A hundred or more Italians, who were employed by Sims & Co., on the contract work above the city, were discharged upon the completion of the work on Tuesday. They had received \$1.50 per day and refused to accept another job from the same company at Driftwood for \$1.35, prefering to "press brick" for nix.-Lock Haven Times.

Killed at Kinzua

A special from Kinzua dated June 3

says: Abe Goodman, a Bradford junk dealer and peddler, killed a man here last evening by a single blow from his fist. The victim was named David Kane. Kane had bean drinking and had sought Goodman for the purpose of engaging him in a quarrel. They met on the main street of the town about 7 o'clock. Kane is said to have approached Goodman in a menacing way and to have asked: "Do you want to fight me?" Goodman answered, "No; I want nothing to do with you." Then with a most insulting expression Kane was about to attack Goodman, when the latter quickly and with terrific force "swung" on his antagonist with his right hand. His fist caught Kane on the jaw and Kane dropped in his tracks fatally knocked out. An effort was made to arouse him, but without effect. A physician who was called pronounced him dead.

Goodman made no effort to leave and was put under restraint by the local constable. This after noon he was taken to Warren county jail, at Warren and locked up. He tells a straight story of the affair and is entirely unconcerned as to the outcome, feeling that he was justified on grounds of self-defense in proceeding as he did. This opinion is generally shared here. The coroner's inquest concluded its investigation this evening and returned a verdict in accordance with the facts above given.

Kane leaves a wife and two chidren, who are now in Randolph, N. Y., the former home of the family. Goodman and his victim had met before, it is said, and were enemies.-Smethport

The Capitol Dome.

The Capitol dome of Washington is the only considerable dome of iron in the world. It is a vast hollow sphere weighing 8,000,000 pounds. How much is that? More than 4,000 tons, or almost the weight of 70,000 full grown persons, or about equal 1,000 laden coal cars of four tons each, which if strang out one behind the other would occupy a mile and a half of track. On the very top of the dome the allegorical figure "America" weighing 13,986 pounds lifts its proud head high in the air. The pressure of this dome and figure upon the piers and pillars in 14,146 pounds to the square foot. It would however re quire a pressure of 765,286 pounds to the square foot to crush the supports of the dome. The cost of this immense dome was little short of \$100,000.—Ex

Will go to Hospital in New York.

Mrs. Fritz Guidus who has been seriously ill and receiving treatment at a hospital in Buffalo returned home last Friday. Her many friends will be sorry to learn that she did not receive any benefit during her stay at that place and is compelled to go to New York city for treatment. Mr. Guidus will accompany her and will remain there during her stay. It is hoped that she will be benefitted by this visit. They will leave next Monday.

The Great Coal Strike.

At present there is every indication of a prolonged continuance of the colassal anthracite coal strike which is now agitating the whole country. Nearly 150,000 men are on strike and President Mitchell, of the mine workers, professes absolute confidence that his men will be able to stick out to the end. The coal operators, for their part, are equally sure of success and are doing their best to break the spirit of the strikers.

The Banner State for Potatoes.

New York raises more potatoes than any other state. The annual crop of New York is approximately 30,000,000 bushels. Michigan ranks next with about 17,000,000 bushels annually. The total production in all the states is something over 200,000,000 bushels.

Large Rail Orders.

The Pennsylvania and other steel companies in this state have more rail orders for 1902 delivery than they can fill and orders for delivery before next spring have been turned down. The price for the coming year has been made \$28 and there is an abundance of that the Poor Masters of Lumber townwork at that price. Some of the large railroad companies have had to hustle to get their orders placed with the Pennsylvania Steel company for early delivery next year and there are already against his treatment, but cannot pubmany orders for rolling in 1963 on the books of the Steelton works.

As the Twig is Bent.

The great problem for the suppression of cruelty to animals may be solved if we turn more from the corrective to the preventative stage. That trite saying aptly fits, "You can't teach an old dog new tricks." There is little hope of permanent reformation among men and women steeped in the habit of cruelty.

We turn with hope, however, to the youth and children of our day for the application of preventative methods. The spirit that animates a child to take pleasure in giving pain to a dumb creature, more helpless than itself, is the same that prompts acts of cruelty in an adult to a child.

Some boys can find no better pastime on summer evenings than chasing poor cats from place to place; and this unfeeling play is often carried to the extreme of killing.

A stray dog runs along, a boy picks up a stone and hurls it at him, a yelp of pain tells us the aim was too true.

Dare we look with indifference at this spirit of cruelty, which these apparently small acts, are generating in the children?

