# CAMERON COUNTY PRESS.

H. H. MULLIN, Editor.

Published Every Thursday. TERMS OF SUBSCRIPTION.

ADVERTISING RATES: Advertisements are published at the rate of me dollar per square for one insertion and fifty sents per square for each subsequent insertion Rates by the year, or for six or three months, ire low and uniform, and will be furnished on ipplication.

Rates by the year, or no save are low and uniform, and will be furnished on application.

Legal and Official Advertising per square, three times or less, \$2\$; each subsequent insertion 50 cents per square.

Local notices 10 cents per line for one insertertion; 5 cents per line for each subsequent sonsecutive insertion.

Obituary notices over five lines, 10 cents per line. Simple announcements of births, marriages and deaths will be inserted free.

Business cards, five lines or less, \$5 per year; ever five lines, at the regular rates of advertising.

no local inserted for less than 75 cents per

JOB PRINTING.

The Job department of the Press is complete and affords facilities for doing the best class of Work. PARTICULAR ATTENTION PAID TO LAW PRINTING. No paper will be discontinued until arrear-ages are paid, except at the option of the pub-lisher.

Papers sent out of the county must be paid for in advance. Commenting on the amount of expenditure of trolley system in large cities the United States Investor points out that in Brooklyn the largest sum was paid during the fiscal year of the Brooklyn Rapid Transit

Co. of all the large cities of the United States. It was \$1,143,962. New York followed with \$700,000. The north has had 16 presidents and the south nine. No president has ever been elected from the territory west of the Mississippi river. Only two of the southern states, Virginia and Tennessee, have ever furnished presidents. Northern men have occupied the exe-cutive office about 63 years, southern

men about 53 years, taking it for granted that President Roosevelt will serve out his term. In London they have a street lamp which provides a stream of boiling water and dispenses tea, coffee and cocoa. The heat of the lamp warms the water and by dropping a cent in the slot a gallon of boiling water may be had. Two cents brings you will sugar, tea, coffee, etc. The light and heat are provided by the city, which to-operates with a private corpora-

tion that furnishes the rest.

A member of congress has signified his intention of offering a bill in congress to have the name of the Philippine Islands changed to McKinley Islands, and to have the stamps sur-charged McKinley. This would not change the individual names of islands, such as Luzon, Samar, Panav. etc. It is said that there will be no effective opposition, and that the bill is quite certain to become a law.

Statistics published in Berlin regarding the results of open-air treat-ment of tuberculosis show that the utmost success has attended the new method. In Hanover out of 142 cases 121 have been declared cured. In Sax ony, a country in which consumption is very prevalent, out of 98 patients over 60 have been cured. In Baden the open-air treatment in the pine woods has resulted in 205 cures out of 240 cases.

The possibilities of the wireless telegraph mechanism as a means of com-munication on the ocean are constantly being revealed and new achievements recorded. The steamer Campania, which arrived in New York from Liverpool and Queenstown the other day, after a rough voyage, re-ported that she was in communication with the unseen Lucania, her sister ship, for five hours on the night of Tuesday, October 22.

If Dr. Schulz, health commissioner of Milwaukee, can carry out his ideas, kissing in that city will undergo a marked decrease. The commissioner has become an ardent advocate to the germ theory, and fears that too much kissing will contribute to the propa-gation of disease. For the present Dr. Schulz confines himself to consumptive or those suspected of having that disease. Such persons are asked not to indulge in osculation. Such persons are

The czar has just sanctioned a remarkable engineering project-the raising of the surface of the water of the Sea of Azof 14 feet 9 inches, by building a dam near Kertch, 9 miles long. In the wall immense sea gates are to be made for the passage of ships. There will also be outlets for the superflous water. The cost will be about \$25,000,000, the interest or which will be paid by the ships trading to the Azof.

The tallest chimney in America was completed but a short time ago at Constable Hook, N. J., and in it is found a safe solution of the smoke nuisance with which every city has to cope. This great smokestack is 365 feet high. Beneath the ground the foundation is 15 feet deep and 45 feet Beneath the foundation several hundred piles were driven. The total cost of material and construction was \$50,000. The diameter at the bottom is 30 feet, at the top 18

Maj. Lee Richardson, a prominent Delta planter, has launched a unique movement to revolutionize the ton picking industry. Finding it impossible to harvest the season's crop on account of the great scarcity of Negro labor, he made arrangements with an old Choctaw Indian chief in one of the interior counties to import a large number of Indian braves to the Delta, and the experiment has proved such a success that the old chief has been sent back to bring an been living together for some time.

