young, British vice consul at Kansas City, to whom he had voluntarily surrendered and confessed. Gamage said he had been disappointed in love, took the money and deserted in 1900.

Sirs: We fed our baby on modified cow's milk the first six months, but the milkman did not understand how to modify his cows properly, and in consequence the child lost flesh till he weighed but one pound.

pound.

I now procured some of your celebrated Infant's Food. This the baby managed to trade off to the dog for some dog biscuit, which he ate, and is now well and hearty. The dog died, but dogs are cheap.

We are grateful to you, indeed. You may use my name if you like, John Jones.—Detroit Journal.

# "MY HEAD WILL BURST!"

"This head will be the death of me and I don't care how soon. I

"This head will be the death of me and I don't care how soon. I don't want to try to drag through life with pain like this."

Are you going to give up now? Are you tired out with the effort to bear that awful pain? Are you despondent because your suffering makes you haggard and thin? Are lines coming into your face? Is your beauty going from you?

Think for one moment of the great multitude of women, suffering in just this way, who have been cured by Dr. Greene's Nervura blood and nerve remedy. There is absolute certainty of help in this grand medicine. Here is an instance.

Miss Agraes (Traham. 623 W. 28th. St. Nerv.

Miss Agnes Graham, 403 W. 28th St., New

"For years I endured the greatest agony with sick headaches, My head would throb so that every step I took was positive tor-ture. When I went home, after work, I felt as though I never complete there. I seemed to me that every step must be my last, the properties of the properties of the properties of the properties of the must scream. scream.

Nothing I took helped me. The headaches returned all the until despaired of ever getting over them. My back ached, and often I felt so tired and weak it seemed as though I could go to work. I was badly run down, and in a very nervous tree.

ince go to work. I was badly full down, and in a very nervous condition.

But I am thankful to say that these terrible headaches have left me, now that I have taken Dr. Greene's Nervura blood and nerve remedy. I cannot say too much for this great medicine and what I has done for me. I began to feel its good effects after the first dose. I felt brighter and more cheerful in every way.

"After the first bottle, my nervousness was gone, and I had but and attack the headache since taking Nervura. I have now taken for the trouble. For women suffering from woman's greatest enemy, headache, I cannot recommend this wonderful medicine too highly."

Headache powders have lost their effectiveness with you, haven't they? You are letting yourself be driven to narcotic drugs. You are letting your headaches wreck your life. Your doctor fails to help, and your

life. Your doctor fails to help, and your nerves are in an awful state.

Just one bottle of Dr. Greene's Nervura blood and nerve remedy will do you so much good that you won't feel like the same woman. Try it and see. If you have complications, get Dr. Greene's free advice by call or letter. His address is 35 W. 14th Street, New York City.
