EDITORIAL MENTION.

Heine, the poet, is said to have made a will in which he bequeathed everything to his wife on the condition that she would marry again.

The Democratic members of Congress who are objecting to anti-anarchy legislation because it is against state rights are putting that doctrine to a bad use.

The British army after long and conclusive tests of the value of the Khaki color for uniforms has decided to discard it for the grey that has long been used by the Austrian army.

Not long ago there were many accounts of a contemplated European alliance against the United States, but just now it looks as if there were a number of countries that would like to make alliances with this country against some of their European neighbors.

An Indianapolis statistician points out that the American baby has thirty million chances to one against his becoming president of the United States, while the chances that he will not go insane are only about 500 to 1.

Many papers do not see the value of the Hoar resolution providing for the presidential succession, in the light of the act of Congress in 1896, which was supposed to have settled the question.

It is gratifying to note that among the famine conditions said to be threatening other countries of the world, there are only two that are menacing the United States.

Saved Her Child's Life. "In three weeks our chubby little boy was changed by Pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, O.

Who says he loves and is not wretched, lies. Something That Will Do You Good. We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them.

In hunting and in love you begin when you like, and leave off when you can. A Legacy Of The Grip. Is often a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease.

To begin love is man's choice, but not to end it.

Bilious Colic. H. Seever, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him.

A man declares his love, a woman confesses hers.

Mr. Wheeler Got Rid of His Rheumatism. "During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around."

To love for the sake of being loved is human; but to love for the sake of loving is angelic.

Letter to Cameron County Press.

Dear Sir: We feel a desire to thank you for telling the people of Emporium about Devoe lead and zinc, in comparison with lead and oil; but are restrained by the fact that your business is to print the news, all the news, especially good news.

It concerns every man that owns a house; it concerns every painter. Scarcely one of your readers is not concerned with a paint that saves men, on the average, several dollars a year apiece.

But people won't wait for proof, when we authorize our agent to sell it under this guarantee: "If you have any fault to find with this paint, either now in putting it on or hereafter in the wear, tell your dealer about it."

The usual painter's saying that lead is good for three years; Devoe lead and zinc is good for six years—yes, for ten or fifteen in favorable circumstances, if you mean "turns water."

Yours truly, F. W. DEVOE & Co.

A Night Alarm. Worse than an alarm of fire at night is the brassy cough of croup which sounds like the children's death knell and it means death unless something is done quickly.
