Our township election being over the successful candidates can now see the fruits of their efforts before election. We cannot longer refrain from speaking of a practice much in vogue here and elsewhere, of persons sending their hard earnings to such firms as Sears, Roebuck & Co., and John Smith and other Chicago, concerns. We wonder how much mercantile tax these firms pay into this county for selling their goods here, and thus depriving our home merchants of the trade that justly belongs to them.

when their wares are in the end good as the famous Chicago. We know of many of these Chicago patrons borrowing money of their home merchants to send these firms when the same goods were right at their own door at the same prices. People at this end of the route should ponder well on this matter. OLD KIT.
