"That flag at the foot of Broad street spoils the scenic effect of decorations, which are otherwise beautiful. The valley is too narrow to admit of being cut in two by a curtain. **"

Nye-Hamilton.

One of the prettiest weddings of the season took place at the Methodist Episcopal church, to-day (Wednesday) at high noon when the nuptials of Mr. Edward D. Nye of Lebanon, Pa., and Miss Nellie Blanch, daughter of Mr. and Mrs. J. R. Hamilton of this place, were celebrated.

Promptly at twelve the bridal party composed of Miss Nellie Lingle, Miss Lola Grace, of Rochester, N. Y., as bridesmaids, and Mr. Pearson Fry and Mr. John Heilman, acting as best man and groomsmen followed by the bride and groom, entered the church and to the delightful strains of Mendelssohn's wedding march, moved down the aisle to the front of the altar where they were met by Rev. O. S. Metzler who in his usual easy and graceful manner quickly executed the tie that binds.

After partaking of a daintily prepared repast at the home of the bride's parents, the happy young couple took the afternoon train for Atlantic City, Philadelphia and Washington, where they will spend their honeymoon.

The bride is one Emporium's most excellent young ladies, being a prominent factor in the social functions of our town and is held in the highest esteem by all fortunate enough to know her.

The groom, although but a resident of Emporium for a brief period has gained the eminence and respect and won a justly popular place in the estimation of our townspeople.

The hill people think the flag at the foot of Broad street is an abominable nuisance. **"

Be Careful.

At this time, when so many suspicious characters are in town, it would be a wise precaution on the part of our citizens not to leave their residences unless some one of the family remains on watch. A word to the wise.

Carrier Pigeon Alights at Coal Chutes.

Mr. Ed. Stewart of Cameron informs us that recently while at work at the chutes a large carrier pigeon apparently in an exhausted condition, was seen to alight on one of the buildings at the chutes. Upon calling to the pigeon it seemed very tame and flew down on the ground where it was taken by Mr. Stewart, who upon examining the bird found it carried a metal tag fastened about its leg bearing the inscription "No. 327."

The bird is a genuine carrier pigeon and has blue spotted wings and a welt across the upper part of its beak.

Mr. Stewart states that the pigeon was evidently thoroughly exhausted from a long trip. At present the pigeon is occupying a cage at Mr. Stewart's home.

Relic of 1862.

A few days ago Frank, the son of Ed. Stewart, while engaged in tearing down an old building at the Cameron coal chutes, found under the ground floor of the building a round brass coin about the size of a silver half dollar.

On the face side of this unique coin was the inscription "Against Rebellion 1861" with a single star on each side of the date 1861. In the center of this design was engraved a shield bearing upon its face thirteen stars and thirteen stripes. On the reverse side of the coin was stamped the following inscription "John B. Chestnut, Co. K. 149th, Pa. Vol. 1862."

A hole had been punched near the edge and a small link of a watch chain was fastened to the coin. It is estimated by those who found this remarkable souvenir of the Rebellion, that it has lain under the floor of the house for more than thirty years.

The 43rd, Regiment Band of Olean, N. Y., will be in Emporium on Thursday, accompanying the Kane fire department. This band is composed of eighteen pieces.

No danger of firemen and others going hungry in Emporium. The large number of eating booths erected will assist the hotels in feeding the thousands coming to town to-day.

The Hotel Connelly is crowded with guests every day. Mr. Butler is conducting the place upon strict business principles and with a careful adherence to the present license laws.—Port Allegany Press. Of course Joe will conduct a first-class house.

An exchange says: "It is said to keep in health a person should drink from two to four quarts of water each day. The system requires to be cleansed and its organs flooded with water. Besides its cleansing efficacy, water absorbs effete matter and carries it through the system." This does not mean Emporium water.

Messrs. Maxham and Moon of Port Allegany, Pa., have just completed their work in erecting a very handsome monument for our esteemed townsman, Charles H. Huntley in the Scio cemetery. Its shape is that of a double cube, and certainly a very fine piece of work, of which Mr. Huntley has reason to feel very proud, and the work is a drawing card for the firm, whom Mr. Huntley says are gentlemen in every respect, and a recommendation of this kind from Mr. Huntley has no small weight among those who know him.—Belmont Dispatch.

Harry English, who for the past several years has been an inmate of the poor house, general health is reported fairly good notwithstanding the fact that the lower half of his body is paralyzed. The nature of his disease is locomotor ataxia which is slowly but surely creeping over his body, and which will eventually cause his death. The last time the writer saw Harry, some five or six years ago, he was lying in bed, and at that time it did not seem possible that he could survive a month, but now he is able to sit up in a chair, and is in many ways much better than he was half a dozen years ago.—McKean Democrat.

The following from the Philadelphia Times of recent date, gives additional evidence of the hardihood so frequently shown by reckless boys. It says: Expecting every minute to see him slip and fall to his death, a large crowd watched a small boy walking along the top of the pointed roof of the Masonic temple yesterday morning. It was evident from the actions of the boy that there was hardly space for him to walk. He balanced himself with outstretched arms as he picked his way step by step. A slip meant certain death, but he succeeded in going the length of the roof without falling. It was thought at first that the boy was trying to enter the temple, but after reaching one end of the roof he climbed down to the ledge and robbed several nests of pigeons which roost under the edge of the roof.

ASTOUNDED THE EDITOR.

Editor S. A. Brown, of Benningtsville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and, after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles, it's a positive, guaranteed cure. Only 50c at L. Taggart's.
