Strike Troubles.

The tension in the strike regions is beginning to manifest itself in an occasional outbreak between the strikers and the men who are at work. It is unfortunate that the good order which is being observed throughout the anthracite regions should be disturbed by these encounters.

Last night at Lykens men returning from their work were maltreated by the strikers and the situation at that place is regarded as extremely critical. It is still hoped that peace may be preserved and that no act will be committed which will precipitate a serious outbreak.

Organized labor can gain nothing by interfering with the rights of those not identified with the unions and the advice of the leaders that nothing shall be done to destroy the confidence of the public in their cause should be taken.

Making Cool weather.

Col. Henry Hall, in a recent letter from Washington to the Pittsburgh Times, says: Tired, probably, of attempting to predict what the weather will be, Willis L. Moore chief of the bureau, is now trying to put it under partial control. He has, after two years of experiment, invented a machine or apparatus for the purpose of purifying and cooling the air by gravity and the use of certain chemicals, the formula of which is, of course, kept secret.

Mr. Wilson will urge President Roosevelt to have one of these machines put in the White House at once. The cost is said not to be very great, certainly not so high as to place this invention beyond the reach of the moderately well-to-do.

Bright Republican Prospects.

The prevailing confidence among Republicans in Washington as to the ability of the party to carry the elections this Fall and secure a majority in the next House of Representatives is only a reflection of the situation as seen by candid observers. There was never any ground for the hope of Democratic success, so confidently uttered except the popular belief that off-year elections go against the party in power and the fear that some mistakes had been made by the army in the Philippines which would reflect on the national Administration.

Developments have shown that expectations based on these arguments are not to be trusted. The superstition in favor of an anti-Administration majority in the House of Representatives in a mid-Presidential year has been shattered again and again. The elections of 1886, in the middle of Grover Cleveland's first term, returned a Democratic majority to the House of Representatives, and the elections of 1898, in the middle of William McKinley's term, returned a Republican majority. There is less reason to expect an opposition victory in 1902 than in either of those years.

The other reason for looking for a political overthrow, that some mistake has been made in the Philippines is admitted even by the Democrats themselves to be groundless. The attempt to stage a national campaign on the "water cure" and a few evidences of harshness in retaliation for Filipino treachery has been abandoned by those who sought to make it. They have found that the people, instead of growing enthusiastic over such issues, have looked with wonder and disgust at a party defaming the soldiers of its own country and seeking to ride into power on slander and abuse.

The Oregon election indicates the direction in which the tide is setting. The largest Republican majority that State ever gave on Congressmen is a forecast of the answer the country will return in November to those who have tried to make merchandise of the army's good name. That majority foreshadows a disappointment for the Democrats as profound as it will be merited, and points to the election of a Republican Congress that will help the Administration maintain the honor of the country.—Philadelphia Press.

A Emporium Woman Asks

"Have you a floor paint that will last two weeks?" Yes we have Devoo's; it has a beautiful gloss and will wear two years if properly applied. Murry & Coppersmith.

Read it in His Newspaper.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief.

It always makes us mad to see a poor player wear a base ball suit.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season.

You can't deny that it looks shiftless to own more than one dog.

Call at L. Taggart's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels.

A kiss may be either a punishment or a reward.

You may as well expect to run a steam engine without water as to find an active, energetic man with a torpid liver and you may know that his liver is torpid when he does not relish his food or feels dull and languid after eating, often has headache and sometimes dizziness.

After a mighty lie has prevailed men call it the truth.

Saved From an Awful Fate.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa., "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured."

Some men waste a lot of time wishing it were to-morrow.

Virulent Cancer Cured.

Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him.

Civilization compels the savage to work for his daily bread.

Krause's Cold Cure.

For colds in the head, chest, throat or any portion of the body, breaks up a cold in 24 hours without interruption to work. Will prevent colds if taken when first symptoms appear. Price 25c. Sold by L. Taggart.

Dyspepsia is the parent of many disagreeable qualities.

Head Feels Like Bursting.

Maybe you were out late last night? If you had taken a Krause's Headache Capsule before retiring your head would be cool and clear this mornin'. Take one now and you will be all right in an half hour. Price 25c. Sold by L. Taggart.

Magic Color Pictures.

A glass of water and a sponge or brush act like a box of paints on the wonderful "Watergraphs," which will appear in next Sunday's Philadelphia Press. It's the cleverest novelty of the year. The pictures are printed apparently in black ink. You touch them with water, and in a second they become beautiful water color paintings.

The great puzzle-man, Sam Loyd, is now on The Sunday Press staff of entertainers. He has a page each Sunday that will set you thinking and amuse you, too. Order next Sunday's Philadelphia Press of your newsdealer in advance. Then you'll be sure to get it.

No Gloss Carriage Paint Made Will wear as long as Devoo's. No others are as heavy bodied, because Devoo's weigh 3 to 8 ounces more to the pint. Sold by Murry & Coppersmith.