Will the peace and welfare of our ountry be safe in the hands of these, who are to become our nation's protectors, the parents of our next genera-

We can well trust our country's honor to the soldier, who, on his Morgantown, W. V., where she was march, picked up a little bird, buttoned married on Wednesday to Mr. Frank it snugly in his coat and when camp at that place. Miss Carter has many for it. Why not publish names of of-

kindness to dumb creatures, collected at that much of the testimony in book form, introduced into our presented by Senator Mitchell in schools and public libraries may serve from a large log at Howard Co.'s mill to create in the hearts of the young a at this place, the log was found to be love for all helpless creatures, and put old Maritime Canal Company who, to shame the spirit of cruelty which is so dominant.

Clubs may also be formed among children as supporters of the noble work the Humane Societies of the United States and the world are undertaking.

Killed Near Keating Summit.

Frank Wilcox was killed near Keating Summit Tuesday, June 3, on the Root Bros. job. He had worked but one day and was in the act of falling a large hemlock, when it lodged in another tree. He had managed to get it loosened and ran from it dodging in under a tree that lay on the stump, when the falling tree "kicked back" and struck the tree he was in under which came down upon him. He only lived four hours afterwards. He was buried in Woodlawn cemetery on Crandall Hill on Thursday .-- Port Allegany Argus.

WASHINGTON LETTER.

(From our Regular Correspondent.) Washington, June 9th, 1902. Editor Press

As if to confirm the wisdom of the Senate in passing the Lodge bill, providing for the futher extension of civil government in the Philippines, a report has just reached Secretary Root from Mr. Luke Wright, Acting Governor of the Philippine Islands, and a democrat, stating that the insurrection in the islands is practically at an end and that there is now no obstacle to the extension of civil government to all of the archipelago aside from the More country. Governor Wright advises that in some provinces the army be retained in control until the crops mature in August. for the reason that, because of the perfect organization of the military branch assistance may be more readily extended to the natives until such time as they receive the results of their agricultural labors. Secretary Root has issued a general order by which the permanent military establishment of the government is to be reduced to 66,000 men, a reduction of 10,000. In the light of these facts the contentions of democratic party appear particularly ridiculous. The Philippine bill, which was passed on the date of my last letter, carried by a vote of 48 to 30, Senators Wellington, Hoar and

Mason being the only republicans

to vote against it.

The Nicaraguan Canal bill is now the unfinished business in the Senate. The advocates of the Panama route claim that they have that they now have a comfortable majority and it seems to be the general opinion that the Spooner resolution will be adopted eventually, whereby the President will be authorized the select the route, at least to this extent: The President will be authorized to investigate the ability of the French Company to deliver a clear title to its property at the valuation placed on it by the Isthmian Canal Commission, \$40,000,000 and to purchase it if satisfied with the title and to continue the work of the great engineer, De Lesseps; but if President will begin work on the with the provisions of the Hepburn bill. So far, Senators Morgan, Mitchell and Harris have spoken in advocacy of the Nicaraguan and Panama route. Senator Hanna scored an effective point during A number of interesting stories of the course of his remarks when he support of the Nicaroguan route came from parties interested in the in the event of the United States selecting the last named route, would immediately claim damages on the ground of their old franchise. The question of Cuba reciprocity

is causing considerable concern to the President and his supporters in the Senate and on its termination undoubtedly hangs the date of the adjournment of this session of Congress. The beet sugar senators, Congress. The beet sugar senators, who have come to be known as "Elkins' boxers", persist in there opposition with great pertinacity. Last week there was circulated a rumor that the President had intimated to Senator Cullom that he would be satisfied with a bounty paid to the Cubans out of the Treasury but Senator Cullom assures me that the President has not changed his views in the least degree since he sent his first message to Congress. From another source I learn that within a week Mr. Roosevelt has asserted that if Congress adjourns without action Mr. Daniel Britton complains bitterly on this question he will call a nat the Poor Masters of Lumber town-special session. Such action, it is freely conceded, would be a mistake from a political standpoint, but those who know the President best appreciate that if he has conceived

Are Cameron Democrats Gold-Bricked?

Hon, J. K. P. Hall, the present repesentative in Congress from the old Twenty-eight district, is certainly keeping the natives guessing in regard to his future. He has been a candidate for the Democratic nomination for Governor for about a year past. Last week he was endorsed by the Democratic county convention of Center county as the Democratic nominee for Congress in the new Twenty-first district, consisting of the counties of Clearfield, Center, Cameron and Me-Kean. And to cap the climax here comes the Clarion Democrat containing the announcement that Mr. Hall is a candidate for the Democratic nomination for State Senator in this district, and the only local candidate Clarion county had has withdrawn in Mr. Hall's favor, which makes his endorsement praciteally sure at the convensuch a course to be his duty no consideration of his own political success will deter him.

tion June 23. Exactly what Mr. Hall is after is hard to guess, but it is evident he is at least hunting a soft place to light.—Ridgway Advocate.
