The Children's Friend.

You'll have a cold this winter. Maybe you have one now. Your children will suffer too. For coughs, croup, bronchitis, grip and other winter complaints One Minute Cough Cure never fails. Acts promptly. It is very pleasant to the taste and perfectly harmless. C. B. George, Winchester, Ky., writes "Our little girl was attacked with croup late one night and was so hoarse she could hardly speak. We gave her a few doses of One Minute Cough Cure. It relieved her immediately and she went to sleep. When she awoke next morning she had no signs of hoarseness or croup." R. C. Dodson.

A Physician Testifies.

"I have taken Kodol Dyspepsia Cure and have never used anything in my life that did me the good that did," says County Physician Geo. W. Scroggs of Hall County, Ga. "Being a physician I have prescribed it and found it to give the best results." If the food you eat remains undigested in your stomach it decays there and poisons the system. You can prevent this by dieting but that means starvation. Kodol Dyspepsia Cure digests what you eat. You need suffer from neither dyspepsia nor starvation. The worst cases quickly cured. Never fails. R. C. Dodson.

Waste of Postage.

The lawyers were discussing the merits and demerits of a well known member of the New Orleans bar who had been gathered to his fathers, and one of the party, says the New Orleans Times-Democrat, recalled the time when he studied in the old man's office.

We had a copying clerk whose inefficiency continually worked the judge up to the point of explosion. One day a wire basket fell off the top of his desk and scratched his cheek. Not having any courtplaster, he slapped on three postage stamps and went on with his work.

A little later he had some papers to take to the United States court, and, forgetting all about the stamps, he put on his hat and went out.

As he entered the office the judge raised his head and fixed him with an astonished stare. The clerk stopped and looked frightened and finally asked:

"Anything—er—wrong, sir?"

"Yes, sir," thundered the old gentleman. "You are carrying too much postage for second class matter."

Dangers of the Apothecary.

The distilled essential oil of almonds, which when diluted supplies the popular flavoring for sweets and confectionery known as "ratalia," contains in its strongest form a sufficient percentage of hydrocyanic acid to make it highly dangerous. A young man who was executing an order by pouring it from a large bottle to a smaller one noticed that he had not put the label quite straight on the smaller bottle and took it off again. Before replacing the label he licked it to make sure of its sticking properly. But while pouring he had inadvertently let a drop or two trickle on the outside of the bottle where he had affixed the label. Then when he touched the label with his tongue he felt as if something shot along that member and also a jump of his heart. So he rushed to a tap, which was fortunately close at hand, and put his tongue under the running water. Never as long as he lived, he said, would he forget that poisoning sensation.—Chambers' Journal.

The Cat and the Tail.

Once upon a time a cat who prided herself on her wit and wisdom was prowling about the barn in search of food and saw a tail protruding from a hole.

"There is the conclusion of a rat," she said.

Then she crept stealthily toward it until within striking distance, when she made a jump and reached it with her claws. Alas, it was not the appendage of a rat, but the tail of a snake, who immediately turned and gave her a mortal bite.

Moral.—It is dangerous to jump at conclusions.
