W. S. Walker came over from Emporium Tuesday. Mr. Walker has broke ground for a very handsome residence on Costello avenue, after the completion of which Emporium may expect to relinquish their claim on him as a citizen.—Austin Autograph. Well, we suppose that is a fact. Much as we regret Mr. Walker's departure we feel that his gain to Austin will be appreciated. We have no better citizens than W. S. Walker and family.

Michael Murphy is able to sit up and is in a fair way to recovery.

A Doctor's Bad Plight.

"Two years ago, as a result of a severe cold, I lost my voice," writes Dr. M. L. Scarbrough, of Hebron, Ohio, "then began an obstinate cough. Every remedy known to me as a practicing physician for 35 years, failed, and I daily grew worse. Being urged to try Dr. King's New Discovery for Consumption, Coughs and Colds, I found quick relief, and for the last ten days have felt better than for two years." Positively guaranteed for Throat and Lung troubles by L. Taggart.

If a man has the right stuff in him it's bound to come out. That what makes some men's noses so red.

The Great Dismal Swamp

Of Virginia is a breeding ground of Malaria germs. So is low, wet or marshy ground everywhere. These germs cause weakness, chills and fever, ache in the bones and muscles, and may induce dangerous maladies. But Electric Bitters never fail to destroy them and cure malarial troubles. They will surely prevent typhoid. "We tried many remedies for Malaria and Stomach and Liver troubles," writes John Charleston, of Bylesville, O., but "never found anything as good as Electric Bitters." Try them. Only 50c. L. Taggart guarantees satisfaction.

Manners are the final and perfect flower of noble character.

A Nearly Fatal Runaway.

Started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill., which defied doctors and all remedies for four years. Then Bucklen's Arnica Salve cured him. Just as good for Boils, Burns, Bruises, Cuts, Corns, Scalds, Skin Eruptions and Piles. 25c at L. Taggart's drug store.

Love labor; for if thou dost not want it for food, thou mayest for physic.

I see that time divided is never long, and that regularity abridges all things.

TOUR TO THE YELLOWSTONE PARK.

Exceptionally Low Rates Offered by the Pennsylvania Railroad on Account of National Educational Association Convention.

The reduced rates authorized by the transcontinental railroads on account of the Annual Convention of the National Educational Association, to be held in Minneapolis, July 7 to 11, 1902, have enabled the Pennsylvania Railroad Company to offer to those contemplating attendance at this Convention an opportunity, under the direction of its popular Personally-Conducted Tourist System, not only of visiting the beautiful city in which the Convention is to be held, and participating in the deliberations of the Convention, but also of visiting the Yellowstone National Park, at a cost impossible under ordinary conditions of travel.

The Yellowstone Park is never more attractive than during the month of July, and the tourists under the care of the Pennsylvania Railroad will be afforded the fullest opportunity of visiting all its unique attractions, including the Mammoth Hot Springs, the Geysers, the beautiful Lake, and the Grand Cañon of the Yellowstone.

The tour will leave New York and Philadelphia, Saturday, July 5, and return Sunday, July 20. Round-trip tickets, covering all necessary expenses for the entire trip, including one berth in "pullman sleeper," will be sold at rate of \$150 from all points on the Pennsylvania Railroad east of Pittsburg. When two persons occupy one berth, the rate will be \$142 for each person. Rates from Pittsburg will be \$5 less than above.

Tourists will use a special train over the entire trip, with the exception of the six days devoted to the tour of the Park, when stages and the fine hotels maintained in the Park will be utilized. This special train will consist of a Pullman dining car, sleeping cars, and an observation car, all of the highest grade, and the passengers will find them fully as comfortable and convenient as the best hotels. During the three days at the Convention in Minneapolis, July 7 to 9, inclusive, this palatial train will be at the command of the tourists, obviating the necessity of securing accommodations at hotels.

The beauties of the Yellowstone National Park, most aptly termed Nature's Wonderland, must be seen to be appreciated. From the top of the stages in which the tour of the Park is made, there is spread out before the traveler a constantly-changing panorama of wonders—snow-crowned mountains; tumbling and tossing rivers; Yellowstone Lake, like a great blue sea, nestled amongst the beetling crags, at an altitude above that of the summit of Mt. Washington; the curious natural springs, where chemical deposits glisten in the sun's rays with all the colors of the rainbow; and the Geysers, ever presenting a scene of varied charm and awe-inspiring wonder.

The accommodations on this tour will necessarily be limited, and intending tourists should apply early in order to secure reservations of space. A detailed itinerary is in course of preparation, and all inquiries regarding accommodations should be addressed to Geo. W. Boyd, Assistant General Passenger Agent, Pennsylvania Railroad, Broad Street Station, Philadelphia, Pa. 2253-7-11

TRAVEL LIKE PRICES.

Those who saw the special train in which H. R. H. Prince Henry of Prussia made his tour of the United States are comparing it with other trains in regular service, and it is admitted that none of the cars in the train compare favorably with the buffet, compartment and standard sleeping cars of the Pioneer Limited trains of the Chicago, Milwaukee & St. Paul Railway in daily service between Chicago, St. Paul and Minneapolis. The people of this country have the satisfaction of knowing that at any time they cannot only travel like Princes, but can get much better service. 7-3t

Millions in Gold.

Over seven millions came from the Nome district alone. Government officials estimate the output from the Nome district will be doubled the coming season. The Bluestone, Kougarak and Pilgrim Rivers have been found very rich. There is hardly a creek from Port Clarence to Norton Sound in which the precious metal is not found, with hundreds of creeks not prospected yet.