# ARMY SUBSISTENCE

Report of the Commissary General.

IT COST MILLIONS.

Expenditures for Year Were \$15,622,228.

TROOPS WELL SUPPLIED.

Nearly 100,000 Persons, Civilians, Soldiers and Prisoners, Were Cared for in the Phillippines Division from a Base 7,000 Miles Distant.

Washington, Nov. 2.—The report of Gen. John F. Weston, commissary general of subsistence, shows that the total expenditures for the subsistence of the army during the fiscal year were \$15,622,228. The re-ceipts for the sales of subsistence stores during the same period were \$3,290,234. An interesting feature of the report is a statement from Col. Woodruff, chief commissary of the army in the Philippines, in which he

During the first three months of the period covered by this report stores here had, from various causes, become greatly reduced, but owing to the grand response made by the commissary general to every call from this office and the energetic action of the purchasing commissaries in San Francisco and New York, this was speedily corrected, and this division was soon supplied as no other army of its size has ever been supplied in the world's history.

During the period covered by this report the command to be supplied extended from the great wall of China on the north to the island of Borneo on the south and the island of Guam on the east. There were 480 stations in this archipelago, besides ers in Guam.

In addition to the 68,000 troops and 3,000 officers in this division, the sub-sistence department supplied the deli-cacies for the sick, rations for 4,000 risoners of war, 1,800 marines, many of the stores for the navy, rationa for 1,000 civilian employes and sales for 1,000 civilan employes and sales stores for the army, navy and marine officers. Philippine commission and attaches, and Americans employed by the army and by the government in its treasury, post office, interior and educational departments, metropolitan police, native police and scouts, transports, etc. In other words, reachly 100 000 presents occupying. ransports, etc. In other words, nearly 100,000 persons, occupying a country almost destitute of meat and vegetables, or rather food supplies suitable for Americans, were supplied largely from a single base, 7,000 wiles dietart. miles distant.

He denies any illegal purchases of champagne, and says that the purchases that were made were necessary for sick and debilitated troops who purchased it at 82 cents a pint. Gen. Weston's report deals quite extensively with the Chinese campaign, and quotes from officers who were in that expedition to show that the troops were well supplied.

## Injured in a Wreck.

Little Rock, Ark., Nov. 2.—The westbound passenger train on the Little Rock & Fort Smith railroad, which left Little Rock for Fort Smith at 8:45 o'clock Friday morning, was telescoped at Mayflower by a west-bound freight train. The rear coach of the passenger train was demolished only six passengers were inished and six passengers were injured. A. T. Osborn, of Hot Springs, Ark., received scrious injuries. B. K. Pugh, New York; C. A. Ault, Little Rock; C. J. Tumptin, Peaksville, Mo.; Miss Nellie Randell, Conway, Ark., and Rev. J. H. Smith, colored, of Waco, Tex., were slightly hurt.

### Convicted of Murder.

Toronto, Ont., Nov. 2.—Fred Rice was convicted here Friday the charge of murdering William Boyd. Rice is the only survivor of the notorious trio of Aurora bank burglars. The murder occurred on June 4 last. Boyd and another constable were escorting the three prisoners to the jail when some one threw two loaded revolvers into their carriage. In the desperate fight for liberty which followed Constable Boyd was shot through the head. The other two robbers are dead. Jones was killed in the fight in which Office Boyd was killed and Rutledge committed suicide.

### Preparing for War.

Paris, Nov. 2.—"The sultan has ordered the completion with all speed of the defences at Salonika, Smyrna and the entrance to the Dardanelles," and the entrance to the Dardanelles," says the Constantinople correspondent of the Echo De Paris. "Submarine mines will be placed and troops mobilized at points where disembarkations are likely. A violent anti-French feeling prevails and fears are felt for the safety of the French are felt for the safety of the French residents in Turkish cities, Con-stantinople excepted."

