"For Ways That Are Dark," Etc.

"Some years ago," says the advertising agent of a tobacco firm quoted by the Philadelphia Record, "I wished to introduce among the Chinese a two for five cigar that my people were heavily interested in, and I decided to draw up a little card extolling this cigar in Chinese characters.

"I sought out Lo Hen Wong in San Francisco, a very intelligent fellow, and got him to write me a few sentences in praise of my article. I had what he wrote lithographed and distributed the cards by thousands in all the Chinatowns of the United States. They were inscribed with a picture of the cigar, and below were the words: 'Smoke this cigar. It is the best on the market, and two for five is its price.'

"That, at least, is what I thought was the meaning of the Chinese characters. I found out, some six months later, my mistake. The words Lo Hen Wong had written and which I had had lithographed were: 'Don't smoke this cigar. It is not good. But the Gong company's cigarettes, for sale in every Chinatown at 3 cents a package, are excellent.'

"Lo Hen Wong had got \$10 from me for his work, and I don't know how much he got from the Gong company. We distributed many thousands of the cards before we got on to the trick that had been played on us."

Old Names in London.

If London street names are not always what they seem, the names of the great parishes usually are. Take Lambeth, for instance. That vast district has retained its name practically unaltered since the days of Edward the Confessor, who granted a charter in which it is styled Lambeth.

Some illiterate scribe, who helped in the making of "Domesday," did, indeed, make an effort to obliterate its real name by calling it Lanchel, but his efforts were, fortunately, in vain. William Rufus in another charter named it Lambeth, since when it has kept its title unaltered.

In the old days Lambeth (from hith, a haven) was the great river port whence agricultural produce was ferried across the Thames to the more populous country opposite. There are still many "hithes" left us, such as Queenhithe and Rotherhithe, and, although their original functions have gone, there still remains a shadow to remind us of their departed glory.—London Chronicle.

How to Make Chop Suey.

For those who like or who think they would like the famous Chinese dish, chop suey, the following recipe, which any intelligent housewife can follow, was given by W. E. S. Fales, for several years vice consul at Amoy:

"For four persons two chickens' livers, two chickens' gizzards, one pound young, clean pork cut into small pieces, half an ounce of green root ginger and two stalks of celery. Sauté this in a frying pan over a hot fire, adding four tablespoonfuls of olive oil, one tablespoonful of vinegar, half a cupful of boiling water, one teaspoonful of Worcestershire sauce, half a teaspoonful of salt, black and red pepper to taste and a dash of cloves and cinnamon. When nearly done, add a small can of mushrooms, half a cupful of either bean sprouts or French green peas or string beans chopped fine or asparagus tips. The soy-sauce which is eaten with this delectable dish can be procured at any Chinese grocery."

Be Prepared.

Daniel Webster once told a friend that his great speech in reply to Hayne, which is the high water mark of modern eloquence, but which at the time was supposed to have been delivered without preparation, had been substantially prepared long before.

When called upon suddenly to reply to the fiery Carolinian's attacks, which so alarmed the New Englanders at the capital, he was entirely at ease and ready for the fray, for, as he said, he had "only to turn to his notes tucked away in a pigeonhole," and refresh his recollection. "If Hayne," he said, "had tried to make a speech to fit my notes, he could not have hit them better. No man is inspired by the occasion. I never was."

Left and Right Limbs.

Physiologists and scientists in general have been making some curious experiments with a view to determine the relative length and strength of "right and left limbs." Fifty and nine-tenths per cent of the men examined had the right arm stronger than the left, 16.4 per cent had the two arms of equal length and strength, and 32.7 per cent had the left arm stronger than the right. Of women, 46.9 per cent had the right arm stronger than the left, and 24.5 per cent had the left stronger than the right.—London Family Doctor.

Where Smoking Is a Crime.

There is one country in the world where it is considered a crime to smoke. Abyssinia is the region, and the law forbidding tobacco dates from the year 1642. It was at first merely intended to prevent priests from smoking in the churches, but it was taken too literally, and nowadays even foreigners have to be careful not to be seen smoking.

An Unusual Race.

An unusual race was advertised to be run at Ripon, in Yorkshire, in 1725: "The Lad's Plate, of £15 value, by any horse that was no more than five years old the last grass. Women to be the riders. Each to pay a guinea entrance. Three heats and twice round the common for a heat."

