WASHINGTON LETTER.

(From our Regular Correspondent.)
Washington, May 5th., 1902.
Editor Press—

The long period of waiting in the Senate is approaching an end and the strain, under which Republican senators and the correspondents of the Republican press have labored, is to be remitted. The orders of Senator Lodge, in his capacity of manager on the floor of the Senate of the Philippine Civil bill, have been "hold your fire until you see the whites of their eyes," but the whites of a good many Democratic eye-balls are now in view and the first skirmish of the Republican forces was made on Friday by Senator Pritchard, of North Carolina. Behind the smoke of Senator Pritchard's skirmish line Mr. Lodge has been getting his big guns into line and to-day at two o'clock they will go into action with telling effect. The Senator from Massachusetts has prepared his speech very carefully and it is calculated to play havoc in the Democratic ranks. Mr. Lodge will admit the cruelties which have been practiced in the Philippines by American soldiers but he will point out that they all occurred from one-and-a-half to two years ago. Then he will cite the atrocities practiced on American soldiers by the Filipinos, outrages and barbarities which, to use the Senator's own words, "would make a marble saint thirst for vengeance." Space will not permit an enumeration of the frightful atrocities which have been perpetrated on the American boys and which have made their comrades, crazed with the sight of their brothers' suffering, overstep, in a very few instances, the bonds of civilized warfare. I have seen the Senator's speech and when the American people have read it their horror at the pictures which have been drawn for their imagination by Democratic partisans will be turned to pity, and to gratification that the American forces have shown themselves so tolerant, so merciful and so well-disciplined in the face of such frightful provocation. What the Democrats have been exultingly contemplating as magnificent material for the campaign will be shorn of its oratorical flowers and made to stand out as partisan vilification of American soldiers, under the furious batteries of the junior Senator from Massachusetts.

The testimony of Messrs. Havemeyer and Donner, respectively president and treasurer of the Sugar Trust, before the Committee on Relations with Cuba, have failed to discover the sensational facts which have been so confidently counted on by the opponents of Cuban reciprocity. The statements of both of these gentlemen, made under oath, have revealed the fact that the Trust has no holdings of Cuban sugar and that reciprocity will operate to the disadvantage rather than to the advantage of the trust. Further delay will obviously operate to the advantage of the trust, but Cuban reciprocity, according to their statements, will not. Mr. Mott, purchaser of raw sugar for the Company, cited with effect the results of admitting free Porto Rican sugar as ample evi-

dence of the benefit to the planters of a reduction of the tariff.

The refusal of the Attorney General to meet in conference the representatives of the beef trust is in entire accordance with the views of the President and with the action already taken by the Department of Justice. Mr. Knox has begun this suit in the belief that the men who compose the trust have violated the law and have conspired to raise the price of a commodity which is important to every consumer. There is nothing about which he wishes to confer. He has brought suit in the courts and the results will stand on the facts there demonstrated. It is not the position of the government to compromise with law breakers and it now remains to the courts to determine if the Attorney General is correct in his assumption that the law has been violated. Having demonstrated the correctness of his position Mr. Knox will leave it to the courts to enforce the law and fix the penalty.

Spring Ailment.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at L. Taggart.

The wise man flatters the fool, but the fool flatters himself.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. L. Taggart.

Labor is the girdle of manliness.

A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. L. Taggart.

Money is like muck, not good unless it spread.

Dangerous if Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yanketown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel, a few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. R. C. Dodson.

Virtue is like precious odors, most fragrant when they are incensed or crushed.

You never heard of any one using Foley's Honey and Tar and not being satisfied. L. Taggart.

I see that time divided is never long, and that regularly abridges all things.

Will Cure Consumption.

A. A. Herren, Finch, Ark., writes, Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." L. Taggart.

Love labor, for if thou dost not want it for food, thou mayest for physic.

A Spring Tonic.

Everybody needs a tonic in the spring, at this time the system craves a tonic. It is housecleaning time for your body. Lichty's Celery Nerve Compound will tone up your nerves, blood, kidneys and liver and fill you with health and energy. Sold by L. Taggart.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J. H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." R. C. Dodson.

Manners are the final and perfect flower of noble character.

Traveling is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. H. Hansen, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." L. Taggart.

If a man has the right stuff in him it's bound to come out. That what makes some men's noses so red.