### Law is Unconstitutional.

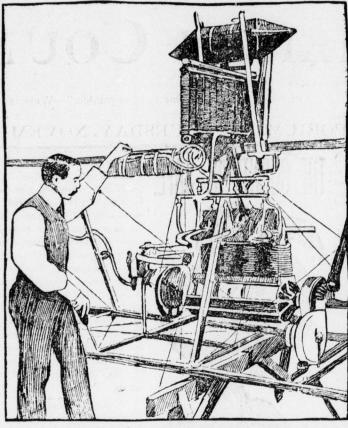

Law is Unconstitutional.

Columbus, O., Nov. 2.—The supreme court Friday declared unconstitutional the teachers' pension law under which public school teachers in the city of Toledo are assessed 1 per cent. of the annual salaries for the purpose of maintaining a fund for the assistance of retired instructors. The law was held to be special legislation. The decision applies to similar laws in Cleveland, Cincinnatian delsewhere. and elsewhere.

# Cut His Throat.

Milwaukee, Nov. 2.—William Raash stabbed his wife twice with a pen knife Friday and then cut his own Raash will die. The two had not

SANTOS-DUMONT'S AIR SHIP MOTOR.

This, is the motor in the airship with which the plucky inventor, M. Santos-Dumont, has been striving for the Deutsch prize at Paris for a dirigible balloon.

### FORTY VESSELS.

The Navy Department Will Ask Congress to Provide for Their Construction,

Washington, Nov. 2 .- Over above the four warships for which congress directed him last session to prepare plans as a basis for appro-priation at the next session. Secre-tary Long has before him the recom-mendations of the board of naval con-struction, looking to authorization by struction, looking to authorization by congress of the building of 40 more naval vessels of all classes, from battleships down to tug boats. The plans for the two armored cruisers and two battleships, projected by congress last session, already have been prepared and look to the construction of about 16,000 ton battleships and 14,000 ton cruisers. The battleships and cruisers additional to these which the construction board proposes probably will be of about the same size and general type. The the same size and general type. The

board's complete plan is:

Three seagoing battleships of about 16,000 tons displacement. Two armored cruisers of about 14,500 tons displacement. Six gunboats of about 200 tons. Two colliers of about 7,500 tons. One repair ship of about 7,500 tons. Six training ships of about 2,000 tons. Four picket boats of about 650 tons. Four tugboats. While the above appears to be a startling amount of naval construction to recommend to congress, it is stated recommend to congress, it is stated that it is after all nearly a repetition of the program submitted to that body through Secretary Long by the construction board last year, and is even smaller than the aggregate ton-age proposed to be authorized by the general or Dewey board.

### ELEVEN DEAD.

a Result of the Administration of Diphtheria Anti-toxin Eleven Chil-dren Die of Lockjaw.

St. Louis, Nov. 2.—The list of deaths attributed to lockjaw as a result of the administration of diphtheria anti-toxin manufactured by the city chemist, now numbers eleven, two more deaths being reported Friday. Flower of the property of the city chemists and the control of t day. Eleven other children are reported to the health department as suffering from lockjaw, with slight chances for recovery. The cause of lockjaw in each case is said to be poisoning from the city's diphtheria anti-toyin. anti-toxin.

health department has now begun the free distribution of teta-nus anti-toxin for injection into the blood of diphtheria patients who have been inoculated with the infected serum and thus exposed to lockjaw. The investigation ordered by the

city coroners to determine positively the cause of the deaths of the eight children who are alleged to have died of lockjaw following the administra-tion of the city anti-toxin is being pushed and it is expected it will be ompleted in a few days. the most experienced bacteriologists in St. Louis are making tests with the anti-toxin and the serum taken from e spinal columns of the dead chil-

### A Race for Life.

Chicago, Nov. 2.—Eight children, accompanied by their parents, ended a 1,500 mile race for life last evening at the Chicago Pasteur institute. Another child will arrive to-day. The other child will arrive to-day. The youngsters, ranging in age from 4 to 9 years, came from Colorado Springs, Col., where they were bitten last Sunday by a dog affected with the rabbies. Fearing hydrophobia their parents began the long journey to have their children treated. The victims were met at the institute by Dr. A. Logorio, who administered the Dr. A. Logorio, who administered the first injection of serum.

## Flooded by a Cloudburst.

# Heir to a Fortune.

Middletown, N. Y., Nov. 2.—Miss Sadie Winslow, daughter of a poor farmer at Sackett's Lake, has fallen heir to a fortune of \$125,000 through the death of her uncle, John Winslow, of Los Angeles, Cal.