Ireland has 408 albedod persons to 1,000 inhabitants, Scotland 424 and England 432.

The hardest thing to find is an honest partner for a swindle.

STORIES OF SINGERS

TIMES WHEN THEIR VOICES WERE OF MORE WORTH THAN MONEY.

Santley's Adventure With a Band of Mexican Bandits—Some Experiences of the Tenor Mario—How Lablache Put a Bear to Flight.

Many years since, when travelling with some friends in Mexico, Charles Santley was captured by halfbreed bandits and, being unable to pay the large ransom demanded, carried off to the mountains. Over supper the singer, by no means weighed down by his mishap, chanced to break into song, which so delighted the brigand chief that he demanded an encore.

Santley saw his chance and expressed his willingness to comply on condition that he and his companions were granted their release. The suggestion was accepted, and for over two hours was the singer's voice raised in such exquisite melody that the bandits, true to their word, allowed him and those with him to depart.

The late Joseph Maas had a somewhat similar experience. Years back, when with a companion buffalo hunting on the American prairies, he was captured by Indians and carried to their camp. When at his wits' end how to extricate himself from the dilemma, his friend suggested the power of song. Forthwith he commenced an operatic selection that so delighted his captors that they loosened his bonds and urged him, at the point of their spears, to continue.

Luckily his voice had a soporific effect upon the Indians, who one by one dropped asleep until, just as he was on the point of stopping from exhaustion, the last passed into the realms of dreams. Then he and his companion quietly stole away.

His wonderful voice on one occasion placed the great tenor Mario in a somewhat invidious position. When travelling with some companions in Spain, he fell into the hands of a party of marauding gypsies, who demanded the customary ransom. Mario, tickled at the situation, answered their request in impromptu song, which he delivered with such exquisite mock dignity that his captors with unanimous acclamation elected him captain of their band. The singer diplomatically acquiesced in their decision, but in the course of the following day contrived to make his escape with his friends.

On another occasion in Madrid the same singer, as he was returning late one night from the theater where he was engaged, was arrested by the police in mistake for a political discontenter. In vain he asserted his identity. He was carried before their chief, who likewise smiled incredulously at the captive's assertions.

Greatly angered, Mario vehemently demanded that his friends should be forthwith communicated with, but the official shook his head and remarked that if indeed he were the great tenor he possessed in his voice a sure means of proving the truth of his words. Ten minutes later Mario was bowed out with many regrets and profuse apologies.

When traveling to Paris with some other ladies, Mme. Grisi had a thrilling adventure. At a small wayside station a man entered the carriage, and it soon became evident from his threatening gestures and eccentric behavior that he was a dangerous lunatic.

Though her companions were panic stricken, Mme. Grisi retained complete presence of mind and with the utmost composure began to sing. At once the man was quiet; his whole attention was riveted on that magnificent voice, and he remained the most appreciative of listeners until the train reached the next station, where he was secured. It transpired subsequently that he was a maniac with homicidal tendencies who had escaped from an asylum.

An amusing story is told of Lablache, the celebrated bass singer. One day as he was strolling leisurely through a French fair a cry was suddenly raised that a bear had escaped from the menagerie. The crowd fled in every direction—all save the singer, whose massive proportions precluded the idea of rapid motion. Amid the general commotion he among them all stood unmoved, calmly awaiting the advent of the ferocious beast, which sure enough came slouching rapidly toward him. When within a few feet, it halted as though to gather itself together for a final rush, when Lablache stepped forward and from the lowest depths of his immense chest sent forth such a thunderous roar that the terrified animal turned and fled.

When Will a Man Be Too Rich?

What will eventually be the limit of individual wealth? Half a century back "ten thousand a year" was considered to be a vast fortune. Then "fifty thousand a year" was the phrase commonly used to describe the income of fabulously rich men or women. Later we took to speaking of "millionaires." In quite recent times the "multi-millionaire" with twenty millions had reached the limit of private wealth; then forty millions. Now the limit has risen to a hundred millions, and already the word "billionaire" has come into use in the United States. Will the multi-millionaire ever replace the multi-millionaire?—London Standard.

The Birthplace.

No matter where a man was born, he swells up and claims to be proud of it. There is no way of knowing if the favored spot reciprocates the feeling.—San Francisco Bulletin.

Painful All Around.

Dumlegh—It was an awful trial for me to make that speech tonight. Mildmay—Don't mention it, old boy; just think what the rest of us suffered.