The Spring Fever

Is a malady which no one can escape at this season of the year. The vitality is usually overtaken during the winter months, and spring finds the system all run down. The blood is thinned and impure. The kidneys and liver are inactive—resulting in a loss of energy and appetite, and a derangement of the nerves. Lichty's Celery Nerve Compound will purify your blood, tone up your nerves, and leave you feeling fresh and energetic. Sold by L. Taggart.

Take wine from good soil, and a daughter from a good mother.

Wants Others to Know.

"I have used DeWitt's Little Risers for constipation and torpid liver and they are all right. I am glad to endorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. R. C. Dodson.

To give and to lose is nothing; but to lose and to give still is the part of a great mind.

Holds up a Congressman.

At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter." Over worked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by L. Taggart.

All colors will agree in the dark.

Cures When Doctors Fail.

Mrs. Grauk Chiasson, Patterson, La., writes June 5th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle at L. Taggart.

Conscience is the voice of the soul; the passions are the voice of the body.

To live in hearts we leave behind is not to die.

A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. L. Taggart.

MONTEREY CALIFORNIA.

Continued from First page.

finer, augmented in no small degree by repeated "raids" on gambling places throughout the town, the entire outfit, including "jack pot" and all its contents, finding its way into this fund, until money enough to build the capitol was secured by Mr. Colton, and the gamblers still played their game.

Monterey's Sub-Marine Gardens, a new industry for at least one enterprising individual in Monterey has sprung up within the past year. It sprang from the bottom of the sea, and is plied with the aid of "El Buso"—the glass-bottomed boat. These Sub-Marine gardens and menageries are so old as "old ocean" itself, but have only recently been brought to the notice of the public, and in their antiquity consists their marvelous beauty. The Monterey gardens have not been advertised as have those of Santa Catalina Islands, lying about 30 miles off San Pedro Harbor, where the glass bottomed boats through which can be viewed the wonderful animal and vegetable life that inhabits the bottom of the sea have been in use for some time, and thousands of "tourists" have absolutely courted sea-sickness, and many actually took the dread malady home to their "bosoms," all for a peep at the gardens of the sea whose counterpart is found nowhere on land. The master of "El Buso" tells his enthusiastic passengers, that there are by actual count 173 species of sea mosses, kelps, weeds, vegetables, etc., with coral reefs resplendent with color, all of which are inhabited by 150 species of fish in this bay. These coral reefs with their varicolored mosses, barnacles and shell growth, the result in tint and outline of the action of the sea through the ages since creation, assisted by the crystallizing influences of the waters of old ocean, present a picture of rare and marvelous beauty, one that the most extravagant imagination cannot conceive, one that the most talented pen cannot describe, and the most artistic brush cannot depict.

These, interspersed with the multitude of shell fish, of hue so dainty and delicate, and shape so unique and picturesque, the houses of the inhabitants of the bottom of the sea constitute the architecture of this city of the depths. Fishes without houses to dwell in are here seen basking in the beauties of these tropical sea gardens, these aquariums of the deep. The skeletons of whales, the wrecks of centuries, lie scattered in the depths. The Octopus is by no means a stranger in these waters, and can be seen clinging to the bottom or to the sides of rocks with his score or more of arms or legs, waiting motionless for the opportunity to embrace in his strong far-reaching tentacles, some defenceless creature upon which to make his morning meal. Every rock in these placid depth, is radiant in colors so harmoniously blended, and so graceful in form that it would put to blush the efforts of artist and sculptor to reproduce it with brush and chisel.

The principal vegetable raised here without cultivation is the cucumber that attains a giant size, the chief fruit is the sea olive that grows in abundance on tall graceful trees or stems standing upright or in a graceful drooping position, some of them reaching a height of 30 or 40 feet, and the plant or tall kingdom is mainly represented by the graceful Cypress, that is equally, or even more attractive on the bottom of the sea, than is its sister growth on land. The crowning glory however, of this fairy-like, yet extremely realistic panorama, remains for the immense and luxuriant floral bouque, so soft and symmetrical in arrangement and yet so mammoth in its proportions, it seems the work of a giant hand. I wish only to say in conclusion, let no visitor to the Pacific Coast, from the East, return without seeing the Sub-Marine gardens of "Monterey."