Local Freight and Work Train Collide.

TWO MEN WERE KILLED

Two Fatally Injured and Eleven Others Hurt.

RUNNING AT HIGH SPEED,

Train at Plymouth, Ind.—Not One of the Crew Escaped Injury—Bad Wreck on Pennsylvania Road.

Valparaiso, Ind., Nov. 2.—Two men ere instantly killed and a dozen were instantly killed and a dozen others injured in a collision at Plymouth, Friday evening between a local freight on the Pennsylvania road and a work train of the Clifford Construction Co., of this city. The dead: Joseph Clifford, of the Clifford Con-struction Co., Valpariso. Conductor Tompkins, of the work

train.

Fatally injured: Charles Coyer, of the Clifford company; Brakeman Johnson.

Johnson.

The accident occurred at the bottom of a steep hill. The local freight, running at high speed, crashed into the work train, which consisted only of a locomotive and caboose, in which were the crew of 15 men. The cars and locomotives were smalled into a local properties. were the crew of 15 men. The cars and locomotives were smashed into bits and the dead and mangled under the wreckage. Wrecking trains from Plymouth, Chicago and Fort Wayne started immediately for the scene. Trains on the Pennsylvania railroad were delayed for several hours. Not a man of the work train crew escaped uninjured, and it is feared several of them are fatally hurt.

### Boiler Blew Up.

Pittsburg, Nov. 2.—A Lake Shore & Michigan Southern locomotive, leased by the Pittsburg & Lake Erie road, blew up Friday night near Shanopin station, killing Harry Walters, of Sheraden, Pa., and severely injuring F. Sullivan, of Cleveland; W. H. Porter, of Ashtabula, and B. S. Joy, of Youngstown. Walters was a Pittsburg & Lake Erie engineer, who was piloting the Lake Shore & Michigan Southern crew. Of the injured Sul-livan, who is badly scalded and suffering from shock, may die.

### \$142,161,200 for Pensions,

Washington, Nov. 2.—The estimate for the expenditures of the interior department during the fiscal year beginning nextJuly will aggregate \$170,-000,000, of which \$142,161,200 is asked for pensions and the administrative work of the pension bureau, \$1,964,-720 being for salaries of the bureau personnel and \$350,000 for the investigations by special examiners of pen-

### Killed the Marshal.

Prescott, Ark., Nov. 2.—H. C. Cox, eity marshal of Prescott,was shot and killed by Charles Levy, colored, Friday afternoon. Cox attempted to arrest Levy on a trivial charge. Levy escaped. Citizens generally closed their stores and officers arming themselves, started in pursuit of the selves, started in pursuit of the

### Dying from Smallpox.

Sioux City, Ia., Nov. 2.—Late reports from the Winnebago Indian reservation in Nebraska are that 53 Rosswell, N. M., Nov. 2.—The town reservation in Nebraska are that 5 of Rosswell was flooded Friday by a of the 1,000 Indians on the agency cloudburst. The water on Main have died of small pox, which is epicloudburst. cloudburst. The water on Main have died of small pox, which is epi-street was three feet deep. No loss demic there, and as the medical force of life has been reported so far but of the reservation is limited the several buildings have been washed disease threatens the destruction of

### No New Cases.

Glasgow, Nov. 2.—No additional cases of the plague had been officially reported up to a late hour Friday night. Two hundred employes of the Central Station hotel are confined to the hotel for observation.

ADULTERATION A SCIENCE.

Detective Work of the English Gov-ernment Laboratory During the Past

The principal chemist of the government laboratory has presented his report on the work of that department for the past year. Of the samples of tea submitted 252, representing 2,662 packages, were refused admission for home consumption on the ground that they contained exhausted leaves, were unsound or were mixed with sand or other substances within the meaning of the act, says the Leeds Mercury.

The 3,828 samples of finished beer taken from 1,586 publicans were ana-

taken from 1,586 publicans were analyzed, and 598 or 15.6 per cent. of the samples were found to have been tampered with, either by having been diluted or by the illegal addition of sugar. The present year shows an increase of 1,442 samples, but the result of the analyses, generally, affords no evidence of any falling off in the practice of diluting beer.

The country of these coleared for

The quantity of tobacco cleared for home consumption and the average amount consumed per head were 81,amount consumed per head were 81,-116,999 pounds and 2 pounds in 1899; 80,955,037 pounds and 1 pound 15¾ ounces in 1900, and 83,561,083 pounds and 2 pounds ¼ ounce in 1901. Figures of exported eigars and eigarettes are remarkable as showing how increasingly popular is the practice of smoking eigarettes, and they also show that the consumption of British made eigars is increasing abroad. Eleven adulterated samples of to-Eleven adulterated samples of tobacco were found to contain licorice

or glycerine.

Legal respections were taken in 35 cases in respect of samples analyzed for the protection of the revenue. The penalties imposed amounted to £3,766, in addition to which tobacco to the value of £277 was forfeited as containing an illegal ingredient or an excessive percentage. ingredient or an excessive percentage of oil or water; 142 of the cases were disposed of in court, and in 139 resulting in penalties amounting to give evidence. The other cases were settled by the board of inland revenue for compromise fines amount. er compromise fines amount-£2,077, the defendants in 15 enue for cases preferring to pay the full pen-

alty.

For diluting or adulterating beer parallels amounting 130 persons paid penalties amounting to £2,574.

to £2,574.

The considerable increase in the number of samples examined for the home office was largely due to the work in progress in connection with the use of lead compounds in the manufacture of pottery. The total samples examined under this head numbered 195, of which 91 samples were fruits submitted by various were fruits submitted by various firms under home office regulations for the determination of the proportion of readily soluble lead.

### A Little Knowledge, Etc.

The possession of a little legal law is like the possession of a revolver; its timely use may be a great protection to a man, while its abuse, on the other hand, may get him into the most serious kind of trouble. But if he applies discreetly, and carefully, his knowledge of the law, he will not only be relieved of the necessity of employing a lawyer, in many in stances where one would otherwise be needed, but he will be able to greatly facilitate the work of the lawyer when he is called in.—Gen. B.

### Plenty of Chance for Her.

He had been reading about the woman who kept house on \$2.70 a week and still had so much trouble with her husband that she was about to apply for a divorce.

"Do you believe it?" he asked.

"Why not?" inquired his companion.

ion.

"Oh, it looks to me a good deal like a matrimonial advertisement. A young woman—and she is young—who can keep house on \$2.70 a week certainly won't have to be without a husband long."—Chicago Post.

Paradise for Sportsmen.

To him who knows not where to go, there can be no better place suggested than the Pocono mountains, lying in the northeastern part of Pennsylvania, along the beautiful Delaware river. Whether you go for health, or sport, you can hardly experience the latter without acquiring the former. The elevation of the mountains varies from 1,600 to 2,000 feet, and are one dense growth of pine and fir trees. Deer, bear and other large game are plentiful, and though the region is visited by thousands of sportsmen every year, there seems to be no n ticeable decrease in the attractions offered. The Pocono mountain hotels, camps and game preserves are readily accessible by the Lackawanna Railroad, the great trunk line between New York and the Great Lakes.

Truth in Advertising.

Truth in Advertising.

Mr. Gettit-Well, that place where we boarded this summer advertised the truth,

Mr. Hazzit—Indeed? That was a novelty.

"Yes, sir; it advertised: "Summer boarders taken in."—Detroit Free Press.

### An Incomplete House,

We run wild over the furnishings of a house; its furniture, carpets, hangings, pictures and music, and always forget or neglect the most important requisite. Something there should be always on the shelf to provide against sudden casualties or attacks of pain. Such come like a thief in the night; a sprain, strain, sudden backache, toothache or neuralgic attack. There is nothing easier to get than a bottle of St. Jacobs oil, and nothing surer to cure quickly any form of pain. The house is incomplete without it. Complete it with a good supply.

Knowledge and Speech.

"One great trouble," said Uncle Eben, "is dat when a man is smaht enough to say anyfing wuf hearin he is also smaht enough not talk much."—Washington Post. Care of the Complexion

Many persons with delicate skin suffer greatly in winter from chapping. Frequently the trouble arises from the use of impure soap and cheap salves. The face and hands should be washed only in clear, hot water with Ivory soap. A little mutton tallow or almond oil may be used after the bath to soften the skin. ELIZA R. PARKER.

A Smart Dog.

A gentleman advertising for a lost dog-says the animal answers to the name of Nancy, living or dead. That's a smart dog. —Tacoma Ledger.

### Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just locents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. Castamped on it. Beware of imitations.

It Seemed So.
